A Companion to the Biopic Deborah Cartmell, Ashley D. Polasek, 2020-01-15 The most comprehensive reference text of theoretical and historical discourse on the biopic film The biopic often viewed as

the most reviled of all film genres traces its origins to the early silent era over a century ago. Receiving little critical attention, biopics are regularly dismissed as superficial formulaic and disrespectful of history. Film critics, literary scholars and historians tend to believe that biopics should be artistic yet accurate true to life representations of their subjects. Moviegoing audiences however do not seem to hold similar views; biopics continue to be popular commercially viable films. Even the genre's most ardent detractors will admit that these films are often very watchable, particularly due to the performance of the lead actor. It is increasingly common for stars of biographical films to garner critical praise and awards, driving a growing interest in scholarship in the genre. *A Companion to the Biopic* is the first global and authoritative reference on the subject. Offering theoretical, historical, thematic and performance based approaches, this unique volume brings together the work of top scholars to discuss the coverage of the lives of authors, politicians, royalty, criminals and pop stars through the biopic film. Chapters explore evolving attitudes and divergent perspectives on the genre with topics such as the connections between biopics and literary melodramas, the influence financial concerns have on aesthetic, social or moral principles, the merger of historical narratives with Hollywood biographies, stereotypes and criticisms of the biopic genre and more. This volume provides a systematic in depth analysis of the biopic and considers how the choice of historical subject reflects contemporary issues. Places emphasis on films that portray race and gender issues. Explores the uneven boundaries of the genre by addressing what is and is not a biopic as well as the ways in which films simultaneously embrace and defy historical authenticity. Examines the distinction between reality and the real in biographical films. Offers a chronological survey of biopics from the beginning of the 20th century. *A Companion to the Biopic* is a valuable resource for researchers, scholars and students of history, film studies and English literature as well as those in disciplines that examine interpretations of historical figures.

The Informal Media Economy Ramon Lobato, Julian Thomas, 2015-04-22. How are grey market imports changing media industries? What is the role of piracy in developing new markets for movies and TV shows? How do jailbroken iPhones drive innovation? *The Informal Media Economy* provides a vivid, original and genuinely transnational account of contemporary media by showing how the interactions between formal and informal media systems are a feature of all nations, rich and poor, large and small. Shifting the focus away from the formal businesses and public enterprises that have long occupied media researchers, this book charts a parallel world of cultural intermediaries driving global media production and circulation. It shows how unlicensed, untaxed or unregulated networks which operate across the boundaries of established media markets have been a driving force of media industry transformation. The book opens up new insights on a range of topical issues in media studies, from the creative disruptions of digitisation to amateur production, piracy and cybercrime.

Popular Media Cultures L. Geraghty, 2015-04-14. *Popular Media Cultures* explores the relationship between audiences and media texts, their paratexts and interconnected ephemera. Authors focus on the cultural work done by media audiences, how they engage with social media and how convergence culture impacts on the strategies and activities of popular media.
