Tous Les Papes:

Le Theatre universel des Princes, ou histoire generale des tous les Papes, Empereurs, Roys et Monarques du monde, 1613 Papes et Papauté Agnès Morini, 2013-11-12 Si l'on se penche sur les phénomènes de contestation de l'autorité politique par la littérature ou les arts qui constitue un axe de recherche majeur du Laboratoire aux travaux duquel contribue ce volume il apparaît que dans bien des pays d'Europe l'autorité politique s'est identifiée avec celle du Monarque alors qu'en Italie cas exceptionnel et pour cause puisque le siège de la papauté y est implanté depuis deux millénaires sans autre interruption que le demi-siècle avignonnais c'est la papauté qui s'est constituée en pouvoir politique se revendiquant d'une double autorité spirituelle et morale et s'incarnant en un véritable organisme politique Le pape et la papauté représentent leur tour deux incarnations de l'autorité l'une institutionnelle le gouvernement ecclésiastique l'autre individuelle le souverain pontife comme successeur de Pierre investi d'une mission de divine inspiration et exerçant ce titre une autorité suprême C'est en tout cas une spécificité italienne que d'être par tant un pays la fois la cause et non la cause dans lequel la figure du Pape remplace celle du Roi suscitant depuis son affirmation comme telle polémiques et défenses de l'Institution ecclésiastique autant que de papes en particuliers De fait l'affirmation de la primauté spirituelle et temporelle du pape sur le monde médiéval chrétien présente in fine les failles juridiques et morales qui limitent l'expression immédiate d'opposants cette homogénéité aussi les vingt-trois regroupées dans ce volume illustrent elles la fois l'ancrage et la permanence d'une tradition historique littéraire la remise en cause en quelque sorte chronique du pouvoir du pape et de l'Église du XIe siècle nos jours Chacune d'elles montre par ailleurs en creux ou explicitement selon les cas l'idéal d'une Église d'une papauté et de papes que leurs partisans comme leurs opposants eussent voulu au dessus des intérêts matériels et des stratégies de pouvoir tous se présentant en mal d'une autorité morale incontestable et littéralement incomparable celle des Princes telle qu'elle ressort de ces travaux n'échappant pas non plus une sévère critique Dans le balayage temporel et thématique qu'elles effectuent ces études du même coup rendent compte du paradoxe proprement italien d'une tension ancestrale et originale entre la religion de la politique et la politique de la religion

Histoire de l'inquisition au moyen-âge Henry Charles Lea,1902 **Essays on French History and Historians** John Stuart Mill,1985-12-15 J S Mill s deep interest in French intellectual political and social affairs began in 1820 when in his fourteenth year he went to France to live for a year with the family of Sir Samuel Bentham French became his second language and France his second home where he died and was buried in 1873 His interest in history began even earlier when as a child of seven he tried to imitate his father s labours on the History of British India though he never wrote a history in his maturity study of the past remained a passion and helped shape the philosophy of history that informed his views of

society and ethics His intense interest in contemporary French politics also led him to seek connections between historical developments and present trends both seen by him from a Radical perspective appropriate to what he believed to be an age of transition The English historians of France including Walter Scott and Thomas Carlyle as well as the French some of whom were themselves political figures are judged by their historical methods but those methods are seen as having practical effects in shaping as well as revealing the mind of the times This volume brings together for the first time the essays running from 1826 to 1849 that meld these abiding interests They give as well insights into Mill's personal aspirations his developing view of comparative politics and sociology his concern for freedom and his feminism During these years Mill worked on and published his *System of Logic* Book VI of which shows in condensed form the results of the speculations here developed reading these essays with that work which made his reputation as a philosopher enables one to see the effects of romanticism on analytic thought in a way not as clearly evident even in Mill's *Autobiography* Independently important then the essays in this volume also enable us to interpret anew the practical and theoretical concerns fundamental to his formative years and maturity John C Cairns Introduction demonstrates how the essays reveal through their reactions to the Revolutions of 1789 1830 and 1848 and to French historiography politics and thought the effect of France on Mill's ideas and also the way in which his other concerns influenced his reactions to France The texts with the variants and notes that are the hallmark of this edition are described in John M Robson's *Textual Introduction* which explains the editorial principles and methods
