Whats So Great About Christianity Dinesh Dsouza:

What's So Great About Christianity Dinesh D'Souza, 2008-11-04 Is Christianity true Can educated thinking people really believe the Bible Or do the athiests have it right Has Christianity been disproved by science and discredited as a guide to morality Best selling author Dinesh D Souza What s So Great About America approaches Christianity with a skeptical eye but treats the skeptics with equal skepticism The result is a book that will challenge the assumptions of doubters and affirm that there really is indeed something great about Christianity **Dinesh D'Souza's What's So Great About America**

Harold Palmer, 2016-04-15 Is America a nation like any other with a past marked by injustice and oppression Or is America a shining city on a hill marked by exceptionalism one where the lamp of liberty and democracy burns brightly Dinesh D Souza has written What s So Great About America to respond to America s critics who deny that there is anything unique about America These critics include multiculturalists who allege historical racism and the oppression of minorities Western leftists who see America as a force of evil Third World intellectuals who deplore the legacy of colonialism and Islamic fundamentalists who view America as culturally decadent and morally corrupt In answering these critics D Souza argues that America is not only good but that it is great indeed it is the embodiment of freedom s ideal D Souza makes a strong case for America arguing that it is a free and prosperous society with unlimited opportunity for those seeking a better life Yet despite his enthusiasm for America his treatment of America s sins is unsatisfactory one sided and does not result in the vindication of America from the claims of her critics In his response to Dinesh D Souza s What s So Great About America Harold Palmer highlights America s three great sins i the oppression of the Native Americans ii slavery and iii historic discrimination of African Americans and other minorities Mr Palmer argues that D Souza fails to adequately respond to the accounts of America s critics with respect to any of these great sins or to the views of cultural conservatives who deplore America as culturally decadent and morally degenerate Finally in this volume Mr Palmer argues that D Souza fundamentally misunderstands the meaning of greatness In his constant repetition of the fact that America permits for economic opportunity D Souza forgets that greatness is not about material prosperity but about virtue temperance and justice Notwithstanding D Souza s incessant focus on wealth greatness can only ever be an attribute of a virtuous and upright society regardless of its material prosperity

What's So Great about God Dinesh D'Souza, 2013-09-13 For a lot of people the biggest question about God is not surprisingly enough whether He exists Instead it is about whether God is truly good Dinesh D Souza in his debates with leading atheists quickly realized that many of those debates revolved around the question of evil in this world how God could create a world that allowed such suffering and evil In What s So Great about God Dinesh D Souza takes these questions head on Does God act like a tyrant Is God really responsible for the evil in this world Why is there suffering in the world For the first time ever Dinesh D Souza approaches this apologetic topic with historical and scientific proof and presents to the reader why God is truly worthy of our worship and love Previously published as

Zuckerman, 2020-09-15 A thoughtful perspective on humans capacity for moral behavior Kirkus Reviews A comprehensive introduction to religious skepticism Publishers Weekly In *What It Means to Be Moral Why Religion Is Not Necessary for Living an Ethical Life* Phil Zuckerman argues that morality does not come from God Rather it comes from us our brains our evolutionary past our ongoing cultural development our social experiences and our ability to reason reflect and be sensitive

