[Swedish Hockey Drills for Kids](#) Jukka Aro,2021-11-29 Hockey drills are available in large quantities but usually for the slightly older hockey players but how do the younger players get a good start to their hockey careers In this category hockey drills for the younger ones or hockey drills for kids or children there are not as many suggestions for basic but developing hockey drills At the same time it is also often here that many hockey coaches start their coaching path and educate themselves during the journey There it may be good and often necessary with a little help with hockey drills for the early hockey practice which you will go directly to from work Putting an exact age on for whom the hockey drills in the book are suitable for is not possible because it is related to the level of competence What you can say is that the hockey drills in the book are suitable for the youngest 5 6 years and up and that some 10 13 year old would definitely benefit from doing several of the drills to develop as hockey players now and later The emphasis in the hockey drills is on

skating and even though we are talking about the younger hockey players there are match like elements built into many of the practices in a basic format There are also many simpler competition elements in the drills because that is what it will ultimately be about in the matches to compete on the ice first to the puck as a first basic element Two other important elements covered by the hockey drills are the first steps towards an interaction in the form of movement and passes and of course what we strive for with each attack to shoot to score a goal

Match-like Hockey Drills Jukka Aro, 2020-04-01 Match like hockey drills The idea of this hockey book is that the focus should be entirely on hockey drills in different categories and that all hockey drills link as much as possible to the theme of match like hockey training whether it is a warm up drill skating or a passing drill You will of course find some exceptions in especially the skating drills where it is sometimes more about drilling down your head and work with the speed fitness and technique but many skating drills are linked to for example defense skating offensive skating forechecking or memorizing skating paths Match like training The hockey drills with turnovers breakouts offensive drills and 1 vs 1 2 vs 1 2 vs 2 3 vs 2 or 3 vs 3 of course naturally gets a strong connection to the theme match like hockey drills You also get tips on spices for the hockey drills which make a difference details that cannot be drawn into the drills but link the drills even more strongly to the theme match like hockey drills
