Higher Education in Regional and City Development: The Free State, South Africa 2012 OECD,2012-02-14 This publication explores a range of helpful policy measures and institutional reforms to mobilise higher education for regional development in the Free State of South Africa *South African Poultry Magazine and Small-holder* ,1924 Bee World ,1925 Cultivating Race Julia Tischler,2025-02-17 Simultaneous to the rise of industrial capitalism agriculture still the

mainstay of most human communities around the globe in the late nineteenth and early twentieth centuries underwent dramatic changes. In many countries including most settler economies a large scale input heavy and increasingly mechanized commercial agricultural sector emerged while scores of struggling rural producers were squeezed off the land. The same period saw the rise of a global colour line increasingly rigid social categorizations based foremost on skin colour. By considering agricultural progressivism as both a Pan Africanist and white supremacist movement Julia Tischler here demonstrates how the agrarian question and the colour line intersected. Taking a uniquely transnational and comparative approach the book explores these rural transformations through the lens of agricultural education including agricultural colleges extension services children's clubs and domestic training. In so doing and by taking South Africa in the segregation period as its central case study an extreme example of both rapid agrarian change and state sanctioned racism the book offers important insights into global questions of rural reform and race politics addressing all scholars and students who seek to understand the intricate links between race knowledge and rural reform in the twentieth century.
