From the table 1.2 classification interpretation validity coefficient, obtained 20 items in the instrument variable X (method dulohupa) the validity coefficient. From the results of the analysis of 20 instrument items of variable X, 14 valid instrument items and 6 invalid instrument items were obtained. This is because the instrument item is said to be valid if $r_{count} > r_{table}$, and invalid if $r_{count} < r_{table}$.

Validasi bag test results and Y variable (community empowerment)

The category of instrument validity refers to the classification of validity presented by Riyani et al[14] quoted in the UPI Journal on page 6 as well as in the second place classification of the interpretation of the validity coefficient, 10 assessment items were obtained in the variable Y instrument (community empowerment) the coefficient of validity. From the results of the analysis,

obtained 10 items of assessment of community empowerment it is valid, in other words all items are valid. The validity of the validity of the 10 assessment items is declared valid. Because matter or assessment items considered valid if $r_{count} > r_{table}$, and invalid if $r_{count} < r_{table}$.

3.2. Reliability Test Results

As in the validity test for variable X (dulohupa method), the reliability test is also done, such as instrument variable Y (community empowerment). The results of the reliability testing of the two variables are as follows.

Validity In Interpretation

Tomasz Kalaga

Validity In Interpretation:

Validity in Interpretation Eric Donald Hirsch, 1967-01-01 The object of interpretation is textual meaning in and for itself and may be called the meaning of the text The object of criticism on the other hand is that meaning in its bearing on something else standards of value present concerns etc and this object may therefore may be called the significance of the text If textual meaning itself could change contemporary readers would lack a basis for agreement or disagreement No one would bother seriously to discuss such a protean object The interpreter has to distinguish what a text implies from what it does not imply he must give the text its full due but he must also preserve norms and limits For hermeneutic theory the problem is to find a principle for judging whether various possible implications should or should not be admitted By classifying the text as belonging to a particular genre the interpreter automatically posits a general horizon for its meaning The genre provides a sense of the whole a notion of typical meaning components Thus before we interpret a text we often classify it as casual conversation lyric poem military command scientific prose occasional verse novel epic etc The interpreter's job is to specify the text's horizon as far as he is able and this means ultimately that he must familiarize himself with the typical meanings of the author's mental and experiential world Hermeneutics must stress the reconstruction of the author's aims and attitudes in order to evolve guides and norms for construing the meaning of the text Ambiguity or for that matter vagueness is not the same as indeterminateness This is the crux of the issue To say that verbal meaning is determinate is not to exclude complexities of meaning but only to insist that a text's meaning is what it is and not a hundred other things Taken in this sense a vague or ambiguous text is just as determinate as a logical proposition it means what it means and nothing else

Validity in interpretation Eric Donald Hirsch, 1979 **Validity in the Identification and Interpretation of Literary Allusions in the Hebrew Bible** David R. Klingler, 2021-10-26 Given the present state of affairs in the area of intertextuality along with the multitude of competing interpretations of Scripture *Validity in the Identification and Interpretation of a Literary Allusion in the Bible* seeks to bring a measure of reason and methodological control back into the discussion With that in mind this work is heavily philosophical yet also deeply practical By defining what literary allusions are and how they work David Klingler seeks to provide some interpretive criteria for assessing the various claims about literary allusions in the Bible

Validity in Interpretation E. D. Hirsch, 1975 *Conflicting Readings* Paul B. Armstrong, 2017-10-10 Armstrong argues that conflicting readings occur because readers with opposing suppositions about language literature and life can generate irreconcilable hypotheses about a text Without endorsing a particular critical methodology the author offers a theory designed to help readers better understand the causes and consequences of interpretive disagreement so that they may make more informed choices about the various interpretive strategies available to them Originally published in 1990 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books

Interpretation, 1975 **The Agon of Interpretations** Ming Xie, 2014-09-17 Written by a team of leading international scholars *The Agon of Interpretations* explores the challenges and possibilities of critical intercultural hermeneutics in a globalized world Editor Ming Xie and writers from eight countries on five continents not only lay out the importance of critical hermeneutics to intercultural understanding but also probe the conditions under which a hermeneutics that is both intercultural and critical can be possible The contributors examine and define critical intercultural hermeneutics as an emerging field from a wide variety of disciplinary perspectives including phenomenology critical theory sociology object oriented ontology and pragmatism The essays combine philosophical argumentation with historical and intellectual inquiry Together the contributors to *The Agon of Interpretations* demonstrate the value of critical intercultural hermeneutics for enabling intercultural communication engagement and understanding **Revelation and Concealment of Christ** Saeed Hamid-Khani, 2021-03-16 The elusive disposition of John's language has been noted by biblical scholars throughout the history of New Testament studies The Fourth Gospel is seen as so simple to grasp and yet often pointing beyond itself and beckoning the reader to read deeper Various socio linguistic studies have explained this feature as the reflection of the sectarian tendencies in the Johannine Christianity In his study Saeed Hamid Khani questions these approaches as inadequate In turn he examines John's language within an exegetical and theological framework He argues that the *Sitz im Leben* of Johannine language was an environment in which the Hebrew Scriptures were the dominant conceptual force for both the Jews and the Christians In this context he argues that the essential function of John's enigmatic language is wedded to the Evangelist's purpose in writing the Gospel namely a steadfast focus upon setting forth that Jesus is the Christ according to the witness of Israel's Scriptures It is here in these echoes and thematic allusions to the Scriptures that we find the answer to the function and significance of John's unique language i.e. Jesus is the Messiah the Saviour of the world and he is the visible image of the invisible God the embodiment of the self revelation of God according to the Scriptures However these truths are concealed from the undiscerning and are only revealed by the spirit of God to those who are born of God

Tomasz Kalaga,2015-06-18 This book analyses the most significant aspects of the evolutionary process which occurred in literary hermeneutics the shift from interpretation perceived as a methodology of reading to the ontological function of exegesis Through the discussion of the theories of Friedrich Schleiermacher Eric Donald Hirsch Hans Georg Gadamer and Paul Ricoeur it focuses on the metamorphosis of the concepts of meaning interpretation and validity and demonstrates how the correlative changes in the essence and functions of these three elements transformed the art of understanding from being a methodological discipline to an ontological instrument for a re description of the interpreter s self The book highlights the development of those aspects of hermeneutic thought which are of particular significance in the contemporary debate over validity and criteria of interpretation The vision of hermeneutics proposed here contradicts the supposedly anachronistic character of the art of understanding and through a permanent departure from essentialist views and categories enables it to enter into a discussion with such literary orientations as neo pragmatism and reader response theory
