Tax By Design Stuart Adam, 2011-09 Based on the findings of a commission chaired by James Mirrlees this volume presents a coherent picture of tax reform whose aim is to identify the characteristics of a good tax system for any open developed economy assess the extent to which the UK tax system conforms to these ideals and recommend how it might be reformed in that direction

Private Property, Community Development, and Eminent Domain Robin Paul Malloy, 2016-04-15 The contributors in this volume address the fundamental relationship between the state and its citizens and among the people themselves Discussion centers on a recent decision by the United States Supreme Court in the case of *Kelo v City of New London* This case involved the use of eminent domain power to acquire private property for purposes of transferring it by the State to another private party that would make better economic use of the land This type of state action has been identified as an economic development taking In the *Kelo* case the Court held that the action was legal within provisions of the US Constitution but the opinion was contentious among some of the Justices and has been met with significant negative outcry from the public The *Kelo* case and the public debate arising in its aftermath give cause to assess the legal landscape related to the ability of government to fairly balance the tension between private property and the public interest The tension and the need to successfully strike a balance are not unique to any one country or any one political system From the United States to the United Kingdom to the People's Republic of China property and its legal regulation are of prime importance to matters of economic development and civic institution building The *Kelo* decision therefore explores a rich set of legal principles with broad applicability

Building Economics Ivor H. Seeley, 1996-11-11 This comprehensively rewritten updated and extended new edition of this established text focuses on what has become the most important single facet of the quantity surveyor's role cost management The scope of the book has been broadened to take account of the widening and more sophisticated cost management and control service that clients now require The book examines the factors influencing building costs and how the precontract costs can be estimated analysed and controlled to ensure that buildings can be completed within the agreed budget and timescale and be of acceptable quality function effectively and provide value for money A new chapter on value management has been added together with an introductory chapter on cost modelling the chapter on life cycling costing is extended while the sections on energy conservation and occupancy costs are expanded Throughout the text many new case studies with supporting tables and diagrams are included in order to enhance the value of this book to the student and the practitioner

Boom Bust Fred Harrison, 2010-01-01 Not employment or inflation as

argued during the Great Depression and years of Reaganomics the mechanism that drives the business cycle is proven to be the housing and property market in this analysis of the instability of financial markets The consequences of how neoclassical economics ignores the importance of land are presented in a discussion of the dot com crash Agricultural industrial and commercial property and the housing market are examined to suggest that policymakers must revise their treatment of land in economic decisions to avoid the next economic crash predicted for 2010
