Effective Online Teaching Online Teaching Academy, 2020-07-14 Are you looking for an easy and effective guide to online teaching If yes this is the right book for you Online teaching consists of online courses that are conducted on the World Wide Web which means the students and the instructor or teacher doesn't meet physically Online courses can be intended for a bunch of enlisted understudies or can be made open and available in a wide assortment of members for example with a MOOC Building up an online course doesn't involve taking materials from your customary course and putting them on the web You should design your methodology cautiously by matching existing course materials for a new and proper one It is imperative to design the entirety of your online course before the primary day of class Knowing your exercise objectives your intended interest group and your learning point and targets This book will assist you by giving the most important notions you need to do this Moreover it will help you become familiar with computerized homeroom and its advantages besides providing you with some useful tips and tricks This guide covers Qualities of a teacher in the online world Benefits of using an online classroom Types of learning Building the course infrastructure Technological tools and apps to perform better in your work Making your community a class Tips and tricks to motivate students to take lessons FAQs about the online classroom And much more So do you want to know more about online teaching and learn how you can perform it better Click here to buy now

Teaching and Learning Online Shawn Morris, 2002-10-23 If you have more questions than answers about online learning for K 12 students then you need this comprehensive guide that takes you through all of the planning and implementation steps need to go from vision to actual delivery of online courses Clearly written and incorporating useful aids such as a timeline for planning and creating your online program this book provides information on evaluating online courses how to successfully mentor students online and some opportunities and services that will enhance the online program More multi layered than step by step the process described involves working in many areas simultaneously Superintendents board members administrators and teachers can successfully pull all of the pieces together with this book as their guide

Steps to an Online Course Anne Arundel Community College. On-line Academy, Stephen F. Steele, Mary Wells, 2000

Online Learning For Dummies Susan Manning, Kevin E.

Johnson,2020-10-15 Get great grades from a distance New to online academia and need someone to show you around You re in the right place and you re not alone As more of everything goes online fueled by tech trends as well as unexpected events like the COVID 19 crisis it s no surprise that many of us are getting our educations there too Online Learning For Dummies is here to welcome you to the gigantic and gigantically exciting virtual campus and help you get settled in by providing an overview of the endless opportunities offered by distance learning as well as offering practical advice to make sure you have the right equipment mindset and study techniques for success In a step by step style this friendly guide takes you from the process of determining what sort of online program is right for you through applying and enrolling to building the skills you ll need to succeed You ll learn how to navigate the common features of the online learning classroom explore the digital etiquette that will help you get the most out of your instructors and fellow students and discover how to effectively and professionally present your work You ll also find out how to develop good online study habits to help you avoid distraction and how to set aside undisturbed time in between juggling the demands of work family and social life Evaluate the latest courses and opportunities Make sure you have the correct hardware and software Develop your online study skills via best practices Avoid digital fatigue Regardless of age or experience we can all do with a few pointers on how to get more from the vast array of educational opportunities offered online This book has them all Get reading get online and get the most from that education you ve been dreaming about

Conquering the Content Robin M. Smith,2009-10-01 As the sixth volume of the Jossey Bass Guides to Online Teaching and Learning series Conquering the Content provides a highly practical blue print for course development and content presentation for web based courses While providing guidance for incorporating learning theory into online courses this book primarily furnishes online instructors with the practical templates learning guides and sample files to construct and manage their course content Unlike other books about online instruction that cover theories of teaching and learning instructional design or even graphic design this book gives the how to of preparing an online course by focusing on content The much needed step by step guidance in this book will result in fully formed courses where high quality content is the central feature

Teaching and Learning Online Shawn Morris,2002-10-23 If you have more questions than answers about online learning for K 12 students then you need this comprehensive guide that takes you through all of the planning and implementation steps need to go from vision to actual delivery of online courses Clearly written and incorporating useful aids such as a timeline for planning and creating your online program this book provides information on evaluating online courses how to successfully mentor students online and some opportunities and services that will enhance the online program More multi layered than step by step the process described involves working in many areas simultaneously Superintendents board members administrators and teachers can successfully pull all of the pieces together with this book as their guide

Acellus Learning Accelerator Roger E. Billings,2019-08-15 In this book Dr Billings shares the secret sauce which has made the Acellus Learning System a game changer for thousands of schools coast

to coast Acellus makes a science of the learning process It contains tools to recover discouraged students and to accelerate the learning process In these pages the author shares the tools the techniques and the magic of Acellus that is changing education discussing important aspects of the system What is Acellus How does it work What happens when a student gets stuck How does Acellus accelerate the learning process Dr Maria Sanchez Chairman International Academy of Science

