language courses The strength of this book is its focus on quick acquisition of core vocabularies which comes at the expense of information many people might expect in a conventional language learning book Please be aware of this when making the purchase

How to use this Spanish workbook This book is ideally used on a daily basis reviewing a set number of pages in each session The book is split into sections of 50 vocabularies which allows you to step by step progress through the book Let's for example say you are currently reviewing vocabularies 101 to 200 Once you know vocabularies 101 to 150 very well you can start learning vocabularies 201 to 250 and on the next day skip 101 150 and continue reviewing vocabularies 151 to 250 This way step by step you will work your way through the book and your language skills will jump with each page you master

Some final thoughts Like many language hacking methods this book is quite unconventional in its approach but for a driven person that uses it correctly it can significantly speed up the learning process Vocabulary books have been around for centuries and as with so many things that have been around for some time they are not very fashionable and a bit boring but they usually work quite well and that is what counts in the end
