*A Brief History of the Pacific* Jeremy Black, 2023-09-07 This brilliantly concise history of the Pacific Ocean nevertheless succeeds in examining both the indigenous presence on ocean s islands and Western control or influence over the its islands and shores There is a particular focus on the period from the 1530s to 1890 with its greater Western coastal and oceanic presence in the Pacific beginning with the Spanish takeover of the coasts of modern Central America Colombia Ecuador and Peru and continuing with the Spaniards in the Philippines There is also an emphasis on the very different physical and human environments of the four quadrants of the Pacific the north east the north west the south east and the south west and of the coastal islands that is the Aleutians Japan and New Zealand and continental coastlines The focus is always on the interactions of Japan California Peru Australia and other territories with the ocean notably in terms of trade migration and fishing Black looks first at the geology currents winds and physical make up of the Pacific then the region s indigenous inhabitants to 1520 He describes the Pacific before the arrival of Europeans its history of settlement navigation methods and religious practices From Easter Island the focus shifts to European voyages from Magellan to Cook and Tasman the problems they faced not least the sheer scale of the ocean Black looks at the impact of these voyages on local people including the Russians in the Aleutian Islands Outside control of the region grew from 1788 to 1898 The British laid claim to Australia and America to the Phillipines Western economic and political impact manifested in sandalwood and gold rushes and the coming of steamships accelerated this impact Territorial claims spread through Willis Perry and the Americans including to Hawaii Black looks at the Maori wars in New Zealand and the War of the Pacific on the South American coast Christian missionary activity increased and Gauguin offered a different vision of the Pacific 1899 to 1945 marked the struggle of empires the rise of Japan as an oceanic power and the Second World War in the Pacific as a critical moment in world history Oil powered ships ushered in the American Age from 1945 to 2015 bringing the end of the British Pacific France had a continued role in Tahiti

and New Caledonia but America had become the dominant presence Black explores the political economic and cultural impacts of for example Polynesians attending universities in America and Australasia the spread of rugby and relatively little international tension although some domestic pressures remained including instability in Papua New Guinea and Fiji The book ends with a look at the Pacific s future pressures from industrial fishing pollution and climate change the rise of drug smuggling greater Chinese influence leading to conflict with America and Australasia the Pacific is once again on the frontline of military planning But the Pacific s future also includes tourism from Acapulco to Hawaii and from Tahiti to Cairns

**Becoming British Columbia** John Belshaw,2009-07-01 *Becoming British Columbia* is the first comprehensive demographic history of British Columbia Investigating critical moments in the demographic record and linking demographic patterns to larger social and political questions it shows how biology politics and history conspired with sex death and migration to create a particular kind of society John Belshaw overturns the widespread tendency to associate population growth with progress He reveals that the province has a long tradition of thinking and acting vigorously in ways meant to control and shape biological communities of humans and suggests that imperialism race class and gender have historically situated population issues at the centre of public consciousness in British Columbia Maps and Politics Jeremy Black,2000-09-01 We all rely on the apparent accuracy and objectivity of maps but often do not see the very process of mapping as political Are the power and purpose of maps inherently political *Maps and Politics* addresses this important question and seeks to emphasize that the apparent objectivity of the map making and map using process cannot be divorced from aspects of the politics of representation Maps have played and continue to play a major role in both international and domestic politics They show how visual geographical representations can be made to reflect and advance political agendas in powerful ways The major developments in this field over the last century are responses both to cartographic progression and to a greater emphasis on graphic imagery in societies affected by politicization democratization and consumer and cultural shifts Jeremy Black asks whether bias free cartography is possible and demonstrates that maps are not straightforward visual texts but contain political and politicizing subtexts that need to be read with care *The Manly Modern* Christopher Dummitt,2011-11-01 How did one act like a modern man in postwar Canada With a great deal of difficulty During the Great Depression and Second World War many men were first out of work and then away from their families After the war came attempts to re establish the traditional gender hierarchy by emphasizing men s modernity allegedly superior rationality and ability to handle risk but the strategy had contradictory repercussions *The Manly Modern Masculinity in Postwar Canada* traces the history of what happened when men s supposed modernity became one of their defining features Through a series of case studies covering such diverse subjects as car culture mountaineering war veterans murder trials and a bridge collapse Christopher Dummitt argues that the very idea of what it meant to be modern was gendered A strong current of anti modernist sentiment bubbled just beneath the surface of postwar masculinity creating rumblings about the state of modern

