 Moyeen,2017-07-30 This book analyses various aspects of social responsibility corporate responsibility sustainability and
 governance Rather than focusing narrowly on a single perspective it investigates a number of problems and scenarios that
 can all be considered an aspect of one of these fields and shows how they are all related to each other and to the problems
 and issues facing businesses This approach is based on the tradition of the Social Responsibility Research Network which in
 its 15 year history has sought to broaden the discourse and to treat all research in these areas as inter related and relevant
 to business The book collects the best papers presented at the 15th International Conference on Corporate Social
 Responsibility and 6th Organisational Governance Conference held in Melbourne Australia in September 2016 Global
Development, Ethics, and Epistemic Injustice Anna Malavisi,2022-12-31 Global Development Ethics and Epistemic Injustice
 Rethinking Theory and Practice presents a critical analysis of global development from a perspective that is both theoretical
 and practical addressing both ethical and epistemic issues Offering a unique perspective from having worked as a
 practitioner in global development for several years then left the practice to ponder the deep ethical issues that shadow
 global development Anna Malavisi argues that one of the problems in global development today is the absence of an ethical
 analysis ethics in development today is overshadowed by economic and political interests as well as national self interest The
 book describes how Chagas disease as a Neglected Tropical Disease continues to plague vulnerable populations in poorer
 countries such as Bolivia due to a very limited way in how it has been conceived understood and addressed Malavisi offers a
 strong ethical approach comprising a feminist methodology a social ethical praxis political responsibility epistemic justice
 and deep green theory A strong ethical approach is necessary to address Chagas Disease as well as other development
 problems in a more effective way *Don't Look Up: House Prices in Emerging Europe* Mr. Serhan Cevik,Sadhna
 Naik,2022-12-02 This paper investigates how housing prices respond to economic financial and demographic conditions in
 emerging markets in Europe We use quarterly data covering 10 countries over the period 1998 2022 and implement a panel
 quantile regression approach to obtain a granular analysis of real estate markets Overall economic financial and
 demographic factors explain the changes in real house prices in emerging Europe with income growth having the most
 significant impact Quantile regression estimations show that income growth matters more for higher housing prices than
 those at the lower quantiles of the property market We also find that an increase in short term or long term interest rates
 have a price dampening impact indicating that a higher cost of borrowing is associated with lower real house prices These
 results indicate that the downturn in house prices could deepen with the looming economic recession and soaring interest
