examination of heirs to the genre's legacy the authors examine the genre from multiple perspectives connecting technical analysis with critical commentary and social context This will be the first book to consider this important genre from a comprehensive and transdisciplinary perspective Drawing upon methods from platform studies software studies media studies and literary studies they reveal the genre's ludic and narrative origins and patterns where character and the player's embodiment of a character is essential to the experience of play and the choices within a game A deep structural analysis of adventure games also uncovers an unsteady balance between sometimes contradictory elements of story exploration and puzzles with different games and creators employing a multitude of different solutions to resolving this tension Tourism, Philanthropy and School Tours in Zimbabwe Kathleen Smithers, 2024-08-05 This book explores the phenomena of school tours and tourism It explores tensions of authenticity and artificiality in the school site being both a place of community learning and a spectacle for tourism consumption Through the example of a school in Matabeleland North Zimbabwe the book examines the act of a school tour whose main aim is to providing fund for the school It offers a unique interdisciplinary lens that examines both the school as a tourism destination and as a site of learning By drawing on these two fields the book provides insights into the tensions inherent in a school that is also a tourism destination This book will demonstrate to readers the tensions present in tourism partnerships with schools that include some source of philanthropic funding and unpack the complexities of tourism that draws on stereotypical cultural images It explores these tensions through the lens of school leaders students teachers and tourism personnel The book provides a major and unique contribution to the field of tourism studies and education It will be of interest to students and researchers interested in tourism studies sociology education philanthropy development studies and the Global South **Díospóireachtaí Párlaiminte** Ireland. for a range of activities from growing crops to producing charcoal Sympathy for rural people tempered the radicalism of scientific conservationists This fine balance between recognizing the morally valuable if not always economically profitable work of rural people and designing a revolutionary state that respected ecological limits proved to be a radical episode of government foresight Discourse in Content and Language Integrated Learning (CLIL) Classrooms Christiane Dalton-Puffer, 2007-09-27 The label CLIL stands for classrooms where a foreign language English is used as a medium of instruction in content subjects This book provides a first in depth analysis of the kind of communicative abilities which are embodied in such CLIL classrooms It examines teacher and student talk at secondary school level from different discourse analytic angles taking into account the interpersonal pragmatics of classroom discourse and how school subjects are talked into being during lessons The analysis shows how CLIL classroom interaction is strongly shaped by its institutional context which in turn conditions the ways in which students experience use and learn the target language The research presented here suggests that CLIL programmes require more explicit language learning goals in order to fully exploit their potential for furthering the learners appropriation of a foreign language as a medium of learning **Caterer & Hotelkeeper**, 1987-11
