Tourist Health, Safety and Wellbeing in the New Normal Jeff Wilks, Donna Pendergast, Peter A. Leggat, Damian Morgan, 2021-11-29 The COVID 19 pandemic has changed the face of international and domestic tourism and sharply focused attention on the importance of tourist health safety and wellbeing like never before This book offers a unique perspective on the challenges facing the world's largest service industry to protect and care for customers in a rapidly evolving environment where borders have closed social distancing rules apply and personal hygiene has become a key focus in everyday life Yet tourism is a very resilient industry and history shows there is always an immediate surge toward recovery after a crisis has passed Humans want to travel and see the world While we appreciate that the pandemic is far from over already there are reports of pent up demand for travel as restrictions ease at some destinations and borders begin to open As we move hopefully toward the recovery phase and people begin to move around for business and pleasure this book presents the reader with key information and insights in both traditional and emerging areas of tourist health safety and wellbeing recognising that the world is now shaped by this pandemic bringing change potentially enduring benefits and lasting legacies

Postcolonial Nations, Islands, and Tourism Helen Kapstein, 2017-07-11 Postcolonial Nations Islands and Tourism examines how real and literary islands have helped to shape the idea of the nation in a postcolonial world Through an analysis of a variety of texts ranging from

literature to prison correspondence to tourist questionnaires it exposes the ways in which nationalism relies on fictions of insularity and intactness which the island and island tourism appear to provide The island space seems to offer the ideal replica of the nation and tourist practices promise the liberation of leisure the gaze and mobility However the very reliance on the constantly shifting and eroding island form exposes an anxiety about boundaries and limits on the part of the postcolonial nation In appropriating island tourism the new nation tends to recapitulate the failures and crises of the colonial nation before it Starting with the first literary tourist Robinson Crusoe Postcolonial Nations Islands and Tourism goes on to show how authors such as JM Coetzee Romesh Gunsekera and Julian Barnes have explored the outlines and implications of islandness It argues that each text expresses a profound discomfort with national form by undoing the form of the island through a variety of narrative strategies and rhetorical manoeuvres By throwing the category of the island into crisis these texts let uncertainties about the postcolonial nation and its violent practices emerge as doubt in the narratives themselves Finally in its selection of texts that shuttle between South Africa Great Britain and Sri Lanka equalizing the former colonial metropole and its outposts it offers an alternative disciplinary mapping of current postcolonial writing