A Guide to Online Course Design Tina Stavredes, Tiffany Herder, 2014-01-28 A Guide to Online Course Design offers faculty and professional staff a practical and easy to follow model for creating exceptional online courses that focuses on quality standards in instructional design transparency in learning outcomes and learner persistence A comprehensive resource the book includes effective research based instructional strategies to motivate online learners and help them become more self directed A Guide to Online Course Design emphasizes quality standards and removing barriers to learners persistence which ensures online courses meet the needs of online learners as well as distance education initiatives All faculty members and course designers regardless of experience level content background or technology skills can benefit from applying the approaches defined in this book The authors have imparted a wealth of knowledge that can improve the quality of any online class and I highly recommend this book for all those involved with online learning Anton G Camarota faculty University of Denver Anyone involved in developing online courses should read this book Packed with great insights and the research to back them up Stavredes and Herder guide readers with practical information that will support online course development Brenda Boyd director of professional development and consulting Quality Matters Program The blend of theory and application makes A Guide to Online Course Design an indispensable resource for any professional seeking to create high quality outcomes based learning experiences I loved the action steps that close each chapter as they lead the reader through the entire process of course design from analysis to implementation Kathe Kacheroski dean of curriculum and instruction Rasmussen College

Learning Online Maggie McVay Lynch, 2004 This title provides realistic guidelines to ensure success in the virtual learning environment It demystifies terms and concepts common to online learning addresses issues of online ethics such as netiquette plagiarism and software piracy and offers practical advice on submitting assignments and doing research

The Student Guide to Successful Online Learning Ken W. White, Jason D. Baker, 2003 A practical handbook of suggestions for this increasingly significant form of modern education From selecting online programs to dealing with online class work readers can discover the opportunities and overcome the challenges of learning online

From publisher description SOS Desiré Mosser, 2020-08-11 Head into the 2020 2021 school year prepared to give yourself and your students the best online learning environment possible In this book fifteen year virtual teaching veteran Desiré Mosser guides educators in the best practices and strategies for building teacher student relationships online handling online lessons and Zoom meetings adapting brick and mortar lesson plans for online delivery creating inclusive classroom communities online handling the sometimes tricky world of online communication and feedback and even balancing family

with a work from home career With this book and its interactive self reflection activities you ll learn how to manage workflow boundaries manage a virtual classroom platform map out your curriculum welcome your students to class motivate students to work and complete assignments bond with students through email build classroom community effectively prepare and run student meetings and live lessons handle online meeting disruption and behavior issues provide feedback manage your time balance your family and your new work from home hours and so much more Teachers know better than anyone that we are stronger together Let this book be your partner confidant and guide so that this school year promises to be as successful as you want to make it Cover design by Pam Carter Willoughby

Web Teaching Guide Sarah Horton,2000 Multimedia specialist Sarah Horton draws on extensive experience as a faculty Web consultant to explain the entire process of creating a site from initial planning through site assessment With case studies throughout Horton discusses the planning process content creation site development and finally site implementation in the curriculum 200 illustrations

Online Course Success Guide Randy Nordell,2014-01-03 Arm your students with the strategies they need for success with 101 Tips for Online Course Success Many students think they are prepared for online classes in fact they often think they will be easier than on ground courses but are they actually ready for the challenges that come with learning online Help your students manage their time keep organized stay motivated use online resources use learning management systems work in groups and much more 101 Tips for Online Course Success is everything your students need to succeed in an online or hybrid course It is their handbook and planner that can complement any online or hybrid course regardless of the subject matter It can also be used in student success courses that introduce students to the college experience Most of the strategies and tips included in this text are also relevant to the onsite courses

Conquering the Content Robin M. Smith,2014-09-22 Put your course online now without sacrificing pedagogical quality Conquering the Content A Blueprint for Online Course Design and Development Second Edition is a highly practical guide to creating online courses With guidance on incorporating learning theory into online course content as well as a host of templates learning guides and sample files this book furnishes instructors and instructional designers with the information and tools they need to design and develop their course content to better serve online students This second edition introduces relevance statements and time saving tips as well as content maps which provide a scaffold for content organization and help students anchor the topics in their memories for retrieval Readers will gain expert insight and best practices for designing within the rapidly changing online learning environment and learn to incorporate recent advances that can improve student outcomes Because the book is designed to focus on online teaching pedagogy it won t go out of date as specific tools change Nearly one third of all students in higher education are taking at least one online class and online hybrid classes are becoming more widespread Distance learning is becoming the norm but creating an online class is more complex than just posting course content on a website Conquering the Content demonstrates how instructors can best revamp their course content to suit the online learning environment and provides the

tools and resources instructors need to transfer their effectiveness from the classroom to the online environment Learn how to Create student friendly navigation structures that support what is known about the brain and learning Organize content based on priority flow and easy navigation Create assessments that work within the parameters of an online course Chunk information to facilitate better processing Time is of the essence in getting a course online but it s important that pedagogy not get lost in the crush of new content Course design is just as critical as course content when it comes to distance learning outcomes and Conquering the Content provides a holistic and practical approach to effective online course development
