The Patchwork of World History in Texas High Schools Stephen Jackson, 2022-11-30 This book traces the historical development of the World History course as it has been taught in high school classrooms in Texas a populous and nationally influential state over the last hundred years Arguing that the course is a result of a patchwork of competing groups and ideas that have intersected over the past century with each new framework patched over but never completely erased or replaced the author crucially examines themes of imperialism Eurocentrism and nationalism in both textbooks and the curriculum more broadly The first part of the book presents an overview of the World History course supported by numerical analysis of textbook content and public documents while the second focuses on the depiction of non Western peoples and persistent narratives of Eurocentrism and nationalism It ultimately offers that a more global accurate and balanced curriculum is possible despite the tension between the ideas of professional world historians who often de center the nation state in their quest for a truly global approach to the subject and the historical core rationale of state sponsored education in the United States to produce loyal citizens Offering a new conceptual understanding of how colonial themes in World History curriculum have been dealt with in the past and are now engaged with in contemporary times it provides essential context for scholars and educators with interests in the history of education curriculum studies and the teaching of World History in the United States

Interpreting Emotions in Russia and Eastern Europe Mark D. Steinberg,Valeria Sobol,2011-06-01 Bringing together important new work by an international and interdisciplinary group of leading scholars *Interpreting Emotions in Russia and Eastern Europe* approaches emotions as a phenomenon complexly intertwined with society culture politics and history The stories in this book involve sensitive aristocrats committed revolutionaries aggressive nationalists political leaders female victims of sexual violence perpetrators and victims of Stalinist terror citizens in the former Yugoslavia in the wake of war workers in post socialist Romania Balkan Romani Gypsy musicians and veterans of the Afghan and Chechen wars These essays explore emotional perception and expression not only as private inward feeling but also as a way of interpreting and judging a troubled world acting in it and perhaps changing it Essential reading for those interested in new perspectives on the study of Russia and Eastern Europe past and present this volume will appeal to scholars across the social sciences and humanities who are seeking new and deeper approaches to understanding human experience thought and feeling Family and Business During the Industrial Revolution Hannah Barker,2017 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations Small businesses were at the heart of the economic growth and social transformation that characterized the industrial revolution in Britain In towns across north west England shops and workshops dominated the streetscape and helped to satisfy an increasing desire for consumer goods Yet despite their significance we know surprisingly little about these firms and the people who ran them for whilst those engaged in craft based manufacturing retailing and allied trades constituted a significant proportion of the urban population they have been generally overlooked by historians Instead our view of the world of business is more usually taken up by narratives of particularly successful firms and especially those involved in new modes of production By examining some of the forgotten

businesses of the industrial revolution and the men and women who worked in them **Family and Business During the Industrial Revolution** presents a largely unfamiliar commercial world Its approach which spans economic social and cultural history as well as encompassing business history and the histories of the emotions space and material culture alongside studies of personal testimony testatory practice and property ownership tests current understandings of gender work family class and power in the late eighteenth and early nineteenth centuries It provides us with new insights into the lives of ordinary men and women in trade whose relatively mundane lives are easily overlooked but who were central to the story of a pivotal period in British history Global Trade and the Transformation of Consumer Cultures Beverly Lemire, 2018-01-11 The oceanic explorations of the 1490s led to countless material innovations worldwide and caused profound ruptures Beverly Lemire explores the rise of key commodities across the globe and charts how cosmopolitan consumption emerged as the most distinctive feature of material life after 1500 as people and things became ever more entangled She shows how wider populations gained access to more new goods than ever before and through industrious labour and smuggling acquired goods that heightened comfort redefined leisure and widened access to fashion Consumption systems shaped by race and occupation also emerged Lemire reveals how material cosmopolitanism flourished not simply in great port cities like Lima Istanbul or Canton but increasingly in rural settlements and coastal enclaves The book uncovers the social economic and cultural forces shaping consumer behaviour as well as the ways in which consumer goods shaped and defined empires and communities **God's Internationalists** David P. King, 2019-04-11 Over the past seventy years World Vision has grown from a small missionary agency to the largest Christian humanitarian organization in the world with 40 000 employees offices in nearly one hundred countries and an annual budget of over 2 billion While founder Bob Pierce was an evangelist with street smarts the most recent World Vision U S presidents move with ease between megachurches the boardrooms of Fortune 500 companies and the corridors of Capitol Hill Though the organization has remained decidedly Christian it has earned the reputation as an elite international nongovernmental organization managed efficiently by professional experts fluent in the language of both marketing and development **God's Internationalists** is the first comprehensive study of World Vision or any such religious humanitarian agency In chronicling the organization's transformation from 1950 to the present David P King approaches World Vision as a lens through which to explore shifts within post World War II American evangelicalism as well as the complexities of faith based humanitarianism Chronicling the evolution of World Vision's practices theology rhetoric and organizational structure King demonstrates how the organization rearticulated and retained its Christian identity even as it expanded beyond a narrow American evangelical subculture King's pairing of American evangelicals interactions abroad with their own evolving identity at home reframes the traditional narrative of modern American evangelicalism while also providing the historical context for the current explosion of evangelical interest in global social engagement By examining these patterns of change **God's Internationalists** offers a distinctive angle on the history of

religious humanitarianism *Products, Users, and Popular Luxury in Early Modern Greece* Artemis Yagou, 2024-08-05 This book analyses aspects of the material culture of early modern Greece from an object based perspective using surviving artefacts from that period as primary sources A printed book a wine jug an ecclesiastical embroidery and a pocket watch are used as entry points to examine the consumer practices of the emerging Greek bourgeoisie under Ottoman rule in the long eighteenth century The acquisition and usage of novel products especially imported ones by Greeks was connected to personal expression identity building and self determination in the context of the Enlightenment The enjoyment of innovative artefacts opened new horizons to them and facilitated their individual and collective empowerment The originality of the book lies in its eclectic and interdisciplinary approach towards early modern Greek material culture an under researched topic The study is embedded within contemporary discourses on transnational trade the materiality of everyday life pleasurable consumption and the negotiation of identities This volume will appeal to students and scholars of early modern and modern Greek history Ottoman history European history material culture history of technology museum studies and cultural heritage studies as well as museum professionals collectors and the wider educated public *A Small Price to Pay* Graham Broad, 2013-10-21 We often picture life on the Canadian home front as a time of austerity as a time when women went to work and men went to war *A Small Price to Pay* the first full length study of consumer culture in wartime Canada explodes this myth of home front sacrifice by bringing to light the contradictions of consumer society during the Second World War Wartime governments pressured Depression weary citizens to save for the sake of the nation but Canadians had money in their pockets after years of want and the fantasy realm of advertisements promised them fresh groceries glamorous movies and new cars and appliances Graham Broad reveals that our greatest generation was not impervious to temptation but rather embarked on one of the biggest spending booms in our nation s history Cutting through the fog of patriotic enthusiasm this richly illustrated book reveals that the consumer spending boom of the 1950s and 1960s was not a postwar phenomenon after all **The Routledge International Handbook of Globalization Studies** Bryan S. Turner, 2011 This title offers students clear and informed chapters on the history of globalization and key theories that have considered the causes and consequences of the globalization process There are substantive sections looking at demographic economic technological social and cultural changes in globalization *Thinking Historically* Stéphane Lévesque, 2008-01-01 Drawing on a rich collection of personal national and international studies in history education L vesque offers a coherent and innovative way of looking at how historical expertise in the domain intersects with the pedagogy of history education

Handbook of Material Culture Christopher Y.
