Vaal University Application Form 2015:

Environmental Science and Information Application Technology David Chan, 2015-06-29 Environmental Science and Information Application Technology contains selected papers from the 2014 5th International Conference on Environmental Science and Information Application Technology ESIAT 2014 Hong Kong 7-8 November 2014. The book covers a wide variety of topics: Global Environmental Change and Ecosystems Management, Graphic and I **Research Methods: Concepts, Methodologies, Tools, and Applications** Management Association, Information Resources, 2015-01-31 Across a variety of disciplines, data and statistics form the backbone of knowledge. To ensure the reliability and validity of data, appropriate measures must be taken in conducting studies and reporting findings. **Research Methods: Concepts, Methodologies, Tools, and Applications** compiles chapters on key considerations in the management, development, and distribution of data. With its focus on both fundamental concepts and advanced topics, this multi-volume reference work will be a valuable addition to researchers, scholars, and students of science, mathematics, and engineering. **To Democratize or Not? Trials and Tribulations in the Postcolonial World** Volkan Ipek, Ebru Ilter-Akarcay, 2020-07-06 This volume is a product of the first Tricontinental Conference organized by Yeditepe University in Istanbul. It brings together perspectives on democracy and development in Africa, the Middle East, and Latin America. Representing local voices and insights, the contributors here respond to the dearth of comparative analysis on these three regions. In spite of the differences observed in colonial practices and postcolonial transitions, a shared disenchantment with the performance of competitive politics comes to the forefront in these geographical areas. Decades after decolonization, low-intensity democracy and the continuing potential for democratic reversals and backsliding make the study of these three regions relevant. Considering the debates on protests, social upheavals, activism, change, and continuity, this book encourages the reader to survey the various trials and tribulations of the postcolonial era. *The Oxford Handbook of Late Colonial Insurgencies and Counter-Insurgencies* Martin Thomas, Gareth Curless, 2023 Beginning with Britain's 1948 declaration of a Malayan Emergency and ending with the 1973 withdrawal of US ground troops from Vietnam, this Handbook connects ideas about contested decolonization and the insurgencies that inspired it with an analysis of patterns and singularities in the conflicts that precipitated the collapse of overseas empires. **Governing in the Shadows** Paula Cristina Roque, 2021-12-01 Reveals the Angolan state's intrusion into citizens' lives in the name of security in stark contrast with governmental neglect in addressing poverty and marginalization. **The Archaeology of Southern Africa** Peter Mitchell, 2024-06-06 Some of humanity's earliest ancestors lived in southern Africa, and evidence from sites there has inspired key debates on human origins and the emergence of complex cognition. Building on its rich rock art heritage, archaeologists have developed theoretical work that continues to influence rock art studies worldwide, with the relationship between archaeological and anthropological data central to understanding past hunter-gatherer, pastoralist, and farmer communities alike. New work on pre-colonial states contests

models that previously explained their emergence via external trade while the transformations wrought by European colonialism are being rewritten to emphasise Indigenous agency feeding into efforts to decolonise the discipline itself Inhabited by humans longer than almost anywhere else and with an unusually varied complex past southern Africa thus has much to contribute to archaeology worldwide In this revised and updated edition Peter Mitchell provides a comprehensive and extensively illustrated synthesis of its archaeology over more than three million years **Global Africa** Dorothy Hodgson, Judith Ann-Marie Byfield, 2017-08 Global Africa will complicate conventional views of Africa as a place of violence despair and victimhood a place and space that other people states and organizations act on and steal from Instead they aim to document some of the significant global connections circulations and contributions that African people ideas and goods have made in the world not just in the United States but in South Asia Latin America Europe and elsewhere They will showcase new framings of Africa but will not romanticize the conditions and circumstances in which too many people on the continent currently live The essays in this volume will amplify those voices that offer complex and insightful explanations strategies for solutions and inspiration for the future Provided by publisher **Organise or Die?** Raphaël Botiveau, 2017-12-01 The story of one of the leading trade unions in South Africa the National Union of Mineworkers and its role in the struggle against white minority rule Organise or Die Democracy and Leadership in South Africa s National Union of Mineworkers NUM is the first in depth study of one of the leading trade unions in the country Founded in 1982 the trade union played a key role in the struggle against white minority rule before turning into a central protagonist of the ruling Tripartite Alliance after apartheid Deftly navigating through workerist social movement and political terrains that shape the South African labour landscape this book sheds light on the path that led to the unprecedented 2012 Marikana massacre the dissolution of the Congress of South African Trade Unions Cosatu federation and to fractures within the African National Congress ANC itself Working with the notions of organisational agency and strategic bureaucratisation Raphaël Botiveau shows how the founding leadership of NUM built their union s structures with a view to mirror those of the multinational mining companies NUM faced Good leadership proved key to the union s success in recruiting and uniting mineworkers and NUM became an impressive school for union and political cadres producing a number of South Africa s top post apartheid leaders An incisive analysis of leadership styles and strategies shows how the fragile balance between an increasingly distant leadership and an increasingly militant membership gradually broke down Botiveau provides a compelling narrative of NUM s powerful history and the legacy of its leadership It will appeal to a broad readership including journalists students and social sciences scholars interested in South Africa s contemporary politics and labour history *Changing Climates, Ecosystems and Environments within Arid Southern Africa and Adjoining Regions* Jürgen Runge, 2015-10-30 This book is volume 33 of the yearbook series Palaeoecology of Africa presenting the outcome of a tribute conference to the internationally recognized South African researcher and palynologist Professor Louis Scott He has recently retired but is continuing his

Zimbabwe Generations of archaeologists and anthropologists have wrestled with the meaning of this painting theme in San cosmology without reaching consensus or a plausible explanation Drawing on San ethnography published over the past 150 years Mguni argues that formlings are in fact representations of flying termites and their underground nests and are associated with botanical subjects and a range of larger animals considered by the San to have great power and spiritual significance This book fills a gap in rock art studies around the interpretation and meaning of formlings It offers an innovative methodological approach for understanding subject matter in San rock art that is not easily recognisable and will be an invaluable reference book to students and scholars in rock art studies and archaeology *Human Rights and the South African Legal Order* John Dugard, 2015-03-08 As an Advocate of the Supreme Court John Dugard observes the South African legal order daily in operation In this book he provides a thorough description and probing analysis of the workings of the system He places South Africa's legal order in a comparative context examining the climate of legal opinion crucial judicial decisions and their significance in relation to contemporary thought and practice in England America and elsewhere He also considers South Africa's laws in the light of its history politics and culture Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 [The Cambridge Encyclopedia of the English Language](#) David Crystal, 2018-11-29 Now in its third edition The Cambridge Encyclopedia of the English Language provides the most comprehensive coverage of the history structure and worldwide use of English Fully updated and expanded with a fresh redesigned layout and over sixty audio resources to bring language extracts to life it covers all aspects of the English language including the history of English with new pages on Shakespeare's vocabulary and pronunciation updated statistics on global English use that now cover all countries and the future of English in a post Brexit Europe regional and social variations with fresh insights into the growing cultural identities of new Englishes English in everyday use with new sections on gender identities forensic studies and big data in corpus linguistics and digital developments including the emergence of new online varieties in social media platforms such as Facebook Twitter and WhatsApp Packed with brand new colour illustrations photographs maps tables and graphs this new edition is an essential tool for a new generation of twenty first century English language enthusiasts **Between Crime and War** Claire Oakes Finkelstein, Jens David Ohlin, Christopher J.
