Tourism 2014 Pat Grade 1:

Tourism Marketing in Bangladesh Azizul Hassan, 2020-10-20 Tourism is often a key driver of economic growth in many countries. The recent upward trends of tourism and hospitality education in higher academic institutions in Bangladesh suggests a growing tourism sector. Very little has been written on Bangladesh's tourism industry. This is the first edited volume published from an international publisher which looks at this industry and how it has developed and flourished. The book begins by looking at tourism policy planning and provides a comprehensive overview of topics from tourism products and services in Bangladesh to how they are being marketed. It also discusses how private and public tourism institutions can address future long-term trends. This book will appeal to those interested to learn more about developing tourism industry in emerging economies and may provide invaluable lessons from Bangladesh's experience and success.

2014 International Conference on Information GIS and Resource Management, 2014-02-03 The 2014 International Conference on Information GIS and Resource Management (ICGRM2014) was held in Guangzhou, China, from January 3 to January 5, 2014. ICGRM2014 aims to bring researchers, engineers, and students to the areas of GIS and Resource Management. ICGRM2014 features unique mixed topics of Computer Science, Earth Science, Surveying and Mapping, and Resources and Environment Science in the context of building healthier ecology and environment. The conference will provide a forum for sharing experiences and original research contributions on those topics. The proceedings of ICGRM2014 tend to collect the up-to-date comprehensive and worldwide state-of-the-art knowledge on GIS and resource management. All of the accepted papers were subjected to strict peer reviewing by 24 expert referees. The papers have been selected for this proceedings based on originality, significance, and clarity for the purpose of the conference. The selected papers and additional late-breaking contributions to be presented will make an exciting technical program for the conference. The conference program is extremely rich, featuring high-impact presentations. We hope this conference will not only provide the participants a broad overview of the latest research results on GIS and resource management but also provide the participants a significant platform to build academic connections. The Technical Program Committee worked very hard to have all papers reviewed before the review deadline. The final technical program consists of 57 papers which are divided into four sessions. The proceedings were published as a volume by DEStech Publishing Inc.

Corporate Social Responsibility in the Hospitality and Tourism Industry Guliani, Lipika Kaur, 2016-03-04 Increased tourism benefits local economies by creating more revenue and employment options as interest in the location grows. However, as the hospitality and travel industry continues to grow and adapt, it becomes imperative that they implement socially responsible procedures. *Corporate Social Responsibility in the Hospitality and Tourism Industry* discusses issues and challenges faced by organizations implementing responsible business practices within the travel, hotel, leisure, and hospitality industries. Featuring best practices and theoretical concepts on the support of local economies, ethical sourcing of native goods, and sustainability procedures, this publication is a vital source for
