

Welcoming Speech by Conference Chair,

Good Morning,

Distinguished Guests, Speakers, KSEA members, Friends, and Families, All Welcome to UKC 2006!

I am *so pleased to see so many* colleagues, professors, friends and families from the US and Korea, *all in one place* ! The US-Korea Conference provides a very unique opportunity for all of us.

To my knowledge, this is the only Conference where you can meet colleagues from your own specialty area, but you can also reunite with your college physics, chemistry or metallurgy professor. Not only that, you can meet your old high school friends, who are now an aerospace engineer, computer scientist, biochemist, chairman of a large corporation or even a congressman!

The *UKC2006 Organizing Committee members* in the US and Korea have worked extremely hard for the last year to prepare an *outstanding conference*.

We have attempted to replicate the spirit of the original "Symposium" written by Plato, the great Greek philosopher. As a result we have prepared many "symposiums" & "forums" to discuss *the truth and beauty of science, technology and education*, while celebrating *our global friendships*.

Your strong support and active participation have made the *UKC2006 a record-breaking event*. We have exceeded the total number of papers ever presented and the total number of people ever registered. The quality of technical programs is world-class, and the spectrum of topics is very current and broad.

Several new Symposiums were added this year, such as AMT, FST, GE, and MST, all make the technical programming strong and attractive. A few Forums also discuss unique topics such as Education in Science and Engineering, Women's Career Issues, and a joint program by NSF/KOSEF for Young Generation members. KUSCO/KSEA scholarships will also be awarded to students at this Conference.

An impressive roster of distinguished speakers from Korea and the US has been assembled for this Opening ceremony and plenary sessions.

For the first time this year, UKC is completely on-line. We have successfully managed the whole conference with a comprehensive *on-line process* for abstract and paper submission, conference registration, hotel reservation, and other services.

Generous sponsorships from many industrial companies and research organizations from the US and Korea have recognized that the US-Korea Conference is *an important venue* to discuss scientific and technological *collaboration across the Pacific*.

MESSAGE OF HIS HOLINESS THE 14TH DALAI LAMA Leaving aside the complex question of the creation and evolution of our universe we can at least agree that each of us is the product of our own parents In general our conception took place not just in the context of sexual desire but from our parents decision to have a child Such decisions are founded on responsibility and altruism the parent s compassionate commitment to care of their child until it is able to take care of itself Thus from the very moment of our conception our parents love is directly in our creation Moreover we are completely dependent upon our mothers care from the earliest stages of our growth According to some scientists a pregnant woman s mental state be it calm or agitated has a direct physical effect on her unborn child The expression of love is also very important at the time of birth Since the very first thing we do is suck milk from our mothers breast we naturally feel close to her and she must feel love for us in order to feed us properly if she feels anger or resentment her milk may not flow freely Then there is the critical period of brain development from the time of birth up to at least the age of three or four during which time loving physical contact is the single most important factor for the normal growth of the child If the child is not held hugged cuddled or loved its development will be impaired and its brain will not mature properly Since a child cannot survive without the care of others love is its most important nourishment The happiness of childhood the allaying of the child s many fears and the healthy development of its self confidence all depend directly upon love Nowadays many children grow up in unhappy homes If they do not receive proper affection in later life they will rarely love their parents and not infrequently will find it hard to love others This is very sad As children grow older and enter school their need for support must be met by their teachers If a teacher not only imparts academic education but also assumes responsibility for preparing students for life his or her pupils will feel trust and respect and what has been taught will leave an indelible impression on their minds On the other hand subjects taught by a teacher who does not show true concern for his or her students overall well being will be regarded as temporary and not retained for long Above is an excerpt from the

Welcome Speech For Youth Conference Introduction

In the digital age, access to information has become easier than ever before. The ability to download Welcome Speech For Youth Conference has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Welcome Speech For Youth Conference has opened up a world of possibilities. Downloading Welcome Speech For Youth Conference provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Welcome Speech For Youth Conference has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Welcome Speech For Youth Conference. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Welcome Speech For Youth Conference. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Welcome Speech For Youth Conference, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Welcome Speech For Youth Conference has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading

practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
