Intersecting Cultures in Music and Dance Education Linda Ashley, David Lines, 2016-05-25. This volume looks forward and re-examines present-day education and pedagogical practices in music and dance in the diverse cultural environments found in Oceania. The book also identifies a key issue of how teachers face the prospect of taking a reflexive view of their own cultural legacy in music and dance education as they work from and alongside different cultural worldviews. This key issue amongst other debates that arise positions *Intersecting Cultures* as an innovative text that fills a gap in the current market with highly appropriate and fresh ideas from primary sources. The book offers commentaries that underpin and inform current pedagogy and bigger picture policy for the performing arts in education in Oceania and in parallel ways in other countries.

Dance Education Susan R. Koff, 2021-01-14. Winner of the 2021 Ruth Lovell Murray Book Award. *Dance Education* redefines the nature of dance pedagogy today, setting it within a holistic and encompassing framework and argues for an approach to dance education from a socio-cultural and philosophical perspective. In the past, dance education has focused on the learning of dance limited to Western-based societies with little attention to how dance is learned and applied globally. This book seeks to re-frame the way dance education is defined, approached, and taught by looking beyond the privileged Western dance forms to compare education from different cultures. Structured into three parts, this book examines the following essential questions: What is dance? What defines dance as an art form? How and where is dance performed and for what purpose? How do social contexts shape the making and interpretation of dance? The first part covers the history of dance education and its definition. The second part discusses current contexts and applications, including global contexts and the ability to apply and comprehend dance education in a variety of contexts. This book opens up definitions rather than categorising so that dance is not presented in a hierarchical form. The third part continues to define dance education in ways that have not been discussed in the past: informal contexts. The book then returns to the original definition of dance education as a way of knowing oneself and the world around us, ending on the philosophical application of this self-knowledge as a way to be in the world and to engage with others regardless of background. This textbook is a refreshing and much-needed contribution to the field of dance studies by one of the most eminent voices in the field.

Dance Pedagogy for a Diverse World Nyama McCarthy-Brown, 2017-04-26. Issues of race, class, gender, and religion permeate the study of contemporary dance, resulting in cultural clashes in classrooms and studios. The first of its kind, this book provides dance educators with tools to refocus teaching methods to celebrate the pluralism of the United States. The contributors discuss how to diversify ballet technique classes and dance history courses in higher education, choreographing dance about socially charged contemporary issues and incorporating Native American dances into the curriculum among other topics. The application of relevant pedagogy in the dance classroom enables instructors to teach methods that reflect students' culture and affirm their experiences.

In Pursuit of an African Traditional Dance Thomas Jing, 2022-02-28 Africa is rich in neo traditional dances yet not much exists in the form of written literature on the subject Even worse existing documents date back to the colonial period and are often disparaging Dance to Africans is what martial arts are to Asians Embedded in them are some of the solutions to many of the problems wracking the African diaspora gang violence drug addiction and high school dropout rates etc When Guinea s Ballets Africains first bursts on the international scene in the late fifties and sixties the black revolution in the US was in full swing The troupe s emancipatory message enkindled in African Americans a new sense of cultural pride and a return to their African roots For once dance became something else other than the ballet With that burst of enthusiasm came the need to introduce African dances in the academia Most of the research however focused mainly on dances which use drums djembe Departing from that tradition in this detailed and richly choreographed ethnography on the Buum Oku Dance Yaounde Thomas Jing s investigation into a xylophone based dance opens up new research avenues and exposes the challenges involved An Afrocentric theoretical framework to the research counters imperialist notions of African dances thus setting them up as a tool for emancipation
