What Happens When We Die? Sam Parnia, M.D.,2007-01-01 A critical care doctor interviews hundreds of patients about their near death experiences taking readers on a fascinating tour through human consciousness and demystifying what may await us after death Dr Sam Parnia faces death every day Through his work as a critical care doctor in a hospital emergency room he became very interested in some of his patients accounts of the experiences that they had while clinically dead He started to collect these stories and read all the latest research on the subject and then he conducted his own experiments That work has culminated in this extraordinary book which picks up where Raymond Moody s *Life After Life* left off Written in a scientific balanced and engaging style this is powerful and compelling reading This fascinating and controversial book will change the way you look at death and dying

What Happens When We Die? Thomas G. Long,2017-08-01 A straightforward treatment of the only existential issue that matters from the Christian perspective In *What Happens When We Die* Tom Long provides information about the promises and convictions of the Christian gospel concerning death and life after death He surveys in simple terms the major themes surrounding death dying and hope for an afterlife

What Happens When We Die? Margarete van den Brink,Hans Stolp,2017-06-21 Is there truly life beyond death What really happens when we die Can the living stay connected with or even help their loved ones who have passed on Answers to these questions have traditionally been sought for in Eastern religions but perhaps surprisingly for some they can also be found within the Christian tradition In fact such knowledge was prevalent in early Christianity but was gradually suppressed and eventually forgotten Turning to hidden esoteric sources that reveal lost meanings within the Bible the Dead Sea Scrolls and other Gnostic texts Hans Stolp and Margarete van den Brink describe the world of light that exists beyond death and the seven steps needed to progress through its realms The authors draw on near death experiences as well as the many profound personal encounters with deceased friends and family members described by people in recent times With this knowledge together with Rudolf Steiner

s research they offer answers to the following questions What is the world beyond death really like and what tasks await us there Why is love and wisdom gained in life on earth so important in the afterlife How can the living help or hinder the dead How do the departed themselves help loved ones who are left behind How does the Christ sustain the dead as they review their previous life and prepare for the next This is an extraordinary guide to understanding what happens after death It also offers invaluable advice on staying connected to our loved ones who have passed on *What Happens When We Die?* Chris Morpew,2021-05-01 Apologetics for Christian kids and tweens on what happens when we die Sooner or later kids have big questions about God life faith and the Bible especially when their friends start asking them about what they believe A common one is What happens when we die Big questions deserve good answers This warm empathetic book looks at what the Bible says to help 9 13s think through this big question for themselves It tackles common fears and stereotypes about the afterlife and will excite readers about the promise of the new creation Lively stories and illustrations make this book easy for this age group to engage with *What Happens When We Die?* Nicky Huys,2023-08-01 *What Happens When We Die* delves into one of life s greatest mysteries offering a comprehensive exploration of beliefs experiences and scientific inquiries surrounding death and the afterlife From near death experiences to religious and cultural perspectives this thought provoking book delves into the existential questions and diverse interpretations of what lies beyond It examines topics such as reincarnation cultural rituals grief ethical considerations and the impact of death on art and literature Drawing on scientific research spiritual insights and philosophical contemplations this book invites readers to reflect on their own beliefs and navigate the complexities of mortality With its nuanced approach and multidisciplinary perspectives this book serves as a guiding companion for those seeking a deeper understanding of life s ultimate mystery *Dying: What Happens When We Die?* Evan Thompson,2014-09-02 In the ancient Indian epic Mahabharata the Lord of Death asks What is the most wondrous thing in the world and his son answers It is that all around us people can be dying and we don t believe it can happen to us This refusal to face the inevitability of death is especially prevalent in modern Western societies We look to science to tell us how things are but biomedicine and neuroscience divest death of any personal significance by presenting it as just the breakdown of the body and the cessation of consciousness The Tibetan Buddhist perspective stands in sharp contrast to this modern scientific notion of death This tradition conceives dying not as the mere termination of living processes within the body but as a rite of passage and transformation of consciousness Physical death in this tradition initiates a transition from one of the six bardos in between states of consciousness to an opportunity for total enlightenment In *Dying What Happens When We Die* Evan Thompson establishes a middle ground between the depersonalized scientific account of death and the highly ritualized notion of death found in Tibetan Buddhism Thompson s depiction of death and dying offers an insightful neurobiological analysis while also delving into the phenomenology of death examining the psychological and spiritual effects of dying on human consciousness In a trenchant critique of the near death experience literature he shows that these

experiences do not provide evidence for the continuation of consciousness after death but also that they must be understood phenomenologically and not in purely neuroscience terms We must learn to tolerate the ultimate ungraspability of death by bearing witness to dying and death instead of turning away from them We can learn to face the experience of dying through meditative practice and to view the final moments of life not as a frightening inevitability to be shunned or ignored but as a deeply personal experience to be accepted and even embraced
