the 1960s and 70s gave rise to both militant political groups ranging from urban guerrilla groups to autonomist
counterculture as well as radical media including radio music film video and television This book is concerned with both of
those tendencies considered as bifurcations of radical media ecologies in the 1970s While some of the forms of media
creativity and invention mapped here such as militant film and video pirate radio and guerrilla television fit within
conventional definitions of media others such as urban guerrilla groups and autonomous movements do not Nevertheless
what was at stake in all these ventures was the use of available means of expression in order to produce transformative
