Democracy's Infrastructure Antina von Schnitzler, 2016-10-25 In the past decade South Africa's miracle transition has been interrupted by waves of protests in relation to basic services such as water and electricity Less visibly the post apartheid period has witnessed widespread illicit acts involving infrastructure including the nonpayment of service charges the bypassing of metering devices and illegal connections to services Democracy's Infrastructure shows how such administrative links to the state became a central political terrain during the antiapartheid struggle and how this terrain persists in the post apartheid present Focusing on conflicts surrounding prepaid water meters Antina von Schnitzler examines the techno political forms through which democracy takes shape Von Schnitzler explores a controversial project to install prepaid water meters in Soweto one of many efforts to curb the nonpayment of service charges that began during the antiapartheid struggle and she traces how infrastructure payment and technical procedures become sites where citizenship is mediated and contested She follows engineers utility officials and local bureaucrats as they consider ways to prompt Sowetans to pay for water and she shows how local residents and activists wrestle with the constraints imposed by meters This investigation of democracy from the perspective of infrastructure reframes the conventional story of South Africa's transition foregrounding the less visible remainders of apartheid and challenging readers to think in more material terms about citizenship and activism in the postcolonial world Democracy's Infrastructure examines how seemingly mundane technological domains become charged territory for struggles over South Africa's political transformation

Bodies of Truth Rita Kesselring, 2016-10-12 *Bodies of Truth* offers an intimate account of how apartheid victims deal with the long term effects of violence focusing on the intertwined themes of embodiment injury victimhood and memory In 2002 victims of apartheid era violence filed suit against multinational corporations accusing them of aiding and abetting the security forces of the apartheid regime While the litigation made its way through the U S courts thousands of victims of gross human rights violations have had to cope with painful memories of

violence They have also confronted an official discourse claiming that the Truth and Reconciliation Commission of the 1990s sufficiently addressed past injuries This book shows victims attempts to emancipate from their experiences by participating in legal actions but also by creating new forms of sociality among themselves and in relation to broader South African society Rita Kesselring s ethnography draws on long term research with members of the victim support group Khulumani and critical analysis of legal proceedings related to apartheid era injury Using juridical intervention as an entry point into the question of subjectivity Kesselring asks how victimhood is experienced in the everyday for the women and men living on the periphery of Cape Town and in other parts of the country She argues that the everyday practices of the survivors must be taken up by the state and broader society to allow for inclusive social change in a post conflict setting *Collaborative community partnerships across education settings* Mariëtte P. Koen, Luiza O. De Souza, 2025-02-25 This book features chapters by scholars from various education fields specialising in sustainability As the first volume in North West University s Community based Educational Research Series it focuses on transforming education through a participatory approach The authors explore quality education across early childhood primary secondary and higher education by examining collaborative efforts among practitioners parents and teachers This scholarly book provides empirical evidence on how collaborative initiatives can promote sustainable development These initiatives encourage partnerships among community leaders educators learners nongovernmental organisations government and the private sector for lifelong learning and professional development It highlights southern African experiences in collaborative education aligned with the United Nations sustainable development goal of achieving quality education The book demonstrates various research designs and methods applied to educational practice from early childhood to tertiary levels through empirical research and community projects **Patriots & Parasites** Dene Smuts, 2016-11-01 Patriots The great experiment in catharsis that was the Truth and Reconciliation Commission The reinvigoration of racial polarisation under the Mbeki administration and the slow burn of resentment that is coming to a head among the next generation as manifested in the RhodesMustFall campaign The entrenchment of cronyism under Zuma and the fight to protect the crucial balance of accountability enshrined in the freedom of the media and the independence of the judiciary **The Self-Field** Chris Abel, 2021-03-15 In this incisive study of the biological and cultural origins of the human self the author challenges readers to re think ideas about the self and consciousness as being exclusive to humans In their place he expounds a metatheoretical approach to the self as a purposeful system of extended cognition common to animal life the invisible medium maintaining mind body and environment as an integrated field of being Supported by recent research in evolutionary and developmental studies together with related discoveries in animal behaviour and the neurosciences the author examines the factors that have shaped the evolution of the animal self across widely different species and times through to the modern technologically enmeshed human self the differences between which he contends are relations of degree rather than absolute differences We are he concludes instinctive and fuzzy individuals clinging to fragile identities in

an artificial and volatile world of humanity's own making but which we now struggle to control. This book, which restores the self to its fundamental place in identity formation, will be of great interest for students and academics in the fields of social, developmental and environmental psychology, together with readers from other disciplines in the humanities, especially philosophy, cultural theory and architecture.

