The Icarus Deception How High Will You Fly:

The Icarus Deception Seth Godin, 2012-12-31 In Seth Godin's most inspiring book he challenges readers to find the courage to treat their work as a form of art. Everyone knows that Icarus's father made him wings and told him not to fly too close to the sun; he ignored the warning and plunged to his doom. The lesson: Play it safe. Listen to the experts. It was the perfect propaganda for the industrial economy. What boss wouldn't want employees to believe that obedience and conformity are the keys to success? But we tend to forget that Icarus was also warned not to fly too low because seawater would ruin the lift in his wings. Flying too low is even more dangerous than flying too high because it feels deceptively safe. The safety zone has moved. Conformity no longer leads to comfort. But the good news is that creativity is scarce and more valuable than ever. So is choosing to do something unpredictable and brave. Make art. Being an artist isn't a genetic disposition or a specific talent. It's an attitude we can all adopt. It's a hunger to seize new ground, make connections, and work without a map. If you do those things, you're an artist, no matter what it says on your business card. Godin shows us how it's possible and convinces us why it's essential.

Summary of The Icarus Deception by Seth Godin, 2024-07-15 Book Description: *The Icarus Deception* by Seth Godin: How High Will You Fly? As technology continues to become smarter and more efficient, the job market changes too. No longer are the boring and repetitive nine-to-five jobs as safe as they once were. The world is changing, but that doesn't have to be a bad thing. It's time to do something about it. It's time to adapt to the new digital economy. So how can you do this? By becoming an artist. According to Seth Godin, you must embrace your creativity and break out into a field you are passionate about. Art, however, doesn't have to be painting pictures and drawing fruit in a basket. Art is simply any creative task that requires something more than a computer can offer: ingenuity, creativity, and passion. Becoming an artist might require you to go against everything you've been taught about life. You should no longer rely on the old-fashioned corporate ladder with a guaranteed salary. It's time to create a better, more fulfilling society by following your passions, even if that means giving up your cushy desk job. With Seth Godin's advice, you'll be ready to tackle your passions in no time. As you read, you'll learn why the myth of Icarus is holding you back, how being like a god will help you succeed, and why society uses shame to control your actions and prevent you from pursuing your dreams.
