Maritime Piracy Michael P. Scharf, Michael A. Newton, Milena Sterio, 2015-05-28 This book addresses maritime piracy by focusing on the unique and fascinating issues arising in the course of domestic piracy prosecutions from the pursuit and apprehension of pirates to their trial and imprisonment. It examines novel matters not addressed in other published works such as the challenges in preserving and presenting evidence in piracy trials, the rights of pirate defendants and contending with alleged pirates who are juveniles. A more thorough understanding of modern piracy trials and the precedent they have established is critical to scholars, practitioners and the broader community interested in counter piracy efforts as these prosecutions are likely to be the primary judicial mechanism to contend with pirate activity going forward. **Digital**

Transformation in Higher Education Institutions Andreia de Bem Machado, Maria José Sousa, Francesca Dal Mas, Silvana Secinaro, Davide Calandra, 2024-03-26 This book analyzes digital technologies being used in the teaching learning process. The authors show how the use of AI in higher education can provide personalized education through the automation of administrative teaching tasks, software programs that favor the detection of topics that need reinforcement in the classroom, the guidance and support of students outside the classroom and the use of data intelligently to teach and support students. In addition, the authors show how to further personalize education with the use of augmented reality, adaptive platforms, intelligent tutor systems, Chatbots, adaptive learning, computer aided instruction, MOOCs and robotics. The authors answer questions such as: What sustainable educational technologies can be used in the teaching learning process? How can Blockchain technology and AI be applied in higher education? How can the metaverse be applied in virtual learning environments? The book is relevant to researchers, professionals and students interested in technology and education.
