Not Quite a Clean Sweep: Rhetorical Strategies in Grose's "Cleaning: The Final Feminist Frontier"

A woman's work is never done: many American women grow up with this saying and feel it to be true. One such woman, author Jessica Grose, wrote "Cleaning: The Final Feminist Frontier," published in 2013 in the *New Republic*, and she argues that while the men in our lives recently started taking on more of the childcare and cooking, cleaning still falls unfairly on women. Grose begins building her credibility with personal facts and reputable sources, citing convincing facts and statistics, and successfully employing emotional appeals; however, toward the end of the article, her attempts to appeal to readers' emotions weaken her credibility and ultimately, her argument.

In her article, Grose first sets the stage by describing a specific scenario of house-cleaning with her husband after being shut in during Hurricane Sandy, and then she outlines the uneven distribution of cleaning work in her marriage and draws a comparison to the larger feminist issue of who does the cleaning in a relationship. Grose continues by discussing some of the reasons that men do not contribute to cleaning: the praise for a clean house goes to the woman; advertising and media praise men's cooking and childcare, but not cleaning; and lastly, it is just not fun. Possible solutions to the problem, Grose suggests, include making a chart of who does which chores, dividing up tasks based on skill and ability, accepting a dirtier home, and making cleaning more fun with gadgets.

Throughout her piece, Grose uses many strong sources that strengthen her credibility and appeal to ethos, as well as build her argument. These sources include, "sociologists Judith Treas and Tsui-o Tai," "a 2008 study from the University of New Hampshire," and "P&G North America Fabric Care Brand Manager, Matthew Krehbiel" (qtd. in Grose). Citing these sources boosts Grose's credibility by showing that she has

The Religious Rhetoric of U.S. Presidential Candidates

Arnaud Vincent, 2019-08-21 Drawing on corpus linguistic methods of analysis this book critically examines the rhetorical God gap in American political discourse between the Democratic and Republican parties The volume investigates the claims which have often not been substantiated by quantitative data in the literature and have tended to focus on particular genres of political discourse that there is a correlation between a higher degree of religiosity in Republican political discourse and voting preferences for the party and that Democratic politicians should engage in similar discourse toward closing the gap The book adopts a keyword approach using such techniques as collocation analyses concordance reading and Bible specific N gram identification toward the study of a corpus of general campaign speeches over a 50 year period and links findings from this data with social and cultural contextual factors to provide a more informed understanding of rhetorical patterns in religiously laden political language The volume showcases the value of corpus linguistic methods in interrogating claims around political language and their broader applicability in linguistic research making this key reading for students and scholars in corpus linguistics critical discourse analysis American politics and religious studies

Classical Rhetoric in the Middle Ages John O. Ward, 2018-12-24 Classical Rhetoric in the Middle Ages The Medieval Rhetors and Their Art 400 1300 with Manuscript Survey to 1500 CE is a completely updated version of John Ward's much used doctoral thesis of 1972 and is the definitive treatment of this fundamental aspect of medieval and rhetorical culture It is commonly believed that medieval writers were interested only in Christian truth not in Graeco Roman methods of persuasion to whatever viewpoint the speaker writer wanted Dr Ward however investigates the content of well over one thousand medieval manuscripts and shows that medieval writers were fully conscious of and much dependent upon Graeco Roman rhetorical methods of persuasion The volume then demonstrates why and to what purpose this use of classical rhetoric took place

Mishnah and the Social Formation of the Early Rabbinic Guild Jack N. Lightstone,2006-01-01 Where do the origins of the rabbinic movement lie and how might evidence from the early rabbinic literature be made to reveal those origins In order to shed light on the early social formation of the rabbinic guild of masters Lightstone brings the theoretical and methodological insights of socio rhetorical analysis to examine Mishnah the first document authored by the early rabbinic movement and its principal object of study for several centuries He argues that the enshrinement of Mishnah served to model via its pervasive rhetoric the principal authoritative guild expertise that qualified and marked one as a member of the rabbinic guild Furthermore he establishes the social and historical venue in late second and early third century Galilee The author concludes that the social formation of the early rabbinic guild coalesced around the institution of the Jewish Patriarchy for which the early rabbis served as bureaucratic scribal retainers He further suggests that the development of both the Patriarchy in the Land of Israel and the social formation of the rabbinic guild may have been spurred by the imposition of Roman style urbanization in the region over the course of the latter half of the second and beginning of the third century Lightstone s approach is informed by the insights and methods of several cognate disciplines encompassing literary analysis sociology and anthropology and history including in the last chapter the

