Hello!

I hope you are having a wonderful summer with your family! You are probably having fun riding your bike, swimming, or playing games. I had fun, too. Mr. Post and I did a lot of traveling together. It was a terrific summer!

Now I have been back at school getting our classroom ready! I thought I would write you a letter to tell you how excited I am for the first day of school. I can't wait to see you!

We are going to have so much fun this year in first grade.

We will be sharing many big books, stories, poems and songs! We will have fun writing, too. We will be playing some excellent math games! We will also learn new things in science and social studies. Computer time will be

awesome, too! You will see some of your old friends in our class, but you will make new friends, too!

Everyone received a supply list last June. If you have your supplies, you may bring them in a little at a time the first week of school or all at once, whichever is easier for you.

If you or your family would like to write me a letter, I would love to learn about anything that you'd like me to know about you. You can mail it to me at Smith School, or bring it with you during the first week of school.

When you come to school on the first day, I will be right outside to meet you and show you where to go. We are going to have a great year! We will be meeting new people, learning new names, making new friends and helping each other.

I am looking forward to seeing you! I hope you enjoy these last days of vacation!

I will see you soon.
Bring your smile!

Your teacher,
Mrs. Post

education serving as an extension or add on to traditional approaches it should be the focus of all education What is often missing in teaching and learning are contexts and connections that make education meaningful Community education engages participants in problem and issues based approaches to the local community thereby facilitating that local to global link Instead of compartmentalized subjects integrated approaches use what students and the community know or understand to develop further questions solutions or even problems Community education offers efficacy in that it provides opportunities for collaboration in addressing local issues and problems It enables the community to become the classroom thus ensuring a more long term connection to active rather than passive endeavors as citizens *The Fisk University News* ,1922
