Building the City of Spectacle Costas Spirou, Dennis R. Judd, 2016-10-27

By the time he left office on May 16, 2011, Mayor Richard M. Daley had served six terms and more than twenty-two years at the helm of Chicago's City Hall, making him the longest-serving mayor in the city's history. Richard M. Daley was the son of the legendary machine boss Mayor Richard J. Daley, who had presided over the city during the post-World War II urban crisis. Richard M. Daley led a period of economic restructuring after that difficult era by building a vibrant tourist economy. Costas Spirou and Dennis R. Judd focus on Richard M. Daley's role in transforming Chicago's economy and urban culture. The construction of the city of spectacle required that Daley deploy leadership and vision to remake Chicago's image and physical infrastructure. He gained the resources and political power necessary for supporting an aggressive program of construction that focused on signature projects along the city's lakefront, including especially Millennium Park, Navy Pier, the Museum Campus, Northerly Island, Soldier Field, and two major expansions of McCormick Place, the city's convention center. During this period, Daley also presided over major residential construction in the Loop and in the surrounding neighborhoods, devoted millions of dollars to beautification efforts across the city, and increased the number of summer festivals and events across Grant Park. As a result of all these initiatives, the number of tourists visiting Chicago skyrocketed during the Daley years. Daley has been harshly criticized in some quarters for building a tourist-oriented economy and infrastructure at the expense of other priorities. Daley left his successor, Rahm Emanuel, with serious issues involving a long-standing pattern of police malfeasance, underfunded and uneven schools, inadequate housing opportunities, and intractable budgetary crises. Nevertheless, Spirou and Judd conclude that because Daley helped transform Chicago into a leading global city with an exceptional urban culture, he also left a positive imprint on the city that will endure for decades to come.

TV's American Dream Barbara

Selznick,2025-01-23 TV's American Dream examines how the U.S. television industry in the 2010s pursued audiences whose ideas about hope, fairness, work, and economic class were shaped by the Great Recession. While Americans navigated the trauma of the economic meltdown, the television industry faced growing pressure stemming from new program distribution and viewing methods, increasingly fragmented audiences, shifts in methods of advertising, and regulatory changes. To cut through the clutter of television content to appeal to elusive viewers, television programming reimagined some of the traditional representations of the American Dream and continued to bolster others. Exploring shows on different platforms from legacy networks to Netflix, Selznick takes a deep dive into representations of the American Dream on television. Each chapter of this book focuses on a particular strategy mobilized in the second decade of the new century to speak to audiences about their expectations for and concerns about the Dream. Bringing together research on industrial practices with an examination of sociocultural context, TV's American Dream demonstrates how interconnected forces give rise to the television programs that reinforce and redefine audiences' ideas about the world in which they live. Recentring Tourism

Geographies in the 'Asian Century' Harng Luh Sin, Mary Mostafanezhad, Joseph M. Cheer, 2022-04-19 This book considers what the transition into the Asian Century means for some of the most urgent issues in the world today, such as sustainable development, human rights, gender equality, and environmental change. The book critiques Anglo-Western centrism in tourism theory and calls on tourism scholars to make radical shifts toward more inclusive epistemology and praxis. From the British Century of the 1800s to the American Century of the 1900s to the contemporary Asian Century, tourism geographies are deeply entangled in broader shifts in geopolitical power. In the shadow of the COVID-19 pandemic, the significance of shifts in tourism geographies and the themes addressed in this volume are more urgent than ever. That the world faces increasing turmoil is abundantly clear. Yet amidst the disruption to the everyday, it is hope and compassion, but also political-economic restructuring that is needed to reset the tourism industry in more sustainable, equitable, and ethical directions. In no uncertain terms, the pandemic has forever changed the tourism industry as the world once knew it. This book therefore sets out to collectively build on the momentum of the inclusive scholarship that Critical Tourism Studies Asia Pacific is renowned for, while also asking readers to pause and reflect on the possibilities and challenges of tourism in a post-pandemic Asian Century. The chapters in this book were originally published as a special issue of the journal Tourism Geographies.