to the suffering of others By deconstructing religious arguments for God based morality and guiding readers through the premises and promises of secular morality Zuckerman argues that the major challenges facing the world today from global warming and growing inequality to religious support for unethical political policies to gun violence and terrorism are best approached from a nonreligious ethical framework In short we need to look to our fellow humans and within ourselves for moral progress and ethical action In this brilliant provocative and timely book Phil Zuckerman breaks down the myth that our morality comes from religion compellingly making the case that when it comes to the biggest challenges we face today a secular approach is the only truly moral one Ali A Rizvi author of *The Atheist Muslim* **50 Voices of Disbelief** Russell Blackford,Udo Schüklenk,2011-09-26 50 Voices of Disbelief Why We Are Atheists presents a collection of original essays drawn from an international group of prominent voices in the fields of academia science literature media and politics who offer carefully considered statements of why they are atheists Features a truly international cast of contributors ranging from public intellectuals such as Peter Singer Susan Blackmore and A C Grayling novelists such as Joe Haldeman and heavyweight philosophers of religion including Graham Oppy and Michael Tooley Contributions range from rigorous philosophical arguments to highly personal even whimsical accounts of how each of these notable thinkers have come to reject religion in their lives Likely to have broad appeal given the current public fascination with religious issues and the reception of such books as *The God Delusion* and *The End of Faith* *God Is Great, God Is Good* William Lane Craig,Chad Meister,2010-08-24 In this magisterial collection the contemporary complaints against belief in God are addressed with intellectual passion and rigor by some of the most astute theological and philosophical minds of the day Including an interview by Gary Habermas with noted convert to theism Antony Flew and a direct critical response to Richard Dawkins s *God Delusion* by Alvin Plantinga *God Is Great God Is Good* offers convincing and compelling reassurance that though the world has changed God has not *Enough Is Enough* Rick Scarborough,2008 It s no secret that Christians have had a major impact on the last two presidential elections and Dr Rick Scarborough believes that now is not the time to retreat Now more than ever it is critical that all Bible believing Americans step up and let our voices be heard Scarborough challenges Christians to become involved in political action by revealing the issues that have caused the demise of America s Judeo Christian foundation and outlining several key steps readers can take right where they live if they agree that it s time to get involved Discover America s rich Christian foundations and the journey to the current political landscape *Enough Is Enough* will motivate every person who reads it to influence our country s policies and culture with biblical values *The New Atheism, Myth, and History* Nathan Johnstone,2018-06-11 This book examines the misuse of history in New Atheism and militant anti religion It looks at how episodes such as the Witch hunt the Inquisition and the Holocaust are mythologized to present religion as inescapably prone to violence and discrimination whilst the darker side of atheist history such as its involvement in Stalinism is denied At the same time another constructed history that of a perpetual and one sided conflict between religion and science rationalism is

commonly used by militant atheists to suggest the innate superiority of the non religious mind In a number of detailed case studies the book traces how these myths have long been overturned by historians and argues that the New Atheism s cavalier use of history is indicative of a troubling approach to the humanities in general Nathan Johnstone engages directly with the God debate at an academic level and contributes to the emerging study of non religion as a culture and an identity Faith and Learning David S. Sweeney,2018-10-31 Life is hard then you die It s as simple as that Dead bodies stay dead So in this modern scientific age how can any reasonable person possibly believe that Jesus actually rose from the dead Santa Claus and the Tooth Fairy turned out to be myths How is Jesus s Resurrection any different How can there possibly be any credible evidence for an event that happened two thousand years ago The resurrection of Jesus is the most important event in the history of the world if it s true If Jesus did rise then he is God the ultimate reality itself In him you can find the meaning of life the secret of happiness and the way to eternal life Raising Jesus provides the evidence to show that it really is true In this era of alternative facts Raising Jesus relies on the most balanced and up to date scholarship to shed trustworthy new insights into the evidence It does this in an easy to follow systematic way using engaging illustrations to reveal the logic of complex arguments Most importantly it deals head on with the biggest problem most people in our modern scientific age have with the resurrection the philosophical objection that dead people simply don t come back from the dead Raising Jesus ultimately shows how believing Jesus rose from the dead is in fact the most reasonable conclusion you can make *The New Atheism* Victor J. Stenger,2009-12-04 In recent years a number of bestselling books have forcefully argued that belief in God can no longer be defended on rational or empirical

grounds and that the scientific worldview has rendered obsolete the traditional beliefs held by Christianity Judaism and Islam The authors of these books Richard Dawkins Daniel Dennett Sam Harris Christopher Hitchens and Victor J Stenger have come to be known as the New Atheists Predictably their works have been controversial and attracted a good deal of critical reaction In this new book Victor J Stenger whose God The Failed Hypothesis was on the New York Times bestseller list in 2007 reviews and expands upon the principles of New Atheism and answers many of its critics He demonstrates in detail that naturalism the view that all of reality is reducible to matter and nothing else is sufficient to explain everything we observe in the universe from the most distant galaxies to the inner workings of the brain that result in the phenomenon of mind Stenger disputes the claim of many critics that the question of whether God exists is beyond the ken of science On the contrary he argues that absence of evidence for God is indeed evidence of absence when the evidence should be there and is not Turning from scientific to historical evidence Stenger then points out the many examples of evil perpetrated in the name of religion He also notes that the Bible which is still taken to be divine revelation by millions fails as a basis for morality and is unable to account for the problem of unnecessary suffering throughout the world Finally he discusses the teachings of ancient nontheist sages such as Buddha Lao Tzu and Confucius whose guidelines for coping with the problems of life and death did not depend upon a supernatural metaphysics Stenger argues that this way of nature is far superior to the traditional supernatural monotheisms which history shows can lead to a host of evils The New Atheism is a well argued defense of the atheist position and a strong rebuttal of its critics

