Gulliver's Travels In Plain and Simple English (A Modern Translation and the Original Version) Jonathan Swift, 2013-11-01

Almost 300 years ago Jonathan Swift published what is considered one of the greatest satires of all time. A few pages in you might start asking the obvious: why aren't you laughing? Probably because many of the words are not even used today. Let BookCaps help with this edition of Swift's classic work in modern English. The original text is also presented in the book along with a comparable version of both texts. We all need refreshers every now and then. Whether you are a student trying to cram for that big final or someone just trying to understand a book more, BookCaps can help. We are a small but growing company and are adding titles every month.

Dialogues with/and Great Books David Fishelov, 2011-10-06 What is the source of a book's perceived greatness and why do certain books become part of the accepted canon? This book presents a fresh perspective on these questions against prevalent approaches: it explains a work's reputation in terms of its aesthetic qualities or as the result of dictates by social hegemonies, the power view.

Renaissance Utopias and the Problem of History Marina Leslie, 2019-05-15 Marina Leslie draws on three important early modern utopian texts: Thomas More's *Utopia*, Francis Bacon's *New Atlantis*, and Margaret Cavendish's *Description of a New World Called the Blazing World* as a means of exploring models for historical transformation and of addressing the relationship of literature and history in contemporary critical practice. While the genre of utopian texts is a fertile terrain for historicist readings, Leslie demonstrates that utopia provides unstable ground for charting out the relation of literary text to historical context. In particular, she examines the ways that both Marxist and new historicist critics have taken the literary utopia not simply as one form among many available for reading historically but as a privileged form or methodological paradigm. Rather than approach utopia by mapping out a fixed set of formal features or by tracing the development of the genre, Leslie elaborates a history of utopia as critical practice. Moreover, by taking every reading of utopia to be as historically symptomatic as the literary production it assesses, her book integrates readings of these three English Renaissance utopias with an analysis of the history and politics of reading utopia. Throughout, Leslie considers utopia as a fictional enactment of historical process and method. In her view, these early modern utopian constructions of history relate very closely to and impinge upon the narrative structures of

history assumed by critical theory today *Moreana* Frank Sullivan, Majie Padberg Sullivan, 1966 **Albion** Peter Ackroyd, 2007-12-18 With his characteristic enthusiasm and erudition Peter Ackroyd follows his acclaimed London A Biography with an inspired look into the heart and the history of the English imagination To tell the story of its evolution Ackroyd ranges across literature and painting philosophy and science architecture and music from Anglo Saxon times to the twentieth century Considering what is most English about artists as diverse as Chaucer William Hogarth Benjamin Britten and Virginia Woolf Ackroyd identifies a host of sometimes contradictory elements pragmatism and whimsy blood and gore a passion for the past a delight in eccentricity and much more A brilliant engaging and often surprising narrative Albion reveals the manifold nature of English genius *The Socialist Trade and Labor Alliance Versus the "pure and Simple" Trade Union* Daniel De Leon, Job Harriman, 1900 *Catholic World*, 1930 *From Francis Bacon to William Golding* Minodora Barbul, Ramona Demarcsek, Ligia Tomoiagă, 2012-04-25 This volume is dedicated to Francis Bacon to William Golding and to the tradition of writing utopias and dystopias Although some of the articles contained herein were presented at the conference from which this book originated there are also other contributions which join these to complete a 21st century vision on utopia from the point of view of specialists in philology philosophy anthropology etc The novelty of such an undertaking comes from the fact that the editors enabled researchers from different fields to come together and create an interdisciplinary volume which contains very rigorous academic work alongside more relaxed essays **Meta Incognita: a discourse of discovery - volume 1** Thomas H. B. Symons, Stephen Alsford, Chris Kitzan, 1999-01-01 The Meta Incognita Project was initiated to cast new light on the Arctic voyages of Martin Frobisher and their significance for the histories of North America and Britain Although the Elizabethan venture failed to discover a northwest passage to mines and precious metals and to establish a colony in the future Canadian Arctic it left valuable legacies Published in English **A Manual of English Prose Literature Biographical and Critical Designed Mainly to Show Characteristics of Style** William Minto, 1872 *Karl Mannheim and Hungarian Marxism* Joseph Gabel, 1991-01-01 This remarkable work situates the great Karl Mannheim not only in the Austro Hungarian empire but in Hungary and especially in the intellectual fever pitch of pre war Budapest with its plethora of revisionist Marxists anarchists and intellectuals from a variety of areas who brought radical ideas into the mainstream of biological and social sciences As Gabel reminds us Budapest provided a special environment in which the cross currents of Europe met and was uniquely devoid of the xenophobia and militarism of so many other parts of Europe The volume serves as a useful introduction to the force and character of Marxism in Central Europe Gabel covers not only key figures but major concepts associated with Mannheim and the sociology of knowledge ideology and false consciousness the socially unattached intelligentsia and the utopian conscience In addition we are given a tour of the work of Mannheim as seen in Germany France and England Gabel s has a unique mastery of the major languages of Europe and this gives him the potential for a reinterpretation of Mannheim that reveals the author to be a talented thinker in his own right

and not simply a chronicler of the work of others His final chapter on Mannheim comparing him with Lukacs as well as Marx is central to our understanding of sociology In raising the importance of the role of consciousness in the study of society Mannheim overcame what Marx and Engels no less than many of his followers understood to be an essential weakness in the so called economic interpretation of history This book linking Mannheim to the Hungarian climate helps us appreciate how this sociological synthesis came about in a specific social setting Joseph Gabel was born in Hungary and educated in French universities He is the author of *False Consciousness* 1962 *Sociology of Alienation* 1970 *Ideologies Vol I* 1974 *Ideologies II* 1978 all in French His book on *The Forms of Estrangement* 1964 was published in German His shorter articles have appeared in *Kolner Zeitschrift for Soziologie und Sozial psychologie* and the Newsletter of the International Society for the Sociology of Knowledge
