## **What Real Women Don T Say And Should Saving Face:**

**Saving Face** Stephen Pattison, 2016-04-01 Faces are all around us and fundamentally shape both everyday experience and our understanding of people To lose face is to be alienated and experience shame to be enfaced is to enjoy the fullness of life In theology as in many other disciplines faces as both physical phenomena and symbols have not received the critical appreciative attention they deserve This pioneering book explores the nature of face and enfacement both human and divine Pattison discusses questions concerning what face is how important face is in human life and relationships and how we might understand face both as a physical phenomenon and as a series of socially inflected symbols and metaphors about the self and the body Examining what face means in terms of inclusion and exclusion in contemporary human society and how it is related to shame Pattison reveals what the experience of people who have difficulties with faces tell us about our society our understandings of and our reactions to face Exploring this ubiquitous yet ignored area of both contemporary human experience and of the Christian theological tradition Pattison explains how Christian theology understands face both human and divine and the insights might it offer to understanding face and enfacement Does God in any sense have a physically visible face What is the significance of having an enfaced or faceless God for Christian life and practice What does the vision of God mean now If we want to take face and defacing shame seriously and to get them properly into perspective we may need to change our theology thought and practice changing our ways of thinking about God and about theology What Will It Take to Make A Woman President? **Hired Daughters** Mary Montgomery,2019-02-19 Hired Daughters examines a fading tradition of domestic service in which rural girls familiar to ordinary Moroccan families were placed in their homes until marriage In this tradition of bringing up the girls are considered daughters of the house and part of their role in the family is to help with the housework Gradually this tradition is transforming into one in which workers unfamiliar to their host families are paid a wage and may not stay long but where the Islamic ethics of charity religious reward and gratitude still inform expectations on both sides Mary Montgomery examines why Moroccans so often talk about their domestic workers as daughters what this means for workers and employers and how this is changing in contemporary Morocco Prioritizing the experiences and perspectives of these women Montgomery charts the tension that has developed between socially embedded loyal domestic workers who operate within narratives of kinship and obligation and women who seek greater individualization privacy and self empowerment Hired Daughters offers a nuanced understanding of a world that bridges public and private morality and money family and outsiders In doing so it provides an intimate consideration of contemporary Moroccan households as
