The Really Useful Book of Secondary Science Experiments Tracy-ann Aston,2017-07-31 How can a potato be a battery How quickly will a shark find you What food should you take with you when climbing a mountain The Really Useful Book of Secondary Science Experiments presents 101 exciting real world science experiments that can be confidently carried out by any KS3 science teacher in a secondary school classroom It offers a mix of classic experiments together with fresh ideas for investigations designed to engage students help them see the relevance of science in their own lives and develop a passion for carrying out practical investigations Covering biology chemistry and physics topics each investigation is structured as a problem solving activity asking engaging questions such as How can fingerprints help solve a crime or Can we build our own volcano Background science knowledge is given for each experiment together with learning objectives a list of materials needed safety and technical considerations detailed method ideas for data collection advice on how to adapt the investigations for different groups of students useful questions to ask the students and suggestions for homework Additionally there are ten ideas for science based projects that can be carried out over a longer period of time utilising skills and knowledge that students will develop as they carrying out the different science investigations in the book The Really Useful Book of Secondary Science Experiments will be an essential source of support and inspiration for all those teaching in the secondary school classroom running science clubs and for parents looking to challenge and excite their children at home

Fundamentals of Nursing E-Book Barbara L Yoost,Lynne R Crawford,2019-01-23 Yoost and Crawford s Fundamentals of Nursing is back for a second edition encore The text that made its name by focusing on simple language and active learning continues its focus on helping you truly understand apply and retain important nursing information and concepts Using a warm and conversational style this new second edition guides you towards a basic understanding of the nursing profession and then logically progresses through the nursing process and into the safe and systematic methods of applying care Each chapter features realistic and complex case studies and critical thinking exercises woven throughout the content to help you continually apply what you ve learned to actual patient care A conceptual care mapping approach created by Yoost and Crawford themselves further your ability to make clinical judgments

and synthesize knowledge as you develop plans of care after analyzing and clustering related patient assessment data All of this paired with a wealth of student friendly learning features and clinically focused content offers up a fundamentally different and effective way for you to easily master the fundamentals of nursing

UNIQUE Warm friendly writing style slows down the pace of information to give readers time to critically think and master all fundamental concepts and skills

UNIQUE Building block approach groups topics and concepts together thematically in the order needed for readers to build their knowledge

UNIQUE Objective driven approach presents clearly defined numbered objectives that coordinate with all content and then wrap up with Objective Summaries

UNIQUE Active learning activities are incorporated throughout every chapter to help readers learn to apply chapter content to broader nursing concepts and realistic patient scenarios

UNIQUE Conceptual care mapping is taught and used throughout the text in conjunction with the Conceptual Care Map Creator

UNIQUE Emphasis on QSEN reinforces the Quality and Safety Education for Nurses competencies including patient centered care teamwork and collaboration evidence based practice quality improvement safety and informatics

Special feature boxes cover the areas of diversity consideration evidence based practice informatics patient education healthy literacy health assessment questions interprofessional collaboration and delegation ethical and legal practice home care considerations safe practice alerts

QSEN critical thinking exercises and nursing care guidelines

NEW Interprofessional collaboration and delegation content appears throughout the text along with new IPE activities that are integrated into the Evolve resources

NEW UNIQUE Review and exam questions tied to learning objectives use a building block style approach that starts at lower Bloom s taxonomy levels in early chapters and builds to more complex levels as readers acquire more knowledge

NEW Emphasis on assignment and delegation covers the differences between them and how and when they re appropriate for an RN

NEW Content on complementary therapies has been integrated throughout the text to reflect the changes to the NCLEX exam

NEW Additional information has been added in the areas of HCAHPS Health Literacy Patient Education Drugs of Abuse Zika Ebola and more