history of material culture The book will be of interest to advanced students in the history of Judaism rabbinic literature biblical studies early Christianity and the history of religion and culture in the late Roman Near East **Protagoras and Logos** Edward Schiappa, 2013-06-14 Reassesses the philosophical and pedagogical contributions of Protagoras Protagoras and Logos brings together in a meaningful synthesis the contributions and rhetoric of the first and most famous of the Older Sophists Protagoras of Abdera Most accounts of Protagoras rely on the somewhat hostile reports of Plato and Aristotle By focusing on Protagoras's own surviving words this study corrects many long standing misinterpretations and presents significant facts Protagoras was a first rate philosophical thinker who positively influenced the theories of Plato and Aristotle and Protagoras pioneered the study of language and was the first theorist of rhetoric In addition to illustrating valuable methods of translating and reading fifth century B C E Greek passages the book marshals evidence for the important philological conclusion that the Greek word translated as rhetoric was a coinage by Plato in the early fourth century In this second edition Edward Schiappa reassesses the philosophical and pedagogical contributions of Protagoras Schiappa argues that traditional accounts of Protagoras are hampered by mistaken assumptions about the Sophists and the teaching of the art of rhetoric in the fifth century He shows that contrary to tradition the so called Older Sophists investigated and taught the skills of logos which is closer to modern conceptions of critical reasoning than of persuasive oratory Schiappa also offers interpretations for each of Protagoras's major surviving fragments and examines Protagoras's contributions to the theory and practice of Greek education politics and philosophy In a new afterword Schiappa addresses historiographical issues that have occupied scholars in rhetorical studies over the past ten years and throughout the study he provides references to scholarship from the last decade that has refined his views on Protagoras and other Sophists *The House of My Sojourn* Jane S. Sutton, 2010-11-30 Envisions the relationship between women and rhetoric as a house a structure erected in ancient Greece by men that historically has made room for women but has also denied them the authority and agency to speak from within *Vision, Rhetoric, and Social Action in the Composition Classroom* Kristie S. Fleckenstein, 2009-11-16 In this innovative volume Kristie S. Fleckenstein explores how the intersection of vision rhetoric and writing pedagogy in the classroom can help students become compassionate citizens who participate in the world as they become more critically aware of the world Fleckenstein argues that all social action behavior designed to increase human dignity value and quality of life depends on a person's repertoire of visual and rhetorical habits To develop this repertoire in students the author advocates the incorporation of visual habits or ways of seeing into a language based pedagogical approach in the writing classroom According to Fleckenstein interweaving the visual and rhetorical in composition pedagogy enables students to more readily perceive the need for change while arming them with the abilities and desire to enact it The author addresses social action from the perspective of three visual habits spectacle which fosters disengagement animation or fusing body with meaning and antinomy which invites the invention of new realities Fleckenstein then examines the ways in which particular

visual habits interact with rhetorical habits and with classroom methods resulting in the emergence of various forms of social action To enhance the understanding of the concepts she discusses the author represents the intertwining relationships of vision rhetoric and writing pedagogy graphically as what she calls symbiotic knots In tracing the modes of social action privileged by a visual habit and a teacher's pedagogical choices Fleckenstein attends particularly to the experiences of students who have been traditionally barred from participation in the public sphere because of gender race or class The book culminates in a call for visually and rhetorically robust writing pedagogies In *Vision Rhetoric and Social Action in the Composition Classroom* Fleckenstein combines classic methods of rhetorical teaching with fresh perspectives to provide a unique guide for initiating important improvements in teaching social action The result is a remarkable volume that empowers teachers to best inspire students to take part in their world at that most crucial moment when they are discovering it

Non-Native Language Teachers Enric Llurda, 2006-06-09 As non natives are increasingly found teaching languages particularly English both in ESL and EFL contexts the identification of their specific contributions and their main strengths has become more relevant than ever This volume provides different approaches to the study of non native teachers NNS teachers as seen by students teachers graduate supervisors and by themselves It contributes seldom explored perspectives like classroom discourse analysis and social psychological framework to discuss conceptions of NNS teachers

Regulating the Web Zachary Stiegler, 2013 Since its popularization in the mid 1990s the Internet has impacted nearly every aspect of our cultural and personal lives Over the course of two decades the Internet remained an unregulated medium whose characteristic openness allowed numerous applications services and websites to flourish By 2005 Internet Service Providers began to explore alternative methods of network management that would permit them to discriminate the quality and speed of access to online content as they saw fit In response the Federal Communications Commission sought to enshrine net neutrality in regulatory policy as a means of preserving the Internet's open nondiscriminatory characteristics Although the FCC established a net neutrality policy in 2010 debate continues as to who ultimately should have authority to shape and maintain the Internet's structure *Regulating the Web* brings together a diverse collection of scholars who examine the net neutrality policy and surrounding debates from a variety of perspectives In doing so the book contributes to the
