What Is Eez:

The Exclusive Economic Zone Charles Quince, 2019-02-15 Traditionally the law of the sea was divided into the territorial sea and the high seas which accounted for the application of different rules under different circumstances Concerning the territorial sea the coastal state enjoys full sovereignty to the right of innocent passage while under the high seas rules all countries enjoy multifaceted uses of the sea qualified only by the limitations imposed by international law The development of the exclusive economic zone ended this traditional dualism and ushered in guidelines that are embodied within the text of the LOS Convention The Exclusive Economic Zone presents to academia and the general reading public a comprehensive study of the EEZ concept as it relates to the LOS Convention and state practice The Exclusive Economic Zone shows that even through coastal states have the right to develop a 200 miles EEZ and that this right is an integral part of contemporary international relations it is also true that the EEZ concept is shrouded in legal ambiguities Using qualitative and inductive methods the scholarship draws on treaties official proclamations government archives and scholarly works that are germane to the development of the EEZ Students scholars and members of the general public with an interest in international law will find that The Exclusive Economic Zone deepens their understanding of the evolution of the EEZ concept **Exclusive Economic Zone**, 1984 **BUSINESS ENVIRONMENT** AHMED, FAISAL, ALAM, M.

Law of the Sea Ram Prakash Anand, 1978 *Agro-ecological Zoning* Food and Agriculture Organization of the United Nations. Soil Resources, Management, and Conservation Service, 1996-01-01 The Continental Shelf and the Exclusive Economic Zone / Le plateau continental et la zone économique exclusive Donat Pharand, Umberto Leanza, 2022-02-22 This volume focuses on both the general aspects of two of the most typical institutions introduced by the new Law of the Sea and the specific aspects related to the geographic and economic circumstances of Italy and Canada It is divided into two parts The first part deals with the delimitation of maritime boundaries especially with respect to the continental shelf and the exclusive economic zone The problem is approached from both a theoretical and a practical point of view in particular in analyzing not only the more well known controversies in delimitation solved by international agreements or by international courts but also still unsettled disputes in which Italy and Canada are involved The second part deals with the legal regime of the continental shelf and the exclusive zone and the activities in particular exploration and exploitation carried out in them The same approach as in Part One is used in juxtaposing Italian and Canadian views on relative regulation Indeed the volume brings together the diverse legal experience of the two countries Italy and Canada resulting from the different geographic political and economic conditions found in each It is enough to think that Italy is surrounded on three sides by a closed or semiclosed sea the Mediterranean while Canada borders on the Atlantic Pacific and Arctic Oceans The volume was financed by the Italian National Research Council CNR and edited by Donat Pharand Professor Emeritus of International Law at the University of Ottawa and Umberto Leanza Full Professor of International Law at the University of Rome Tor Vergata

Akintoba, 1996 The Third Conference on the Law of the Sea marked a watershed in the emergence of African diplomatic and legal activities within the international system Analysis of those states participation therefore not only provides a template for the study of bloc activity at this level it also adds the comprehensive analysis of African participation at UNCLOS III and finally it should also reveal the means by which states can more effectively impact global political and legislative processes This study evaluates the extent to which the Exclusive Economic Zone EEZ concept represents an attempt by African states to allot to international law the task of correcting inequities between nations and the future implications of such linkage It critically explores and analyzes the conceptual framework that initiated action by African states in UNCLOS III and it examines their attempts to operationalize this framework by their substantive participation in the negotiations Finally the study explores the future implications of African activity in the international legal and political system In this evaluative process the author suggests the need for greater insight in conceptualizing the role of African states as a bloc within the international system Only in this manner can a better appreciation be had of the important role African states are playing as contributors in the formation of contemporary
