Kevin J. Land

Vaal University Application Forms 2016:

Paper-based Diagnostics Kevin J. Land, 2018-12-11 This book explores the status of paper based diagnostic solutions or Microfluidics 2.0. The contributors explore how paper based tests can be widely distributed and utilized by semi skilled personnel how close to commercial applications the technology has become and what is still required to make paper based diagnostics the game changer it can be. The technology is examined through the lens of the World Health Organization's ASSURED criteria for low resource countries: Affordable, Sensitive, Specific, User friendly, Rapid and robust, Equipment free and Deliverable to end users. Its applications have to include health technology, environmental technology, food safety and more. This book is appropriate for researchers in these areas as well as those interested in microfluidics and includes chapters dedicated to principles such as theory of flow and surface treatments, components such as biomarkers and detection and current methods of manufacturing. Discusses how paper based diagnostics can be used in developing countries by comparing current diagnostic tests with the World Health Organization's ASSURED criteria. Examines how paper based diagnostics could be integrated with other technologies such as printed electronics and the Internet of Things. Outlines how semi skilled personnel across a variety of fields can implement paper based diagnostics. [Redefining Education and Development](#) Kaitano Dube, 2024-10-18 The book aligns with the United Nations Sustainable Development Goals (SDGs) particularly Goal 4 which focuses on quality education. It explores the evolving role of education as a critical driver for achieving all 17 SDGs by providing a platform for discussing innovative educational models and theories that foster sustainable development. The book takes an interdisciplinary approach merging educational theory, developmental practice and human psychology to address complex global challenges hindering sustainable development. The book includes case studies and empirical research such as exploring student entrepreneurship in the agricultural sector and the factors bridging the gap between entrepreneurial intention and venture creation. These examples provide readers with practical applications of theoretical concepts and demonstrate the real world impact of educational innovations which is at the core of education delivery for all and how education touches on other areas of the SDGs. The book offers valuable insights for policymakers, educators and development practitioners by presenting research and theory based analyses. It suggests ways to improve the academic environment to foster entrepreneurship and innovation which are key to economic development and job creation especially in regions with high youth unemployment rates. The content suggests educational reforms that are responsive to the changing societal and economic landscapes. The book's blend of theory and practice targets a broad audience including academic scholars, students, development agencies, non governmental organisations and policymakers. It seeks to engage these diverse readers in a conversation about the future of education and its role in achieving sustainable development. In summary, the book seeks to provide a comprehensive exploration of the nexus between education, development and human needs in the context of the SDGs, offering innovative perspectives and practical solutions to equip readers to contribute to

sustainable global development *Nanohybrid Materials for Water Purification* Sarat K. Swain, 2022-08-12 This book comprehensively reviews the key topics in the area of nanocomposites and hybrid materials used for waste water treatment and purification. It covers materials chemistry, various synthesis approaches and properties of these nanomaterials for the different water purification techniques. It provides new direction to the readers to better understand the chemistry behind these materials and the methods to improve their properties. This book will be a very valuable reference source for graduates and postgraduates, engineers, research scholars primarily in the field of material science, water nanoscience and nanotechnology, material scientists, researchers in the water related area, scientists working in water treatment plants and pollution mitigation industries.

Additive Manufacturing: Materials, Processes, Quantifications and Applications Jing Zhang, Yeon-Gil Jung, 2018-05-17 Additive Manufacturing: Materials, Processes, Quantifications and Applications is designed to explain the engineering aspects and physical principles of available AM technologies and their most relevant applications. It begins with a review of the recent developments in this technology and then progresses to a discussion of the criteria needed to successfully select an AM technology for the embodiment of a particular design, discussing material compatibility, interfaces, issues and strength requirements. The book concludes with a review of the applications in various industries, including bio, energy, aerospace and electronics. This book will be a must read for those interested in a practical, comprehensive introduction to additive manufacturing, an area with tremendous potential for producing high value, complex, individually customized parts. As 3D printing technology advances, both in hardware and software, together with reduced materials cost and complexity of creating 3D printed items, these applications are quickly expanding into the mass market. Includes a discussion of the historical development and physical principles of current AM technologies. Exposes readers to the engineering principles for evaluating and quantifying AM technologies. Explores the uses of Additive Manufacturing in various industries, most notably aerospace, medical, energy and electronics.

Process-Structure-Property Relationships in Metals Soran Biroscu, 2018-07-02 This book is a printed edition of the Special Issue Process Structure Property Relationships in Metals that was published in Metals.

