Database Systems for Advanced Applications Shamkant B. Navathe,Weili Wu,Shashi Shekhar,Xiaoyong Du,X. Sean Wang,Hui Xiong,2016-03-24 This two volume set LNCS 9642 and LNCS 9643 constitutes the refereed proceedings of the 21st International Conference on Database Systems for Advanced Applications DASFAA 2016 held in Dallas TX USA in April 2016 The 61 full papers presented were carefully reviewed and selected from a total of 183 submissions The papers cover the following topics crowdsourcing data quality entity identification data mining and machine learning recommendation semantics computing and knowledge base textual data social networks complex queries similarity computing graph databases and miscellaneous advanced applications   Higher Education ICT Integration in Africa Ke Yu,Reuben Dlamini,2024-08-21 This multidisciplinary edited volume examines higher educations ICT integration in Africa contributing a new and inclusive change readiness framework to better understand how to manage ICT or other technological disruptions in resource restrained contexts Tackling ICT incorporation in HEIs from different levels chapters document case studies from countries such as Uganda South Africa Rwanda Eswatini and Zimbabwe to demonstrate both the complexity of integration but also the successes it has enabled and under which conditions The cases included in this book also exhibit better incorporation of both change content and process while some cases also make explicit reference to other technology adoption models Ultimately the book highlights conceptual and empirical research to inform practices and policy development in Africa improving multi level success or change readiness in ICT incorporation in HEIs in Africa Addressing various gaps in existing literature and proposing innovative solutions like the multilevel change readiness model this book will therefore be of interest to scholars researchers and academics in the fields of higher education ICT integration and educational technology more broadly The Open Access version of this book available at http www taylorfrancis com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license   Proceeding of 2021 International Conference on Wireless Communications, Networking and Applications Zhihong Qian,M.A. Jabbar,Xiaolong Li,2022-07-12 This open access proceedings includes original unpublished peer reviewed research papers from the International Conference on Wireless Communications Networking and Applications WCNA2021 held in Berlin Germany on December 17 19th 2021 The topics covered include but are not limited to wireless communications networking and applications The papers showcased here share the latest findings on methodologies algorithms and applications in communication and network making the book a valuable asset for professors researchers engineers and university students alike This is an open access book   **Embedded Deep Learning** Bert Moons,Daniel Bankman,Marian Verhelst,2018-10-23 This book covers algorithmic and hardware implementation techniques to enable embedded deep learning The authors describe synergetic design approaches on the application algorithmic computer architecture and circuit level that will help in achieving the goal of reducing the computational cost of deep learning algorithms The impact of these techniques is

displayed in four silicon prototypes for embedded deep learning Gives a wide overview of a series of effective solutions for energy efficient neural networks on battery constrained wearable devices Discusses the optimization of neural networks for embedded deployment on all levels of the design hierarchy applications algorithms hardware architectures and circuits supported by real silicon prototypes Elaborates on how to design efficient Convolutional Neural Network processors exploiting parallelism and data reuse sparse operations and low precision computations Supports the introduced theory and design concepts by four real silicon prototypes The physical realization s implementation and achieved performances are discussed elaborately to illustrated and highlight the introduced cross layer design concepts   *Rising Stars: Africa* Tebello Nyokong,Aziz Amine,Emmanuel Oluwadare Balogun,Shivani Mishra,Eno E. Ebenso,2022-02-14   **Applications of Quantum Mechanical Techniques to Areas Outside of Quantum Mechanics. 2nd Edition** Emmanuel Haven,Andrei Khrennikov,2019-11-14 This book deals with applications of quantum mechanical techniques to areas outside of quantum mechanics so called quantum like modeling Research in this area has grown over the last 15 years But even already more than 50 years ago the interaction between Physics Nobelist Pauli and the psychologist Carl Jung in the 1950 s on seeking to find analogous uses of the complementarity principle from quantum mechanics in psychology needs noting This book does NOT want to advance that society is quantum mechanical The macroscopic world is manifestly not quantum mechanical But this rules not out that one can use concepts and the mathematical apparatus from quantum physics in a macroscopic environment A mainstay ingredient of quantum mechanics is quantum probability and this tool has been proven to be useful in the mathematical modelling of decision making In the most basic experiment of quantum physics the double slit experiment it is known from the works of A Khrennikov that the law of total probability is violated It is now well documented that several decision making paradoxes in psychology and economics such as the Ellsberg paradox do exhibit this violation of the law of total probability When data is collected with experiments which test non rational decision making behaviour one can observe that such data often exhibits a complex non commutative structure which may be even more complex than if one considers the structure allied to the basic two slit experiment The community exploring quantum like models has tried to address how quantum probability can help in better explaining those paradoxes Research has now been published in very high standing journals on resolving some of the paradoxes with the mathematics of quantum physics The aim of this book is to collect the contributions of world s leading experts in quantum like modeling in decision making psychology cognition economics and finance   Proceedings of International Conference on Frontiers in Computing and Systems Ram Sarkar,Sujata Pal,Subhadip Basu,Dariusz Plewczynski,Debotosh Bhattacharjee,2023-07-31 This book gathers high quality research papers presented at the 3rd International Conference on Frontiers in Computing and Systems COMSYS 2022 held at Indian Institute of Technology Ropar Punjab India during December 19 21 2022 The book covers research in cyber physical systems for real life applications pertaining to AI machine learning and data science devices circuits and systems

