

The SAIW Centre for Welding Engineering at the University of Pretoria offers internationally accredited postgraduate degree programmes in Welding Engineering and Welding Technology.

Why study Welding Engineering?

South Africa is currently experiencing a severe shortage of qualified welding engineers and welding technologists – skills that are in high demand in industry.

The training of **International Welding Engineers (IWEs)** and **Welding Technologists (IWTs)** is regulated internationally and the International Institute of Welding's training programme 'International Education and Qualification System for Welding Personnel' is the only system recognised worldwide. The IIW training system is well supported by local and international industry and recognised by international training and accreditation entities such as the current ISO and CEN bodies.

Why study Welding Engineering at the University of Pretoria?

- The University of Pretoria IWE and IWT programmes are fully accredited by the International Institute of Welding (IIW).
- The University of Pretoria is well positioned for welding education, with more than 20 years of experience in welding research and teaching.

- Locally developed course material is supplemented by internationally approved web-based multimedia Distance Learning material developed in Germany by GSI-SLV.
- Web-based learning support is provided through the University of Pretoria ClickUP WebCT system.
- Training is presented on a part-time basis and the flexible distance learning approach reduces on-campus contact time to only four weeks, lowering costs and catering for the wide geographical distribution of prospective students.
