Political Ecology of Tourism Mary Mostafanezhad, Roger Norum, Eric J. Shelton, Anna

Thompson-Carr, 2016-01-08 Why has political ecology been assigned so little attention in tourism studies despite its broad and critical interrogation of environment and politics As the first full length treatment of a political ecology of tourism the collection addresses this lacuna and calls for the further establishment of this emerging interdisciplinary subfield Drawing on recent trends in geography anthropology and environmental and tourism studies Political Ecology of Tourism Communities Power and the Environment employs a political ecology approach to the analysis of tourism through three interrelated themes Communities and Power Conservation and Control and Development and Conflict While geographically broad in scope with chapters that span Central and South America to Africa and South Southeast and East Asia to Europe and Greenland the collection illustrates how tourism related environmental challenges are shared across prodigious geographical distances while also attending to the nuanced ways they materialize in local contexts and therefore demand the historically situated place based and multi scalar approach of political ecology This collection advances our understanding of the role of political economic and environmental concerns in tourism practice It offers readers a political ecology framework from which to address tourism related issues and themes such as development identity politics environmental subjectivities environmental degradation land and resources conflict and indigenous ecologies Finally the collection is bookended by a pair of essays from two of the most distinguished scholars working in the subfield Rosaleen Duffy foreword and James Igoe

afterword This collection will be valuable reading for scholars and practitioners alike who share a critical interest in the intersection of tourism politics and the environment *Tourism and Geopolitics* Derek R Hall, 2017-01-25 With 29 contributors from across Europe and beyond this work represents a unique and important resource that examines the many relationships between tourism and geopolitics with a focus on experiences drawn from Central and Eastern Europe It begins by assessing the changing nature of geopolitics from pejorative associations with Nazism to the more recent critical and feminist geopolitics of social science s cultural turn The book then addresses the important historical role of Central and Eastern Europe CEE in geopolitical thinking before exemplifying a range of contemporary interactions between tourism and geopolitics within this critical region Pursuing innovative analytical paths the book demonstrates the interrelated nature of tourism and geopolitics and emphasizes the freshness of this research area Addressing key principles and ideas which are applicable globally it is an essential source for researchers teachers and students of tourism geography political science and European studies as well as for diplomatic business and consultant practitioners
