Vax Hoover Manual:

Vax Facts Paul Thomas, DeeDee Hoover, 2024-12-10 Vax Facts is a one stop shop for all the information parents and guardians need to make an informed choice about childhood vaccinations. The challenge for most who are wrestling with whether to give a vaccine is a lack of understanding about what information they really need to make an informed decision. Written by a pediatrician who witnessed the difference over decades in the health outcomes of the vaccinated partially vaccinated and unvaccinated children in his practice Vax Facts will enlighten parents and guardians and provide the information needed for informed consent. Covering each of the vaccines recommended by the CDC and doctors from pregnancy through the teen years this detailed guide breaks down the ingredients the lack of safety testing and the side effects and risks of the vaccines. With the help of simple data tables that compare the rates of death from the diseases for which we have vaccines and the rates of death from the vaccines themselves parents and guardians can easily decide what is right for their children. With almost four million births per year in the United States this useful resource will resonate with all who are pregnant or considering pregnancy and all parents grandparents aunts and uncles who are considering whether vaccination is appropriate for a family member or loved one. At the end of each chapter Just a Mom coauthor DeeDee Hoover shares personal stories and reflections that allow readers to connect with the information. This information packed guide is for all those asking Should I get my child vaccinated who want more than just a yes no answer. After reading Vax Facts parents and guardians will be able to decide with confidence whether vaccination is the right choice for their loved one.
