West Point 1915:

West Point 1915 Michael E. Haskew, 2014-10-17 West Point's Class of 1915 is the academy's most important in history. The cadets of the United States Military Academy West Point are intimately twined with the country's history. The graduating class of 1915, the class the stars fell on, was particularly noteworthy. Of the 164 graduates that year, 59.36% attained the rank of general, the most of any class in history. Although Dwight Eisenhower and Omar Bradley, both five-star generals, are the most recognizable other class members, they contributed significantly to the Allied victory in World War I, World War II, and played key roles either in the post-war U.S. military establishment or in business and industry after World War II, especially in the Korean War and the formation of NATO. For more than half a century, these men exerted tremendous influence on the shaping of modern America, which remains substantial to this day. Individually, the stories of these military and political leaders are noteworthy. Collectively, they are astonishing. **West Point 1915** explores the achievements of this remarkable group.

George E. Stratemeyer** George E. Stratemeyer, 1999 In this volume we examine the challenges and opportunities created by global migration at the start of the 21st century. Our focus extends beyond economic impact to questions of international law, human rights, and social and political incorporation. We examine immigrant outcomes and policy questions at the global, national, and local levels. Our primary purpose is to connect ethical, legal, and social science scholarship from a variety of disciplines in order to raise questions and generate new insights regarding patterns of migration and the design of useful policy. While the book incorporates studies of the evolution of immigration law globally and over the very long term as well as considerations of the magnitude and determinants of immigrant flows at the global level, it places particular emphasis on the growth of immigration to the United States in the 1990s and early 2000s and provides new insights on the complex relationships between federal and state politics and regulation, popular misconceptions about the economic and social impacts of immigration, and the status of undocumented immigrants. **Year Book of the State of Indiana** Indiana, 1919 **Collection of Heating and Lighting Utensils in the United States National Museum** Walter Hough, 1928 **American Breeder**, 1916 **American Berkshire Record** American Berkshire Association, 1917 **Lucius D.
