The Toulmin model is made up of six elements. The elements include: claim, ground, warrant, backing, rebuttal, and qualification. Qualification provides the specifications outlining limits to a claim, backing and warrant. Rebuttal represents exceptions due to a claim. This is represented by counter-examples and counter arguments. Backing is offering support to justify a position.

I hold the view that Christians should arise and play a role towards enhancing or the setting of initiatives to check the ongoing destruction on the environment. The concerns facing the globe are so diverse in different parts of the globe.[6] Though the environmental issue has taken precedence in the recent past, it has dogged society since time immemorial.

The main environmental concerns in the world relate to air contamination, soil contamination, water contamination, solid contamination, solid contamination, etc. A tricky aspect in the campaign against environmental pollution rests on the fact that most activities involved are directly beneficial to the lives of the people. [7] As a Christian, ensuring good quality of life is a desirable attribute. This is grounded on the fact that each individual is entitled to a good life. If the pursuit of Christianity is to ensure good life and environmental destruction works against this goal, then Christians are bound to take action.

Environmental destruction alters the quality of life adversely by affecting various aspects in the life of people. To begin with, environmental pollution h