manhood that ironically mirrored the tensions that burst forth in 1960s gender radicalism The first major book on the history of masculinity in Canada The Manly Modern will appeal to scholars and students in history gender studies and cultural studies as well as to readers interested in the history and social construction of gender **Live at the Commodore** Aaron Chapman,2015-03-16 Vancouver s Commodore Ballroom is like New York s CBGB s and Los Angeles s Whiskey a Go Go one of the most venerated rock clubs in the world originally built in 1930 it s hosted a who s who of music greats before they made it big The Police The Clash Blondie Talking Heads Nirvana New York Dolls U2 and more recently Lady Gaga and the White Stripes Filled with never before published photographs posters and paraphernalia Live at the Commodore is a visceral energetic portrait of one of the world s great rock venues Aaron Chapman is a musician and journalist and the author of Liquor Lust and the Law **Jurassic World: The Ultimate Visual History** James Mottram,2022-10-25 Following the release of director Colin Trevorrow s smash hit Jurassic World in 2015 the dinosaurs of Isla Nublar once again dominate the public imagination Jurassic World The Ultimate Visual History delivers a comprehensive look at the making of the first hit film as well as its thrilling sequels Jurassic World Fallen Kingdom and Jurassic World Dominion Through rare and never before seen imagery and exclusive interviews with key creatives this deluxe volume explores the entire creative process from the films stunning dinosaur designs to the epic location shoots and the creation of the films incredible visual effects Fans will also discover a fascinating look at the wider world of the saga including the Netflix animated series Jurassic World Camp Cretaceous video games toys theme park attractions and more Unearth the story behind the making of the Jurassic World trilogy with this definitive collector s book a must have for fans of the action packed saga *A Brief History of History* Jeremy Black,2023-08-22 In A Brief History of History acclaimed historian Jeremy Black seeks to reinvigorate and redefine our ideas about history The stories we tell about the past are a crucial aspect of all cultures However while the traditional storytelling process what we think of as history in the proper sense is useful it is also misleading not least because it leads to the repetition of bias and misinformation Black suggests that the conventional idea of history and historians is constructed too narrowly as it fails to engage with the broad nature of lived experience By focusing on a singular idea or story within the history being explored we fail to understand the interconnectivity of the everyday experience A Brief History of History challenges accepted norms of the historical perspective and offers a view of human history that will surprise many and perhaps infuriate some But above all it is a history of historians written for this moment in time a time when the traditional Eurocentric approach to history now appears wholly inappropriate **The Sixties** Dimitry Anastakis,2008-02 A new approach to one of the most memorable decades in recent history *Is Every Typeface a Revival?* BA Visual Communication ZHdK,2025-05-12 This publication was initiated during a Type Design brief at Zurich University of the Arts Students were tasked to select an typeface published before 1999 to which they had a strong emotional connection either positive or negative Parallel to articulating personal emotions students also collected information about the designer type foundry

historical context and technology of production that led to the creation of the typeface Then they proposed a contemporary redesign or revival The design methodology was flexible allowing for a range of approaches from a classic revival in which the designers used their skills to digitize a typeface that was unavailable or available in poor quality only to a different design interpretation of the typeface It was also possible to use the historical typeface as a mere formal or conceptual inspiration for a new creation In different ways then the students investigated the definition role and limitation of a revival typeface today Their research and design processes are reflected in the texts which the students present in this publication along with specimen pages for their typeface The texts grew out of a two weeks writing class at Zurich University of the Arts called Designers as Writers Considering a broad range of writing practices pursued by designers long before and also while academic thesis writing took hold at art schools from Jan Tschichold Anna Simons and Hildegard Korgner to Adrian Frutiger and Otl Aicher from Hans Rudolf Lutz and Fiona Ross to Zuzana Licko Dexter Sinister Alphabettes and more the students familiarized themselves with various combinations of four basic approaches to writing autobiographical programmatic historiographical and theoretical These approaches informed daily writing exercises and staged impromptu readings in the evening and eventually they also informed to various degrees the texts about the typefaces **The West Beyond the West**

Jean Barman, 2017-06-22 British Columbia is regularly described in superlatives both positive and negative most spectacular scenery strangest politics greatest environmental sensitivity richest Aboriginal cultures most aggressive resource exploitation closest ties to Asia Jean Barman's *The West beyond the West* presents the history of the province in all its diversity and apparent contradictions This critically acclaimed work is the premiere book on British Columbian history with a narrative beginning at the point of contact between Native peoples and Europeans and continuing into the twenty first century Barman tells the story by focusing not only on the history made by leaders in government but also on the roles of women immigrants and Aboriginal peoples in the development of the province She incorporates new perspectives and expands discussions on important topics such as the province's relationship to Canada as a nation its involvement in the two world wars the perspectives of non mainstream British Columbians and its participation in recreation and sports including Olympics First published in 1991 and revised in 1996 this third edition of *The West beyond the West* has been supplemented by statistical tables incorporating the 2001 census two more extensive illustration sections portraying British Columbia's history in images and other new material bringing the book up to date Barman's deft scholarship is readily apparent and the book demands to be on the shelf of anyone with an interest in British Columbian or Canadian history *Against the Current and Into the Light* Selena Couture, 2020-01-09 Performance embodies knowledge transfer cultural expression and intercultural influence It is a method through which Indigenous people express their relations to land and continuously establish their persistent political authority But performance is also key to the misrepresentation of Indigenous peoples in settler colonial societies *Against the Current and Into the Light* challenges dominant historical narratives of the land now

known as Stanley Park exploring performances in this space from the late nineteenth century to the present Selena Couture engages with knowledge held in an endangered Indigenous language s place names methods of orientation in space and time and conceptions of leadership and respectful visiting She then critically engages with narratives of Vancouver history created by the city s first archivist J S Matthews through his interest in Lord Stanley s visit to the park in 1889 Matthews organized several public commemorative performances on this land from the 1940s to 1960 resulting in the iconic yet misleading statue of Lord Stanley situated at the park s entrance Couture places Matthews s efforts at commemoration alongside continuous political interventions by Indigenous people and organizations such as the Native Brotherhood of British Columbia while also responding to contemporary performances by Indigenous women in Vancouver that present alternative views of history Using the metaphor of eddies of influence motions that shape and are shaped by obstacles in their temporal and spatial environments Against the Current and Into the Light reveals how histories of places have been created and how they might be understood differently in light of Indigenous resurgence and decolonization
