

Subcontractor Safety Plan

The objective of Pro-Western Mechanical Ltd.'s (PWM) Subcontractor Safety Plan is to achieve and maintain the highest possible level of safety performance for all Subcontractor personnel working on PWM managed projects. The success of this objective requires the commitment and dedication of every worker to his own personal safety and the safety of fellow workers.

All Subcontractors and workers are to become thoroughly familiar with the contents of PWM's Company Safety Program and use it for discussion at project and regular safety meetings. With the cooperation of all, PWM and Subcontractors will succeed in improving safety on the job.

ALL SUBCONTRACTORS MUST:

- be familiar and comply at all times with the requirements of PWM's Company Safety Program, the Saskatchewan Occupational Health and Safety Act and Occupational Health and Safety Regulations;
- ensure that they and their workers have the skill and ability to perform the work;
- ensure safety measures contained in Contract Specifications are in effect at all times; and
- attend start-up meetings prior to starting construction (when required by PWM).
- Submit a WCB clearance letter of good standing in the particular province the work is being performed (must be submitted to the PWM main office with in 5 business days of commencing work)
- Submit a Certificate of Liability Insurance (must be submitted to the PWM main office with in 5 business days of commencing work)

THE SUBCONTRACTOR'S SUPERVISORS MUST:

- use good judgment and experience to anticipate and identify job hazards in the planning stage of all job assignments;
- ensure that all workers are aware of their rights and responsibilities under The Saskatchewan Occupational Health & Safety Act and Regulations;
- ensure that proper equipment is available to do the job safely;
- stop work being performed in an unsafe manner;
- report all incidents/accidents to PWM as soon as possible, and conduct or participate in the investigation of all serious accidents on their projects including preparing an incident/accident investigation report and providing PWM with a copy of that report;
- ensure that all workers attend and participate in safety meetings as often as is required to ensure a safe operation;
- attend and participate in safety start-up meetings; and
- attend and participate in Occupation Health Committee meetings on construction sites at which 10 or more workers or self-employed persons work or are likely to work for more than 30 days.
- Complete daily worksite hazard assessments for your scope of work.

Construction Safety Management Raymond Elliot Levitt,Nancy Morse Samelson,1993-12-16 Designing safety into every facet of your construction organization isn t just sensible it s also profitable Featuring proven safety management methods

gathered from fifteen years of research at Stanford University and used by the most successful construction managers in the industry. Construction Safety Management is a comprehensive blueprint for CEOs, job site managers, foremen, safety professionals, and owners on safely managing construction work at every level and phase of a project. Incorporating these management practices and policies into a practical format of real life case studies and summary action steps, this new updated Second Edition offers each member of the construction management team specific advice on effectively upgrading an organization's total safety performance including:

- Building a corporate culture of zero accidents
- Planning for high project performance
- Establishing accountability for safety
- Eliminating drugs and alcohol from the job site
- Maintaining a communications safety net
- Achieving the dual goal of safety and productivity
- Maintaining effective crews
- Measuring safety performance
- Monitoring contractors for safety

This new edition also reviews key requirements of the Comprehensive Safety and Health Reform Act of 1993 and discusses the potential of emerging management techniques and computing technologies for construction safety management including Total Quality Management, partnering, robotics, automated process control, artificial intelligence, and expert systems. The Second Edition is even better than the first. The information is timely, but what is even more important, the techniques work. Raymond Hays, Director, Environmental Safety and Health, QA RUST Construction Services. The detailed guidance provided throughout the book will enable all segments and levels of the construction industry to increase productivity. Jim E. Lapping, Director, Safety and Health, Building and Construction Trades Department, AFL-CIO.