computational biology biomedical informatics and network medicine communication networks cloud computing and IoT image video and signal processing and security and privacy *Biological Chirality* Gyula Palyi,2019-11-06 Biological Chirality describes this occurrence its history and early research around the topic The work covers analytical methods for observing the phenomenon providing current techniques and practice and discussing the asymmetric morphology of certain living organisms such as the position of the heart and liver in humans and the exceptions to biological homochirality seen in D Amino Acids In addition it explores the requirement of enantioselectivity prepared pharmaceuticals to address enantioselectivities biomolecules a major challenge in today s organic chemistry Finally the work considers the possible origin of biological homochirality as well as the outlook for future research in this area Describes the history of biological chirality research its possible origins and future exploration areas Discusses asymmetric exceptions in morphology and D Amino Acids Explores the critical implications of enantioselective biomolecules for preparative organic chemistry with a goal of developing effective pharmaceuticals **An African Criminal Court** Dominique Mystris,2020-11-30 In An African Criminal Court Dominique Mystris explores the potential contribution of a regional criminal court to international criminal law and justice across the continent As set out in the Malabo Protocol the court s approach to international core crimes builds on from the current international system Yet the additional crimes and region centric approach reflect the continental concerns To fully realise the court s contribution the African Union s institutional objectives and approach to justice peace and security the author argues for the inclusion of the court within the African Peace and Security Architecture By adopting such a holistic understanding of the Malabo Protocol court within the AU structure a more accurate depiction of the potential of an African criminal court emerges **Mobile Internet Security** Ilsun You,Fang-Yie Leu,Hsing-Chung Chen,Igor Kotenko,2018-01-15 This book constitutes the refereed proceedings of the First International Symposium on Mobile Internet Security MobiSec 2016 held in Taichung Taiwan in July 2016 The 15 revised full papers presented were carefully reviewed and selected from 44 submissions They are closely related to various theories and practical applications in mobility management to highlight the state of the art research *Handbook of Natural Polymers, Volume 1* M.S. Sreekala,Lakshmipriya Ravindran,Koichi Goda,Sabu Thomas,2023-05-31 The Handbook of Natural Polymers Sources Synthesis and Characterization is a comprehensive resource covering extraction and processing methods for polymers from natural sources with an emphasis on the latest advances The book begins by introducing the current state of the art challenges and opportunities in natural polymers This is followed by detailed coverage of extraction synthesis and characterization methods organized by polymer type Along with broad chapters discussing approaches to polysaccharide based polymers dedicated chapters offer in depth information on nanocellulose chitin and chitosan gluten alginate natural rubber gelatin pectin lignin keratin gutta percha shellac silk wood casein albumin collagen hemicellulose polyhydroxyalkanoates zein soya protein and gum The final chapters explore other key themes including filler interactions

and properties in natural polymer based composites biocompatibility and cytotoxicity biodegradability life cycle and recycling Throughout the book information is supported by data and guidance is offered regarding potential scale up and industry factors As part of a 3 volume handbook offering comprehensive coverage of natural polymers this book will be of interest to all those looking to gain a broad knowledge of natural polymers including academic researchers scientists advanced students engineers and R D professionals from a range of disciplines and industries Provides systematic coverage of the latest methods for the extraction synthesis and characterization of natural polymers Includes an extensive range of natural polymer sources including established biopolymers and emerging materials Explores preparation of natural polymers and their composites blends IPNs gels and nanoparticles *Handbook of Biomolecules* Chandrabhan Verma,Dakeshwar Kumar Verma,2023-05-23 Handbook of Biomolecules Fundamentals Properties and Applications is a comprehensive resource covering new developments in biomolecules and biomaterials and their industrial applications in the fields of bioengineering biomedical engineering biotechnology biochemistry and their detection methods using biosensors This book covers the fundamentals of biomolecules their roll in living organism structure sources important characteristics and the industrial applications of these biomaterials Sections explore amino acids carbohydrates nucleic acids proteins lipids metabolites and natural products then go on to discuss purification techniques and detection methods Applications in biomolecular engineering biochemistry and biomedical engineering among others are discussed before concluding with coverage of biomolecules as anticorrosion materials Provides the chronological advancement of biomolecules their biochemical reaction and many modern industrial applications in engineering and science Serves as a valuable source for researchers interested in the fundamentals basics and modern applications of biomolecules Covers both synthetic and natural biomolecule synthesis and purification processes and their modern applications Bridges the gap between the fundamental science of biomolecular chemistry and the relevant technology and industrial applications New Technologies, Development and Application III Isak Karabegović,2020-05-04 This proceedings book features papers presented at the International Conference on New

