Getting Skills Right: South Africa OECD, 2017-07-10 This report identifies effective strategies to tackle skills imbalances in South Africa Going to University. The Influence of Higher Education on the Lives of Young South Africans Jennifer Case, Delia Marshall, 2018-02-09 Around the world more young people than ever before are attending university Student numbers in South Africa have doubled since democracy and for many families higher education is a route to a better future for their children But alongside the overwhelming demand for higher education questions about its purposes have intensified Deliberations about the curriculum culture and costing of public higher education abound from student activists academics parents civil society and policy makers We know from macro research that South African graduates generally have good employment prospects But little is known at a detailed level about how young people actually make use of their university experiences to craft their life courses And even less is known about what happens to those who drop out This accessible book brings together the rich life stories of 73 young people six years after they began their university studies It traces how going to university influences not only their employment options but also nurtures the agency needed to chart their own way and to engage critically with the world around them The book offers deep insights into the ways in which public higher education is both a private and public good and it provides significant conclusions pertinent to anyone who works in and cares about universities **South African Schooling: The Enigma of Inequality** Nic Spaull, Jonathan D. Jansen, 2019-11-05 This volume brings together many of South Africa's leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90/10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of

inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people s future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI

Contextualising Rural Education in South African Schools, 2023-04-03 South Africa's democratic government inherited a divided and unequal system of education. Under apartheid, South Africa had nineteen different educational departments separated by race, language, geography, and ideology. This education system prepared learners in different ways for the positions they were expected to occupy in social, economic, and political life under apartheid and was funded and resourced in ways that favoured white people and disadvantaged black people who remain in the working class. The newly elected democratic government in 1994 laid a foundation for a single national education system. Twenty-five years after the dawn of democracy, education is still in a parlous state in many communities in South Africa, but it is in the rural areas, mainly in the former homelands, that learners are most disadvantaged. Contributors are Olufemi Timothy Adigun, Oluwatoyin Ayodele Ajani, Alan Bhekisisa Buthelezi, Joyce Phikisile Dhlamini, Bongani Thulani Gamede, Samantha Govender, Lawrence Kehinde Nontobeko, Prudence Khumalo, Primrose Ntombenhle Khumalo, Azwidohwi Philip Kutame, Manthekeleng Linake, Sive Makeleni Nkhensani Maluleke, Bothwell Manyonga, Mncedisi Christian Maphalala, Takalani Mashau, Hlengiwe Romualda Mhlongo, Rachel Gugu Mkhasibe, Dumisani Wilfred Mncube, Nicholus Tumelo Mollo, Ramashego Shila Mphahlele, Fikile Mthethwa, Grace Matodzi, Muremela Edmore Mutekwe, Nokuthula Hierson Ndaba, Clever Ndebele, Thandiwe Nonkululeko Ngema, Phiwokuhle Ngubane, Sindile Ngubane, Dumisani Nzima, Livhuwani Peter Ramabulana, and Maria Tsakeni. **After Dawn** Mcebisi Jonas, 2019-08-01. In October 2015, the Gupta brothers offered Mcebisi Jonas the position of minister of finance in exchange for R600 million. Then deputy minister of finance, Jonas turned down the bribe and a period of deep introspection followed for him. How did we reach this point, and what did the future hold for South Africa's democracy and the economy? In *After Dawn*, Mcebisi Jonas analyses the crisis at the heart of our current system, which places politics at the centre of policymaking and implementation at the expense of growth. In this important and authoritative book, Jonas first unpacks and analyses the current badlands of the South African economic and political landscape. In the second half, Jonas proposes a series of workable and practical solutions for transitioning South Africa into a growing job-creating country, including putting inclusive growth at the centre of economic policy, rapidly expanding new technological capacities and knowledge to transition to a twenty-first century economy, expanding human capabilities at scale, path-changing trade-offs to catalyse the next phase of South Africa's development, nurturing a corruption-free, high-performance state built on meritocracy and innovation, and changing the nature of politics. Time is of the essence, and the window of opportunity is narrowing for all South Africans to work together towards the South Africa we all imagined was possible in 1994.
