What Happens Overseas Stays Overseas:

End of an Era Carl Minzner, 2018 China's reform era is ending. Core factors that characterized its political stability, ideological openness, and rapid economic growth are unraveling. Since the 1990s, Beijing's leaders have firmly rejected any fundamental reform of their authoritarian one-party political system, and on the surface, their efforts have been a success. But as Carl Minzner shows, a closer look at China's reform era reveals a different truth. Over the past three decades, a frozen political system has fueled both the rise of entrenched interests within the Communist Party itself and the systematic underdevelopment of institutions of governance among state and society at large. Economic cleavages have widened. Social unrest has worsened. Ideological polarization has deepened. Now, to address these looming problems, China's leaders are progressively cannibalizing institutional norms and practices that have formed the bedrock of the regime's stability in the reform era. *End of an Era* explains how China arrived at this dangerous turning point and outlines the potential outcomes that could result.

Institutional Violence Deane Curtin, Robert Litke, 2022-05-20 Violence can be physical and psychological. It can characterize personal actions, forms of group activity, and abiding social and political policy. This book includes all of these aspects within its focus on institutional forms of violence. Institution is also a broad category ranging from formal arrangements such as the military, the criminal code, the death penalty, and prison system to more amorphous but systemic situations indicated by parenting, poverty, sexism, work, and racism. Violence is as complex as the human beings who resort to it; its institutional forms pervade our relational lives. We are all participants in it as victims and perpetrators. The chapters in this book were written in the hope that violence can be explicated, even if not fully understood, and that such clarification can help us in devising less violent forms of living, even if it does not lead to its total abolition. The studies bring new aspects of violence to light and offer a number of suggestions for its remedy.

Tailhook 91: Events at the 35th Annual Tailhook Symposium United States. Department of Defense. Assistant Inspector General for Investigations, 1992. *The Tailhook Report* Office of the Inspector General, 2003-12-31. In September 1991, over 4,000 U.S. Navy and Marine Corps aviation officers met in Las Vegas for the 35th Annual Tailhook Symposium, a long-standing professional convention of naval aviators. Over the weekend, the parties and drunken behavior raged out of control and resulted in widespread damage to the hotel, 90 identified victims of indecent assault, 140 officers referred for possible court-martial or disciplinary action, and the demotion, transfer, or resignation of several top Navy officials. For the first time, this is the official report of the wildest-ranging scandal in the history of the U.S. Navy, details in depth the abuses that occurred. This report finally reveals the truth behind the rumors, the headlines, and the scandal.

Development Gabriela Tejada,Uttam Bhattacharya,Binod Khadria,Christiane Kuptsch,2014-04-07 This edited contribution
explores strategies and measures for leveraging the potential of skilled diasporas and for advancing knowledge based
evidence on return skilled migration and its impact on development By taking the example of Indian skilled migration this

study identifies ways of involving returned skilled migrants in home country development as well as proposes approaches to engage the diaspora in development As high skill immigration from India to mainland Europe is a rather recent phenomenon the activities of Indian professionals in Europe are under researched The findings have wider application in contributing to the policy dialogue on migration and development specifically to the advantage for developing and emerging economies The book employs an interdisciplinary two fold approach The first part of the research looks at how international exposure affects the current situation of skilled returnees in India The second European part of the research examines migration policies labour market regulations and other institutional settings that enable or hinder skilled Indians links with the country of origin Structural differences between the host countries may facilitate different levels of learning opportunities thus this book identifies good practices to promote the involvement of Indian skilled diaspora in socio economic development In applying the framework of diaspora contributions as well as the return channel to study the impact on India the book draws on qualitative and quantitative research methods consisting of policy analysis in depth interviews with key experts and skilled migrants and on data sets collected specifically for this study

Marriage Migrants of Japanese Women in Australia
Takeshi Hamano, 2019-05-30 This book investigates the experience of Japanese women who have immigrated to Australia through marriage to a local partner Based on long term participant observations gathered with a Japanese ethnic association in Sydney and on in depth interviews with the association s members it examines the ways in which the women remould themselves in Australia by constructing gendered selves that reflect their unique migratory circumstances through cross border marriage In turn the book argues that the women tend to embrace expressions of Japanese femininity that they once viewed negatively and that this is due to their lack of social skills and access to the cultural capital of mainstream Australian society Re molding the self through conventional Japanese notions of gender ironically provides them with a convincing identity that of minority migrant women Nevertheless by analyzing these women s engagement with a Japanese ethnic association in a suburb of Sydney the book also reveals a nuanced sense of ambivalence a tension between the women s Japanese community and their lives in Australia Accordingly the book provides a fresh perspective on interdisciplinary issues of gender and migration in a globalized world and engages with a wide range of academic disciplines including sociology of migration sociology of culture cultural anthropology cultural studies Japanese studies Asian studies gender studies family studies migration studies and qualitative methodologies
