Tourism 2013 Grade 11 Final Exam:

Tourism, Philanthropy and School Tours in Zimbabwe Kathleen Smithers, 2024-08-05 This book explores the phenomena of school tours and tourism. It explores tensions of authenticity and artificiality in the school site being both a place of community learning and a spectacle for tourism consumption. Through the example of a school in Matabeleland North Zimbabwe, the book examines the act of a school tour whose main aim is to providing funds for the school. It offers a unique interdisciplinary lens that examines both the school as a tourism destination and as a site of learning. By drawing on these two fields, the book provides insights into the tensions inherent in a school that is also a tourism destination. This book will demonstrate to readers the tensions present in tourism partnerships with schools that include some source of philanthropic funding and unpack the complexities of tourism that draws on stereotypical cultural images. It explores these tensions through the lens of school leaders, students, teachers, and tourism personnel. The book provides a major and unique contribution to the field of tourism studies and education. It will be of interest to students and researchers interested in tourism studies, sociology, education, philanthropy, development studies, and the Global South.

Is beauty ever more than skin deep? Arguably yes, considering that the concept of beauty and the pursuit of it has shaped cultures worldwide across every time period and has even served to change the course of history. Studying beauty practices yields insight into social status, wealth, political ideology, religious doctrine, and gender expectations, including gender nonconformity. A truly interdisciplinary text, *Beauty around the World: A Cultural Encyclopedia* presents an insightful perspective on beauty that draws from philosophy, literature, sociology, anthropology, psychology, and feminist studies, giving readers a unique view of world beauty practices. This volume offers information about beauty practices from the past to the present in alphabetical entries that address terms and topics such as beards, dreadlocks, Geisha moko, tattoos, and progressive muscularity. Readers will better comprehend how beauty shapes many social interactions in profound ways worldwide and that the unspoken social agreements that shape ideals of attractiveness and desirability within any given culture can matter very much. Hill, 2013 Deficient urban schooling

remains one of America's most pressing and stubborn public policy problems. This important new book details and evaluates a radical and promising new approach to K-12 education reform. Strife and Progress explains for a broad audience the portfolio strategy for providing urban education: its rationale, implementation, and results. Under the portfolio strategy, cities use anything that works, indifferent to whether schools are run by the public, district, or private entities. It combines traditional modes of schooling with newer methods, including chartering and experimentation, with schools making innovative use of people and technology. Urban districts try to make themselves magnets for new talent, recruiting educators and career switchers looking to make a difference for poor children. The portfolio strategy creates interesting new bedfellows: people who think that government should oversee public education align with those advocating choice, competition, and entrepreneurship. It cuts across political lines and engages city governments and civic assets—e.g., philanthropies, businesses, universities—much more deeply than earlier reform initiatives. New York and New Orleans were portfolio pioneers, but the idea has spread rapidly to cities as far flung as Los Angeles, Denver, and Chicago. Results have been mixed overall, but generally positive in places that implemented the strategy most aggressively. Reform leaders such as New York's Joel Klein have been overly optimistic, however, assuming that the strategy's merits would be so obvious that careful assessment would be unnecessary. Serious policy evaluation is still needed.

Ghosts of the Somme Jonathan Evershed, 2018-05-30. Once assumed to be a driver or even cause of conflict, commemoration during Ireland's Decade of Centenaries came to occupy a central place in peacebuilding efforts. The inclusive and cross-communal reorientation of commemoration, particularly of the First World War, has been widely heralded as signifying new forms of reconciliation and a greater maturity in relationships between Ireland and the UK and between Unionists and Nationalists in Northern Ireland. In this study, Jonathan Evershed interrogates the particular and implicitly political claims about the nature of history, memory, and commemoration that define and sustain these assertions and explores some of the hidden and countervailing transcripts that underwrite and disrupt them. Drawing on two years of ethnographic fieldwork conducted in Belfast, Evershed explores Ulster Loyalist commemoration of the Battle of the Somme, its conflicted politics, and its confrontation with official commemorative discourse and practice during the Decade of Centenaries. He investigates how and why the myriad social, political, cultural, and economic changes that have defined postconflict

Northern Ireland have been experienced by Loyalists as a culture war and how commemoration is the means by which they confront and challenge the perceived erosion of their identity He reveals the ways in which this brings Loyalists into conflict not only with the politics of Irish Nationalism but with the peacebuilding state and crucially with each other He demonstrates how commemoration works to reproduce the intracommunal conflicts that it claims to have overcome and interrogates its nuanced and perhaps counterintuitive function in conflict transformation Senate Journal Wisconsin.
