## Subjectiles Iv Essais Critiques:

**Subjectiles III - Essais critiques** Louis Doucet, 2012-08-09 Ce troisieme volume de Subjectiles differe des precedents Au dela des textes monographiques consacres a de jeunes artistes on y trouvera quatre relectures ou commentaires de chefs d oeuvre du passe des considerations sur la thematique de l ineluctable emergence du dessin et de la peinture numeriques et des prises de position sur le triste sort que la societe francaise reserve a la creation contemporaine et a ses acteurs

**Deconstruction and the Work of Art** Martta Heikkilä, 2021-07-29 The contemporary idea of the work of art is paradoxically both widely used and often unexamined Therefore we must re evaluate the concept before we can understand what the deconstruction of aesthetics means for thinkers like Jacques Derrida Jean Luc Nancy and Philippe Lacoue Labarthe By examining their analyses of works of visual art and contextualizing their thinking on the matter Martta Heikkil asserts that the implications of the work of art and the aesthetic apply not only to philosophical questions but also to a broader area Instead of the totality represented by the historical concept of Art poststructuralist thinkers introduce the idea of the radical multiplicity of art and its works From this notion arises the fundamental issue in Derrida and the poststructuralist tradition how can we speak philosophically of art which always exists as singular instances as works In Deconstruction and the Work of Art Visual Arts and Their Critique in Contemporary French Thought Heikkil shows that the deconstructionist notions of art are still influential in the discourses of contemporary art in which artworks proliferate and the concept of work is open ended and expanding This book offers an introduction to the deconstructionist theory of art and brings new perspectives to the complex undecidable relation between philosophy and art *Confronting Images* Georges

Didi-Huberman, 2005 According to Didi Huberman visual representation has an underside in which intelligible forms lose clarity and defy rational understanding Art historians he contends fail to engage this underside and he suggests that art historians look to Freud s concept of the dreamwork a mobile process that often involves substitution and contradiction

*Lire dans la nuit et autres essais* Ginette Michaud, 2020-10-25T13:03:00-04:00 Jacques Derrida est sans contredit le philosophe qui s est le plus passionné pour la littérature sous toutes ses formes impossibles formaliser et en tous genres impossibles assigner D s les commencements de son oeuvre philosophique il s est non seulement engagé penser la question de la critique en tant qu elle avait toujours été marginalisée et abaissée dans la tradition occidentale il s est aussi inlassablement tourné vers la littérature pour laborer ses propres questions touchant le secret le témoignage la promesse le mensonge le pardon et le parjure pour en nommer quelques unes la littérature on ne saurait imposer selon Derrida des règles des prescriptions ou des fonctions Les essais réunis ici s emploient examiner plusieurs des propositions du philosophe au sujet de la littérature sans condition commencer par celles qui concernent la souveraineté politique et qui relient de manière indissociable la littérature comme droit de tout dire la démocratie venir Derrida insiste en effet sur la puissance du principe littéraire qui permet la littérature de s affranchir en interrogeant ses propres règles voire la loi même dans une performativité

sans précédent L'expérience littéraire s'avère aussi le lieu par excellence pour expérimenter toutes les modalités de la représentation et de la délimitation sur lesquelles se fonde la démocratie La littérature est ainsi associée pour Derrida une certaine irresponsabilité une manière singulière de penser la question de l'éthique en la dégageant de toute morale et de toute instrumentalisation et il va sans dire de tout préjugé S'appuyant sur Kafka Bartleby et Abraham Derrida souligne avec force l'importance que cette question d'éthique autre revient pour lui et il n'hésite pas donner une préférence encore la littérature en ce qu'elle s'avance vers la loi pour en comprendre l'origine De manière significative il place la question de l'invention poétique et du langage de ce qu'il appelle l'idiome irrductible toute traduction au cœur de sa réflexion au sujet de la différence sexuelle et de l'hospitalité C'est cette passion de Derrida pour la littérature que sont consacrés les essais réunis dans cet ouvrage

**Antonin Artaud's Writing Bodies** Adrian Morfee, 2005-07-28 Antonin Artaud 1896-1948 perhaps best known as a dramatic theorist is an important but extremely difficult writer This book studies the development of his thinking from the early texts of the 1920s through to the acclaimed but lesser known 1940s writings on such issues as the body theology language identity and the search for an elusive and unsayable self presence and then uses this as a framework in which to read his late texts New attention is paid to the processes by which his texts generate meanings the logics that hold these meanings together and the internal contradictions of the late poetry This allows a new picture to emerge that accounts for the coherent if unequal development of his ideas as well as the drive towards systematisation to be found in even his most opaque writings By returning to the texts and focusing on the specific terms of Artaud's writing as well as their gleeful resourcefulness and ludicity it is argued that Artaud needs to be considered not as a contestatory psychotic but as a writer of the first magnitude Accessible to both scholar and newcomer this illuminating and original study will refocus critical thought on both the development of Artaud's thinking and the significance of his oft neglected later work

Material Imagination Natalie Adamson, Steven Harris, 2017-07-24 Material Imagination examines the interrelated concepts of matter materialism and materiality in postwar European art from 1946-1972 Provides a unique perspective on European art by prioritizing material dimensions over concept or context while also paying attention to theoretical and historical concerns Explores artists methods and materials in order to better understand the social and cultural environments in which their works of art were made Demonstrates how materials can be harnessed to affect the critical interpretation of artwork Brings together exceptional illustrations and new research in eight essays by art historians and scholars

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