Advanced Functional Materials and Methods for Photodegradation of Toxic Pollutants Ajay Kumar Mishra, Pardeep Singh, Pankaj Raizada, S. Vadivel, Rangabhashiyam Selvasembian, 2023-09-20 Advanced Functional Materials and Methods for Photodegradation of Toxic Pollutants addresses the potential role of visible active photocatalytic methods for the removal of various emerging and persistent organic pollutants (POPs). Describing the classification, sources and potential risks of emerging organics in water bodies and the environment, the book covers the different synthesis methods of visible active structured photocatalysts and structure related properties to their applications in photocatalytic processes for the removal of antibiotics, pharma and heavy metal pollutants. This book provides an invaluable reference to academics, researchers and technicians in chemical engineering, chemistry and environmental science. In addition, the mechanistic insights associated with the interaction of advanced functional materials and water pollutants

along with the possible reaction pathway occurring during the visible light induced photocatalytic processes together with toxicity are discussed in detail along with the reutilization of catalysts supporting the inherent reaction conditions performed with natural conditions Covers the recent progress in nano photocatalytic materials Explores the mechanism of photocatalytic degradation of pollutants Includes the controlled synthesis of nanostructured photocatalysts and their modifications for targeted pollutants

Negotiating Quality Concerns in Higher Education amidst Disruptions Felix Maringe,Otilia Chiramba,2025-06-02 Quality is at the heart of organisational development It is the one single reason organisations make progress or fail dismally when it is absent Disruptions can both be a catalyst for innovation and progress on one hand but when they are not well handled they can cause organisations to spiral into catastrophe and oblivion This book is about how best to safeguard quality both during and beyond disruptions Based largely on research in South Africa the collection of essays will resonate with multiple higher education contexts and audiences Collectively the essays provide compelling reading for practitioners academics researchers and policy makers in higher education The book s central message is that while disruptions can expose our organisational weaknesses they create several opportunities to drive change and transformation The essays here capture the transition from crisis to high performance and ways in which universities can navigate such journeys

Deanship in the Global South Oliver J.J. Seale,2021-02-08 The university today is a postmodern neo liberal competitive boundary less knowledge conglomerate a far cry from its historical traditional classical and collegial roots There is a body of literature on deanship that points to its evolving nature in the contemporary academe characterised by complexity and change Balancing academic demands simultaneously with the requirements for effective performance leadership and management lies at the heart of this very challenging bridging role nowadays Deans are generally former academics emerging from a traditional collegial space and often catapulted into the relatively unknown domain of executive management with its related problems Deans nowadays are required to be more than collegial intellectual leaders They are also meant to be fiscal and human resource experts fundraisers politicians and diplomats *Deanship in the Global South Bridging Troubled Waters* is about the deans lived reality as they try to balance the demands of both the academe from which they emerge and the administration to whom they now need to account Their lack of preparation and inadequate support points to the need for a more strategic integrated approach to leadership development within their critical bridging roles between the academe and administration

Critical Perspectives on Work-Integrated Learning in Higher Education Institutions Nirmala Dorasamy,Renitha Rampersad,2018-11-30 Governments around the world are committed to enhancing students graduateness Work integrated learning WIL is one of the many programmes which Higher Education Institutions HEIs can develop to promote this facet of student life The incorporation of work integrated learning in curriculum design and development can produce reciprocal benefits for students workplaces professions and communities Any curriculum design and development endeavour relating to WIL requires appropriate resources to support

curriculum development This book serves to explore WIL programmes and experiences for the student WIL coordinator and supervisor It further integrates practical relevant and reflective industry experience within the higher education curriculum to enhance student development WIL has no uniform or specific framework or approaches since it is an emerging field and is generally influenced by contextual factors In view of the diversity in theory and practice and different purposes whether pragmatic or practical driving the adoption of one approach over another this book highlights the diverse approaches that encapsulate WIL in South Africa

Speaking Subjects in Multilingualism Research Judith Purkarthofer, Mi-Cha Flubacher, 2022-07-22 This book discusses salient moments of multilingual encounters and brings together contributions focused on the interplay between language use by individuals and societies and language related inequalities or opportunities for speakers The chapters demonstrate how biographical and speaker centred approaches can contribute to an understanding of linguistic diversity how researchers can empirically account for lived experiences of languages and how such accounts are embedded in a larger discussion on social inequality Together the chapters make a powerful case for the importance of speaker centred methodologies in multilingual and multilingualism research The book is a rich source of theoretical and methodological reflections and will thus be a valuable resource for both experienced researchers and students beginning to explore biographical research methods

Design Solutions for User-Centric Information Systems Saeed, Saqib, Bamarouf, Yasser A., Ramayah, T., Iqbal, Sardar Zafar, 2016-12-21 Continuous improvements in technological applications have allowed more opportunities to develop systems with user focused designs This not only leads to higher success in day to day usage but it increases the overall probability of technology adoption Design Solutions for User Centric Information Systems provides a comprehensive examination of the latest strategies and methods for creating technological systems with end users as the focal point of the design process Highlighting innovative practices and applications across a variety of areas such as cloud based computing services e government adoption and logistics evaluation this book is an ideal reference source for computer engineers practitioners project managers graduate students and researchers interested in the enhancement of user centric information system development

Life in Transit: Theological and Ethical Contributions on Migration Manitzia Kotzé, Riaan Rheeder, 2020-12-31 Migration is an issue that is under discussion worldwide and affects South Africa the United States of America and Germany in a distinctive way This book reflects academically on this significant and topical subject of migration from the often neglected perspective of the fields of theology and Christian ethics While the majority of contributions are from the South African context there are also chapters reflecting on the topic from the other two aforementioned contexts While numerous publications have recently appeared on the subject reflection from theology and Christian ethics are often lacking As such this scholarly publication wants to add ethical value to the local and global conversations on the theme from a theological perspective The book reflects on migration from the perspectives originated in the disciplines of biblical studies the Hebrew Bible and the New
