The new companion volume to our best selling Practice of System and Network Administration it offers expert coverage of these and many other crucial topics.

**Software Engineering at Google** Titus Winters, Tom Manshreck, Hyrum Wright, 2020-02-28 Today software engineers need to know not only how to program effectively but also how to develop proper engineering practices to make their codebase sustainable and healthy. This book emphasizes this difference between programming and software engineering. How can software engineers manage a living codebase that evolves and responds to changing requirements and demands over the length of its life? Based on their experience at Google, software engineers Titus Winters and Hyrum Wright along with technical writer Tom Manshreck present a candid and insightful look at how some of the world's leading practitioners construct and maintain software. This book covers Google's unique engineering culture, processes and tools, and how these aspects contribute to the effectiveness of an engineering organization. You'll explore three fundamental principles that software organizations should keep in mind when designing, architecting, writing, and maintaining code: How time affects the sustainability of software and how to make your code resilient over time; How scale affects the viability of software practices within an engineering organization; What trade-offs a typical engineer needs to make when evaluating design and development decisions.

**How to Make an IMPACT** Jon Moon, 2010-04-08 Clear information shows clear thinking and clear thinking informs influences and impresses. How often do you stare at uninviting and confusing presentations, notes, reports, and information packs and get nothing out of them? It doesn't have to be like this. We could all produce amazingly clear work that has incredible impact if only we knew how. This book shows you how. It is full of ideas, tips, and principles that are simple and easy to implement yet brilliantly effective. You will never look at a business document in the same way again. And your work will impress the people that matter and get the results you want. It guides you through the most effective ways of using all forms of presenting information: tables, charts, slides, flowcharts, etc. Moon also introduces the new WiT (Words in Tables) approach to give impact to your message on all documents and slides. I love Jon's work. His tips are hugely useful, his WiT fantastic and ground-breaking, and his book essential reading. If you want to enhance your sales, tenders, pitches, and slides, if you want to win more business, get into Jon's stuff. It's really, really good. Gavin Duffy, a Dragon on Ireland's Dragons Den, top media coach and economics columnist with the Irish Sunday Independent. Every once in a while, simple ideas change business forever. This book is full of such ideas. A must-read if you want to do something about all those impenetrable reports, slides, and information packs. This book has all

the answers and will redefine how you think about business documents Dominic Burke Chief Executive Jardine Lloyd Thompson Group plc This is a vital topic that has been sorely neglected Jon s book changes that It is crammed with new ideas that are creative thoughtful yet practical and relevant for all disciplines of business Essential reading for everyone in business Dr Jikyeong Kang Professor of Marketing and Director of MBA Programmes Manchester Business School I ve seen Jon s talk and his ideas are full of originality and wisdom Many ideas are stunningly simple others are mould breaking He takes preconceived thinking and turns it on his head Your business reporting will never be the same again Michael Izza Chief Executive ICAEA
