

# Writing the Persuasive Essay

## What is a persuasive/argument essay?

In persuasive writing, a writer takes a position FOR or AGAINST an issue and writes to convince the reader to believe or do something.

Persuasive writing, also known as the argument essay, utilizes logic and reason to show that one idea is more legitimate than another idea. It attempts to persuade a reader to adopt a certain point of view or to take a particular action. The argument must always use sound reasoning and solid evidence by stating facts, giving logical reasons, using examples, and quoting experts.

## When planning a persuasive essay, follow these steps

1. Choose your position. Which side of the issue or problem are you going to write about, and what solution will you offer? Know the purpose of your essay.
2. Analyze your audience. Decide if your audience agrees with you, is neutral, or disagrees with your position.
3. Research your topic. A persuasive essay must provide specific and convincing evidence. Often it is necessary to go beyond your own knowledge and experience. You might need to go to the library or interview people who are experts on your topic.
4. Structure your essay. Figure out what evidence you will include and in what order you will present the evidence. Remember to consider your purpose, your audience, and your topic.

## The following criteria are essential to produce an effective argument

- Be well informed about your topic. To add to your knowledge of a topic, read thoroughly about it, using legitimate sources. Take notes.
- Test your thesis. Your thesis, i.e., argument, must have two sides. It must be debatable. If you can write down a thesis statement directly opposing your own, you will ensure that your own argument is debatable.
- Disprove the opposing argument. Understand the opposite viewpoint of your position and then counter it by providing contrasting evidence or by finding mistakes and inconsistencies in the logic of the opposing argument.
- Support your position with evidence. Remember that your evidence must appeal to reason.
