The Western Experience Mortimer Chambers, 1995 V 1 From the Renaissance to the Modern Era v 2 Since the Sixteenth Century *The Western Experience: Since 1600*, 1987 **The Great War and the Death of God** Charles A. O'Connor, 2014-04-07 A compelling analysis of how World War I spurred the rise of atheism and the subsequent effect on Western theology philosophy literature and art The catastrophic Great War left humanity in a world no longer trustworthy and reassuring but seemingly meaningless and indifferent Instead of redressing humanity's cosmic alienation postwar Western culture abandoned its concern for cosmic meaning lost its confidence in human reason and enabled the scientific worldview of neo Darwinian materialism to emerge and eventually dominate the Western mind According to the proponents of that worldview science is the only source of genuine truth nature is the product of a blind evolutionary process and reality at bottom is just physics and chemistry Thus God is dead and continued belief in a transcendentally purposeful universe is intellectually indefensible and either disingenuous or delusional By turning away from the eternal questions about the nature of reality Western culture effectively ceded unwarranted credibility and prominence to neo Darwinian materialism including its recently strident New Atheism O'Connor revisits the 20th century's journey from Nietzsche's declaration of the death of God to the rise of materialism as the dominant worldview of western intelligentsia We live in a world that has largely expelled both mind and meaning from the citadels of serious intellectual pursuit and O'Connor's book is a fascinating and scholarly expedition into the how and why of that troubling development Carter Phipps author of *Evolutionaries* I found this topic to be top rate The book is well researched and conceived nicely narrated and analyzed and an original body of inquiry into a challenging fascinating intellectual tradition Ronald M Johnson Professor Emeritus of American History Georgetown University *The Western Experience: Antiquity to the middle ages*, 1979 **Radicalism and Dissent in the World of Protestant Reform** VolkswagenStiftung,, German Historical Institute, Library, Bridget Heal, Annette Wetzels, 2017-04-03 This volume of essays explores the themes of radicalism and dissent within Protestantism The comparisons highlight the contingent nature of particular settlements and narratives and reveal the extent to which the definition of religious radicalism was dependent upon immediate context and show that radicalism and dissent were truly transnational phenomena The historiography of the so called radical reformation has been unduly shaped by the hostile categories imposed by mainstream or magisterial reformers during the sixteenth and seventeenth centuries This volume argues that scholars should adopt an open ended understanding of evangelical reform and recognize that the boundaries between radicalism and its opposite were not always firmly drawn The distinction between the two is an inheritance of the Lutheran Reformation of the 1520s which shaped not only the later course of the Reformation in the Holy Roman Empire but also attitudes towards and writings on religious dissent in the Netherlands and England Radical critique is immanent within mainstream Protestantism in a faith that emphasizes the power of the gospel with its unrelenting demands *The Western Experience: Antiquity to the*

Middle Ages Mortimer Chambers,1979 Growth Growth Growth Julian Cobbing,2024-04-11 Growth Growth Growth retells history as a succession of pivotal crises linked to economic growth Beginning with agriculture ten thousand years ago each crisis led to an impasse until human ingenuity devised a technical solution to fix it These solutions included the alphabet paper clocks guns the printing press the steam engine the petrol engine electricity nitrogen fertilizer and the computer Each solution however played a part in the next crisis Growth driven crises led to the world wars of the first half of the twentieth century including the atrocities of Stalin Hitler and Hiroshima The brief golden age of capitalism of the 1950s and 1960s gave way to the ultra corporate capitalism that in one variant or another is now the global economic system Julian Cobbing s lively account exposes the historical roots of our converging problems the destruction of the environment the massacre of other species the running down of oil reserves global heating and the nuclear threat to all of us This time there is no technical solution since we are devouring the Earth s finite resources Cobbing reminds us that we are just one species in a planetary life system which could dispense with us if we are not needed **The Eastern Establishment and the Western Experience** G. Edward White,2012-07-25 First published in 1968 The Eastern Establishment and the Western Experience has become a classic in the field of American studies G Edward White traces the origins of the West of the imagination to the adolescent experiences of Frederic Remington Theodore Roosevelt and Owen Wister three Easterners from upper class backgrounds who went West in the 1880s in search of an alternative way of life Each of the three men came to identify with a somewhat idealized Wild West that embodied the virtues of individualism self reliance and rugged masculinity When they returned East they popularized this image of the West through art literature politics and even their public personae Moreover these Western virtues soon became and have remained American virtues a patriotic ideal that links Easterners with Westerners With a multidisciplinary blend of history biography sociology psychology and literary criticism The Eastern Establishment and the Western Experience will appeal to a wide audience The author has written a new preface offering additional perspectives on the mythology of the West and its effect on the American character *Human Resource Management, 10th Edition* Raymond J.
