Elements of Intellectual Philosophy Hubbard Winslow,1859

Fashion | Sense Gwenda-lin Grewal,2022-05-19 Deeply erudite but also playful and full of wit Salman Rushdie Fashion Sense is designed to explode fashion and with it the stigma in philosophy against fashion s superficiality Fashion appears to be altogether differently occupied disingenuous and insubstantial even sophistic in its pretense to peddle surfaces as if they were something deep But is fashion s apparent beguilement more philosophical than it seems And is philosophy s longing for exposed depth concealing fashion in its anti fashion stance Using primarily ancient Greek texts peppered with allusions to their echoes across the history of philosophy and contemporary fashion and pop culture Gwenda lin Grewal not only examines the rift between fashion and philosophy but also challenges the claim that fashion is modern Indeed fashion s quarrel with philosophy may be at least as ancient as that infamous quarrel between philosophy and poetry alluded to in Plato s Republic And the quest for fashion s origins as if a quest for a neutrally outfitted self stripped of the self awareness that comes with thinking prompts questions about human agency and our immersion in time The touch of reality s fabric bristles in our relationship to our looks not simply through the structure of clothes but in the plot of our wearing them Meanwhile the fashion of our words sharpens our meaning like a cutting silhouette Grewal s own writing is playfully and daringly self conscious aware of its style and the entrapment it arouses from the very first line The reactions provoked by fashion s flair not only among the philosophical set but also among those who would never deck themselves out in the title philosopher show it forth as perhaps philosophy s most important and underestimated doppelgänger

Surface Giuliana Bruno,2014-06-09 What is the place of materiality the expression or condition of physical substance in our visual age of rapidly changing materials and media How is it fashioned in the arts or manifested in virtual forms In Surface cultural critic and theorist Giuliana Bruno deftly explores these questions seeking to understand materiality in the contemporary world Arguing that materiality is not a question of the materials themselves but

rather the substance of material relations Bruno investigates the space of those relations examining how they appear on the surface of different media on film and video screens in gallery installations or on the skins of buildings and people The object of visual studies she contends goes well beyond the image and engages the surface as a place of contact between people and art objects As Bruno threads through these surface encounters she unveils the fabrics of the visual the textural qualities of works of art whether manifested on canvas wall or screen Illuminating the modern surface condition she notes how fa ades are becoming virtual screens and the art of projection is reinvented on gallery walls She traverses the light spaces of artists Robert Irwin James Turrell Tacita Dean and Anthony McCall touches on the textured surfaces of Isaac Julien s and Wong Kar wai s filmic screens and travels across the surface materiality in the architectural practices of Diller Scofidio Renfro and Herzog de Meuron to the art of Doris Salcedo and Rachel Whiteread where the surface tension of media becomes concrete In performing these critical operations on the surface she articulates it as a site in which different forms of mediation memory and transformation can take place Surveying object relations across art architecture fashion design film and new media Surface is a magisterial account of contemporary visual culture