Technologies Development and Application held at the Academy of Sciences and Arts of Bosnia and Herzegovina in Sarajevo on 25th 27th June 2020 It covers a wide range of future technologies and technical disciplines including complex systems such as Industry 4 0 patents in Industry 4 0 robotics mechatronics systems automation manufacturing cyber physical and autonomous systems sensors networks control energy and renewable energy sources automotive and biological systems vehicular networking and connected vehicles effectiveness and logistics systems smart grids nonlinear systems power social and economic systems education and IoT The book focuses on the Fourth Industrial Revolution Industry 4 0 in which implementation will improve many aspects of human life in all segments and lead to changes in business paradigms and production models Further new business methods are emerging transforming production systems transport delivery and consumption which need to be monitored and implemented by every company involved in the global market   Feminist Cyberlaw Meg Leta Jones,Amanda Levendowski,2024-06-11 A free ebook version of this title is available through Luminos University of California Press s Open Access publishing program Visit www luminosoa org to learn more This vibrant and visionary reimagining of the field of cyberlaw through a feminist lens brings together emerging and established scholars and practitioners to explore how gender race sexuality disability class and the intersections of these identities affect cyberspace and the laws that govern it It promises to build a movement of scholars whose work charts a near future where cyberlaw is informed by feminism   Textile Wastewater Treatment Subramanian Senthilkannan Muthu,Ali Khadir,2022-08-13 In this first volume various materials such as chitosan lignin based biomaterials cellulosic based bio materials carbon materials Polysaccharide composites materials Aromatic Based Synthetic Macromolecules Agricultural wastes etc for treating textile waste water are highlighted One of the major pollutants in the textile and fashion industry is textile waste water Textile wastewater can lead to serious environmental issues if discharged without proper and sufficient treatment The materials employed along with the technologies available to trate waste water are the key There are a lot of advancements in terms materials technologies employed for textile waste water treatment Sustainable bio nano materials and macro molecules play a major role in the efficient treatment of textile waster   **Advances in Clinical Chemistry** Gregory S. Makowski,2022-03-23 Advances in Clinical Chemistry Volume 107 the latest installment in this internationally acclaimed series contains chapters authored by world renowned clinical laboratory scientists physicians and research scientists The serial discusses the latest and most up to date technologies related to the field of clinical chemistry with this new release focusing on Advances in Quantum Dots as Diagnostic Tools Host polymorphisms and COVID 19 infection Biomarkers in Muscle Invasive Bladder Cancer and more Provides the most up to date technologies in clinical chemistry and clinical laboratory science Authored by world renowned clinical laboratory scientists physicians and research scientists Presents the international benchmark for novel analytical approaches in the clinical laboratory   **Quality and Safety in Imaging** Lluís Donoso-Bach,Giles W. L. Boland,2018-09-18 This book provides a roadmap for optimizing quality and safety within radiology

practices whether academic or private and irrespective of their national setting All aspects of the radiology workflow are addressed from imaging appropriateness examination scheduling and patient preparation through to imaging protocol optimization including radiation dose management modality operations reporting including structured reporting and report communication The book highlights innovative IT tools including clinical decision support that drive compliance with national best practice standards and guidelines The use of big data tools to manage and enhance clinical delivery is addressed Finally metrics designed to measure the value that radiology brings to patient care and patient outcomes are introduced Readers wishing to deepen their understanding of contemporary best practices regarding quality and safety will find this book to be a rich source of practical information   *Information Science and Applications 2018* Kuinam J. Kim,Nakhoon Baek,2018-07-23 This book contains selected papers from the 9th International Conference on Information Science and Applications ICISA 2018 and provides a snapshot of the latest issues encountered in technical convergence and convergences of security technology It explores how information science is core to most current research industrial and commercial activities and consists of contributions covering topics including Ubiquitous Computing Networks and Information Systems Multimedia and Visualization Middleware and Operating Systems Security and Privacy Data Mining and Artificial Intelligence Software Engineering and Web Technology The proceedings introduce the most recent information technology and ideas applications and problems related to technology convergence illustrated through case studies and reviews converging existing security techniques Through this volume readers will gain an understanding of the current state of the art information strategies and technologies of convergence security The intended readership includes researchers in academia industry and other research institutes focusing on information science and technology   **ECCWS 2018 17th European Conference on Cyber Warfare and Security V2** Audun Jøsang,2018-06-21

Decoding **When Do Uj Applications Open For 2016**: Revealing the Captivating Potential of Verbal Expression

In a time characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its power to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**When Do Uj Applications Open For 2016**," a mesmerizing literary creation penned by a celebrated wordsmith, readers set about an enlightening odyssey, unraveling the intricate significance of language and its enduring affect our lives. In this appraisal, we shall explore the book is central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.
