Mahathir's Islam Sven

Schottmann,2018-09-30 Mahathir Mohamad s legacy as Malaysia s longest serving prime minister 1981 2003 is deeply controversial His engagement with Islam the religion of just over half Malaysia s population has often been dismissed as partisan maneuvering Yet his willingness to countenance a more prominent place for Islam in government and society is what distinguished him from other modernist politicians and his instinct to set Malaysian politics against the backdrop of the wider Muslim world was politically astute Author Sven Schottmann argues that Mahathir s transformative effect on Malaysia can only be fully appreciated if we also take him seriously as one of the postcolonial Muslim world s most significant political thought leaders Schottmann sees Mahathir s representations of Islam as a relatively coherent discourse that can legitimately be described as Mahathir s Islam This discourse contains Mahathir s assessment of the economic political and sociocultural problems facing the contemporary Muslim world and the range of solutions and corrective measures that he proposed Muslims should adopt His ideas are fraught with flaws and contradictions On the one hand he emphasized the individualistic egalitarian pluralistic democratic and dynamic qualities of Islam On the other his government enacted legislation and acquiesced in the activities of religious bodies that curtailed religious freedoms of both Muslims and non Muslims His ideas contributed to Malaysia s worsening state of interethnic relations yet his insistence that every Muslim had the right to speak for Islam may have paradoxically prepared the ground for a future democratization of Malaysian politics Mahathir s Islam is based on rigorous analysis of Mahathir s speeches interviews and writings which the author is able to link to parallel processes elsewhere in the Muslim world Indonesia the Middle East Pakistan Turkey and diaspora communities in the West Mahathir s Islamic discourse Schottmann suggests must be read against the wider late twentieth century resurgence of religion in general and the post 1970s Islamic revival in particular Balanced in approach and engagingly written this book will be of interest to scholars and students of political science religious studies and others interested in Malaysia Southeast Asia or Mahathir himself **Daily Report, Foreign Radio Broadcasts** United States. Glaser,2010-10-01 For nearly ten years indeed more if we include his period of influence under Mandela s presidency Thabo Mbeki bestrode South Africa s political stage Despite attempts by some in the new ANC leadership to airbrush out his role there can be little doubt that Mbeki was a seminal figure in South Africa s new democracy one who left a huge mark in many fields perhaps most controversially in state and party management economic policy public health intervention foreign affairs and race relations If we wish to understand the character and fate of post 1994 South Africa we must therefore ask What kind of political system economy and society has the former President bequeathed to the government of Jacob Zuma and to the citizens of South Africa generally This question is addressed head on here by a diverse range of analysts commentators and participants in the political process Amongst the specific questions they seek to answer What is Mbeki s legacy for patterns of inclusion and exclusion based on race class and gender How if at all did his presidency reshape relations within the state between the state and the ruling party and between the state and society How did he reposition South Africa on the continent and in the world This book will be of interest to anyone wishing to understand the current political landscape in South Africa and Mbeki s role in shaping it **Neighborhood Youth Corps First National Conference Report, 1966**

students he ultimately established one of the largest networks of local and international organisations in the world travelling to more than 130 countries over the course of decades to render help wherever it was needed Along that journey he met some eminent personalities including Dato Anwar Ibrahim current Prime Minister of Malaysia Malcolm X and Muhammad Ali His impact on others from East to West is immeasurable As such this book is not about Totonji but his work what faith passion drive and determination can achieve In it he shares essential spiritual and ethical leadership principles in the hope that others draw valuable lessons from all he has learned and live the experience with him Seeking no praise and no gain Allah and prayer was his first priority service to others his second and all else third Corpsman ,1971-05 **Young**

Youth, Nationalism, and the Guinean Revolution Jay Straker, 2009 How youth centered ambitions destroyed the ideals of nationhood in Guinea *Youth Development in Identity Societies* James E. Cote, 2018-10-31 This book explores the causes and consequences of the contradictions in young people s lives stemming from the affluence purpose paradox a lack of purpose in life among many of those living in the most affluent societies in human history This paradox is endemic to identity societies where people experience a choice contingent life course and is examined using an interdisciplinary approach largely with an integration of developmental psychology and sociology but also using historical anthropological economic and political perspectives The transition to adulthood is now commonly a prolonged process with young people facing a number of psychological challenges and sociological obstacles in their identity formation Challenges include difficulties in making prudent choices about goals Obstacles involve cross pressures in the wider society as well as in educational institutions Consequently many youth experience their education as alienating and stressful rather than as an opportunity for personal development Those without a sense of purpose have more difficulties with their identity formation that can produce symptoms of anxiety and depression The current student mental health crisis is examined in this context An additional challenge is an ambiguously defined adulthood Young people who are confused about appropriate adult roles often value hedonistic activities rooted in narcissism and materialism rather than in more fulfilling long term goals Conversely those who are agentic in their personal development can thrive in adulthood especially when they combine agency with generativity This book ends with a series of recommendations for researchers and policy makers to help youth cope with the affluence purpose paradox
