**How to Hit the Ground Running** Neal O. Michell,2024-09-03 The definitive guide to changes in congregational leadership

revised to reflect the needs of today's church. Designed for the clergy and lay leadership of congregations in the midst of transitions, this volume offers a quick start guide to help clergy and lay leadership with topics from defining mission to developing effective decision making processes. *How to Hit the Ground Running* contains a program for an effective leadership change that begins one month before a transition and continues for the first eighteen months of a new pastor, priest, or rector's tenure. With this revision, author Neal Michell has updated the text throughout to reflect current concerns of church leaders, including more coverage of leadership in small congregations and approaches to empowering lay leaders. Designed in a user-friendly format, the volume includes step-by-step guidance and exercises to ensure that rather than being stalled and directionless, a period of transition is dynamic and purposeful.

**The Life of Stuart O. Van Slyke** Stuart O. Van Slyke, 2006. The prospect of having to care for an ill loved one takes most of us by surprise. Once a diagnosis or treatment schedule has been determined, a caregiver must learn how to multi-task in very creative ways. Usually, this is learned by trial and error. *Until Now I Need to Scream: Would Anyone Even Hear Me* is a handbook for the caregiver. Once a loved one needs a health advocate, a caregiver is born and then quickly baptized by fire. This book will help douse that inferno. It includes chapters on how to select a hospital and doctor, along with sections on medications, family matters, and most importantly, how to take care of his or her self in the process. This is not a scientific project; it is a personal account written by a caregiver. It contains suggestions on how to make the transition from normal life to a new life as painless as possible. *I Need to Scream: Would Anyone Even Hear Me* attempts to remove the guilt and negativity that can become part of a caregiver's life. It also includes blank pages at the end of each chapter so that the caregiver is able to jot down notes, questions, or reflections. This is a book that is long overdue. Caregivers are part of a strong and silent group. They need a voice. Few people realize the traumatic role of the caregiver unless one has had experience like the author of this book. We do not know when a serious illness or accident will befall a loved one. It is for that reason that this book should be in every library, home, and hospital. *I Need to Scream: Would Anyone Even Hear Me* is unlike most publications that include this subject. This book is primarily for caregivers and the people who love them.

**Iowa Farm Boy** Edward C. Kramer, 2009-06-05. Ed Kramer was born and raised on an Iowa farm during the last half of the 1930s. He was the youngest of four brothers, so they had a profound effect in so many ways on his early life. He attended a rural one-room country school for the first eight years of his life. He describes in detail what a typical country school looked like and how it functioned. Many younger people today have no idea what it was like to have only one teacher for their first eight grades. The idea of having all eight grades in a one-room schoolhouse boggles their minds even further. Ed thoroughly enjoyed his farm experiences. He grew up in a difficult era of our country. He points out that the concept of the good ole days was not all true. Hardships and dangers abounded around every corner. Farming was a dangerous business. However, along with the dangers and hardships, there were so many fun and exciting times. Ed vividly describes threshing time on the farm. Many of the older generations will be able to relate to Ed's stories. Ed

loved the outdoors and nature He learned to adapt to and live with the outdoors and nature Ed understood the need for mankind to appreciate the importance of both in our lives and the impact they leave on all of us This was very evident in his outdoor hobbies and experiences What was it like to transition from country school to high school going from a small school to a large school and from a class size of four to one with thirty two What impact did sports have on Ed s life So many teachers What an adjustment that he had to make So many important decisions had to be made and so little time Life seemed to be moving fast now Ed wanted to let his readers know what went through his mind as he tried to cope with the many options available in steering the future course for him Should he listen to his brother s advice Should he follow in his brother s footsteps What process did he use to arrive at a decision College was another phase of Ed s life He had to decide what would be his major What did he really want to do later in life Again so many more teachers subjects and larger class size It seemed like each phase of his life was on such a higher level How did he feel having a brother as his professor Did that help or hurt their relationship He understands that each person has a different vision of what college would be like He tries to point out some mistakes he made in college so that others may avoid them Ed was fortunate to have had summer employment that paid his way through many of his college years He understood that the cost of attending college was much less during his era However for his family the cost was high His summer employment happened to be in the forest service That gave him the opportunity to extend his horizons It meant going out on his own to execute or perform what he had learned in his earlier years Now he could put his good Iowa work ethic to good use He learned that hard work patience and perseverance paid off He accepted new responsibilities and assumed a leadership role that he never experienced before Decisions are a part of everyday life One of Ed s most important decisions was to enter the military service He tries to point out to his readers what a man or woman has to go through in the military There will be good and bad days as there are in any part of life He mentioned before that each phase of his life meant reaching out further to a higher level Each phase prepared him for the next level Each phase was a steppingstone to greater things to come Ed wants his readers to understand that even though growing up today is a lot different than when he grew up there still are many similarities Developing a good work ethic is still paramount today Religious faith was important to      Finding the Lost Year Sondra Gordy,2009-02 Much has been written about the Little Rock School Crisis of 1957 but very little has been devoted to the following year the Lost Year 1958-59 when Little Rock schools were closed to all students both black and white Finding the Lost Year is the first book to look at the unresolved elements of the school desegregation crisis and how it turned into a community crisis when policymakers thwarted desegregation and challenged the creation of a racially integrated community and when competing groups staked out agendas that set Arkansas s capital on a path that has played out for the past fifty years In Little Rock in 1958 3 665 students were locked out of a free public education Teachers lives were disrupted but students lives were even more confused Some were able to attend schools outside the city some left the state some joined the military some took

correspondence courses but fully 50 percent of the black students went without any schooling Drawing on personal interviews with over sixty former teachers and students black and white Gordy details the long term consequences for students affected by events and circumstances over which they had little control

**Lost Revolutions** Pete Daniel,2000-11-15 This sweeping work of cultural history explores a time of startling turbulence and change in the South years that have often been dismissed as placid and dull In the wake of World War II southerners anticipated a peaceful and prosperous future but as Pete Daniel demonstrates the road into the 1950s took some unexpected turns Daniel chronicles the myriad forces that turned the world southerners had known upside down in the postwar period In chapters that explore such subjects as the civil rights movement segregation and school integration the breakdown of traditional agriculture and the ensuing rural urban migration gay and lesbian life and the emergence of rock n roll music and stock car racing as well as the triumph of working class culture he reveals that the 1950s South was a place with the potential for revolutionary change In

the end however the chance for significant transformation was squandered Daniel argues One can only imagine how different southern history might have been if politicians the press the clergy and local leaders had supported democratic reforms that bestowed full citizenship on African Americans and how little would have been accomplished if a handful of blacks and whites had not taken risks to bring about the changes that did come
