The Making of the Modern Chinese Navy Bruce A. Elleman, 2019-08-31 The Making of the Modern Chinese Navy includes 14 historical case studies that help to illuminate a number of special characteristics of the modern day Chinese navy most Chinese naval officers perhaps take for granted including a belief in the Mandate of Heaven tributary system and the fear of losing face either in a diplomatic setting or by risking valuable equipment in battle Ethnic and language differences regional loyalties and political mistrust potentially exacerbate these problems Special peculiarities include the Mongol dual officer diarchy that led to the political commissar system utilized by the People's Liberation Army Outside influences such as blockade sanctions or embargoes can exert a profound impact on China just as foreign intervention or equally important a decision not to intervene can often determine the outcome of major maritime events NP The 14 case studies discuss many of these characteristics while the Conclusion examines all case studies together and places them in a historical perspective The Making of the Modern Chinese Navy assesses which of these historical characteristics and peculiarities are still present in full force in China and which ones may no longer have as great an impact on the contemporary Chinese navy

affairs China as a Sea Power, 1127-1368 Lo Jung-pang, 2012-01-01 Lo Jung pang argues that during each of the three periods when imperial China embarked on maritime enterprises the Qin and Han dynasties the Sui and early Tang dynasties and Song Yuan and early Ming dynasties coastal states took the initiative at a time when China was divided maritime trade and exploration subsequently peaked when China was strong and unified and declined as Chinese power weakened At such times China s people became absorbed by internal affairs and state policy focused on threats from the north and the west These cycles of maritime activity each lasting roughly five hundred years corresponded with cycles of cohesion and division strength and weakness prosperity and impoverishment expansion and contraction In the early 21st century a strong and outward looking China is again building up its navy and seeking maritime dominance with important implications for trade diplomacy and naval affairs Events will not necessarily follow the same course as in the past but Lo Jung pang s analysis suggests useful questions for the study of events as they unfold and decades to come Zheng He's Art of Collaboration Hum Sin Hoon, 2012 Know your enemies know yourself advised Sun Zi in his famous Art of War AoW In contrast the legendary Admiral Zheng He would have said Know your collaborators know yourself and this would be the essence of his Art of Collaboration AoC This book offers a fresh new approach to doing business and providing leadership in the twenty first century where Zheng He s peaceful and win win collaborative paradigm present in his AoC provides an alternative to the aggressive and antagonistic mindset inherent in Sun Zi s AoW The author has culled from the existing literature on the historical cultural diplomatic and maritime oriented Zheng He connected the dots of his discovery of a managerial Zheng He and wrote this book to present both the big message of Zheng He s Art of Collaboration as well as an understanding of Zheng He s specific work as a leader and manager **China and Africa in Global Context** LI Anshan, 2022-02-23 This book studies the relationship between China and Africa by reviewing this history and current state of interactions offering a valuable addition to the often heated and contentious debate surrounding China s engagement in Africa from a Chinese angle Comprising four parts the book covers a kaleidoscopic range of topics on China Africa relations based on materials from different languages Part I looks into early historical contact between China and Africa and the historiography of African Studies in China in recent decades Part II probes the origins dynamics challenges and cultural heritage of China s policies towards Africa Part III explores the issue of development cooperation from both a theoretical and a practical point of view with a focus on the case of Chinese medical teams in Africa and China s technology transfer to the continent Part IV illustrates bilateral migration discussing the history and life of Chinese immigrants in Africa and the African diaspora in China The insights in this book as well as real life case studies will make this work an indispensable reference for academics students policy makers and general readers who are interested in international issues and area studies especially China Africa relations China s rise and African development *A Hierarchical Vision of Order* Antoine Roth, 2024-05-21 China s vision for international order is a matter of great global interest This book analyses China s vision for foreign policy and how

it is seeking to achieve its goals with its immediate neighbours The book provides a historically informed account by examining the legacy of China's imperial past and traditional political philosophy giving insights into the country's view of its place in today's world It argues that China today sees the maintenance of order as its own responsibility and that it believes this order needs to attribute different roles to small and big states to ensure stability Furthermore it explores the different tools China employs to achieve its vision including a proactive diplomacy the control of international discourse threat of punishment for misbehaviour and the promise of economic benefits in return for compliance