Natures of Africa F. Fiona Moolla, 2016-06-01

One of the first edited volumes to encompass transdisciplinary approaches to a number of cultural forms including fiction, non-fiction, oral expression and digital media. Environmental and animal studies are rapidly growing areas of interest across a number of disciplines. *Natures of Africa* is one of the first edited volumes which encompasses transdisciplinary approaches to a number of cultural forms including fiction, non-fiction, oral expression and digital media. The volume features new research from East Africa and Zimbabwe, as well as the ecocritical and eco-activist powerhouses of Nigeria and South Africa. The chapters engage one another conceptually and epistemologically without an enforced consensus of approach. In their conversation with dominant ideas about nature and animals, they reveal unexpected insights into forms of cultural expression of local communities in Africa. The analyses explore different apprehensions of the connections between humans, animals and the environment and suggest alternative ways of addressing the challenges facing the continent. These include the problems of global warming, desertification, floods, animal extinctions and environmental destruction attendant upon fossil fuel extraction. There are few books that show how nature in Africa is represented, celebrated, mourned or commoditised. *Natures of Africa* weaves together studies of narratives from folklore, travel writing, novels and popular songs with the insights of poetry and contemporary reflections of Africa on the worldwide web. The chapters test disciplinary and conceptual boundaries, highlighting the ways in which the environmental concerns of African communities cannot be disentangled from social, cultural and political questions. This volume draws on and will appeal to scholars and teachers of oral tradition and indigenous cultures, literature, religion, sociology and anthropology, environmental and animal studies, as well as media and digital cultures in an African context.

Year of Fire, Year of Ash Baruch Hirson, 2016-06-15

We can say without fear of being contradicted by history that June 16, 1976 heralded the beginning of the end of the centuries-old white rule in this country. Nelson Mandela. Originally banned on publication by the apartheid government, *Year of Fire, Year of Ash* is an eye-opening account of how in June 1976, 20,000 school students faced down the tanks and guns of a vicious racist regime in a revolt that galvanized the black working class and became a pivotal turning point for the anti-apartheid movement. More than this, the book overturns much of the conventional logic that served to explain the event at the time, showing it was not simply a student protest but part of a wider uprising. Released in this new edition to mark the fortieth anniversary, *Year of Fire, Year of Ash* provides an unparalleled insight into the origins and events of the uprising from its antecedents in the 1920s to its role in inspiring global solidarity against apartheid. As South Africa experiences a new wave of popular discontent and as new forms of black consciousness come to the fore in movements

around the world Baruch Hirson's book provides a timely reminder of the Soweto revolt's continued significance to struggles against oppression today **The Stock Exchange Official Intelligence for ...**, 1927 *Small Dictionaries and Curiosity* John P. Considine, 2017 *Small Dictionaries and Curiosity* tells a story which has not been told before that of the first European wordlists of minority and unofficial languages and dialects from the end of the Middle Ages to the early nineteenth century. These wordlists were collected by people who were curious about the unrecorded or little known languages they heard around them. Between them they document more than 40 language varieties from a Basque-Icelandic pidgin of the North Atlantic to the Kalmyk language of the lower Volga. The book gives an account of about 90 of these dictionaries and wordlists, some of them single page jottings and some of them full-sized printed books, paying attention to their content and their physical form alike. It explores the kinds of curiosity and imagination by which their makers were moved, the lover of all languages hearing new voices in an inn, the speaker of a dying language recording his linguistic memories, the patriot deploying his lexicographical findings in the service of an emerging nation. It offers an encounter with the diverse voices of the entirety of post-medieval Europe, turning away from the people of the courts and universities whose language was documented in big dictionaries to listen to people who did not speak the languages of power, the people of remote places and dying communities, the illiterate, poor, settled or homeless migrants from the edges of Europe and beyond. **The Oxford Dictionary of Family Names in Britain and Ireland** Patrick Hanks, Richard Coates, Peter McClure, 2016-11-17. Containing entries for more than 45,000 English, Scottish, Welsh, Irish, Cornish and immigrant surnames. *The Oxford Dictionary of Family Names in Britain and Ireland* is the ultimate reference work on family names of the UK. The Dictionary includes every surname that currently has more than 100 bearers. Each entry contains lists of variant spellings of the name, an explanation of its origins, including the etymology, lists of early bearers showing evidence for formation and continuity from the date of formation down to the 19th century, geographical distribution and, where relevant, genealogical and bibliographical notes, making this a fully comprehensive work on family names. This authoritative guide also includes an introductory essay explaining the historical background, formation and typology of surnames, and a guide to surnames research and family history research. Additional material also includes a list of published and unpublished lists of surnames from the Middle Ages to the present day.