THE TRUTH OF THE ORIGIN OF THE UNIVERSE Sabrie

Soloman,2024-06-12 In a world filled with scientific explanations and theories it can be easy to lose sight of the ultimate truth of our existence The truth is that the universe with all its intricate complexities did not come into being by mere chance or a random explosion It was carefully designed and orchestrated by a higher power a Creator who holds everything together When we look up at the night sky and see the countless stars and galaxies stretching out into infinity we cannot help but be in awe of the sheer magnitude and beauty of it all The heavens declare the glory of God as it says in the Bible and remind us of the greatness of the one who made it all The theory of the Big Bang which posits that the universe began as a singular point and expanded over billions of years is a flawed explanation for the origin of the universe It fails to account for the intricate design and order that we see in the cosmos as well as the existence of life on earth The marvel of our planet Earth with its perfect conditions for sustaining life points to a Creator who had a purpose and a plan in mind when he made it The countless galaxies and stars that we observe in the universe are a testament to the power and creativity of God They show us that we are part of a vast and wondrous creation one that was made by an intelligent designer who had a vision for it all The theory of evolution put forth by Charles Darwin is another flawed explanation for the diversity of life on earth It fails to explain the intricate complexities of living organisms and their unique design as well as the existence of the human soul It is clear that we are not the product of blind chance or random mutations but rather the handiwork of a loving and powerful

Creator The truth of the origin of the universe points to a Creator who holds everything together and has a purpose and a plan for it all God stretches out the heavens and allows light to reach us here on earth showing us his care and provision for his creation We are not the product of random chance or blind evolution but rather the cherished creation of a loving God who made us in his image Let us never forget the marvel and wonder of the universe and the greatness of the one who made it all

The Case Against Moral Atheism Ken Wheeler,2014-09-26 What if you decided today that God did not exist Would that change your morality Would you still turn in an honest tax return Why If you are a single mother having a difficult time making ends meet would you steal from the cash drawer at work to buy food for your baby Why not If an adult decided to prey on young children why would that be morally different than a crocodile feasting on a baby monkey at the watering hole in the jungle Why has the law of the jungle changed just because the jungle is now Wall Street and the Internet If humanity evolved from primordial slime pools who gets to declare that the pedophile is a criminal and the croc is just functioning according to his evolved DNA Why should a person adopt moral values if he believes a Creator God does not exist Does the Chaos Theory provide an answer to that question or is it just an attempt by the Atheist to fill in the blank with anything but God while avoiding the obvious and logical challenges produced by the concept of a Godless morality The Case Against Moral Atheism challenges anyone who does not believe in a moral law giver above mankind to consider why they should live moral lives if this life is all there is

God: the Evidence Ronald W. Larsen PhD,2022-09-19 The holy grail of physics is quantum gravity often called the theory of everything But any scientific theory will be incomplete without the God of the Bible Physicists claim the cosmos began with a big bang created from nothing But the word nothing is meaningless in physics Furthermore the big bang is an impenetrable barrier to whatever preceded it In addition a finite cosmos cannot contain within itself an explanation for its own existence To claim we are here by accident explains nothing and leads to a logical dead end The cause of the universe is information in the form of mathematical laws left behind for science to discover The fundamental properties of these laws have the same attributes as the Supreme Lawgiver of Genesis An intelligible

cosmos is unmistakable evidence the Creator is an Intelligent Mind The Creator s Voice is a valid scientific theory confirming the truth of Genesis God spoke the laws creating the universe out of nothing creatio ex nihilo The foundation of the universe is ethereal cosmic waves which interact according to the laws to create and sustain the illusion of reality we experience Space time energy and matter are made from quantum information nothing else is needed By a process of elimination God is the only possible explanation for everything we know The human mind is evidence consciousness is endemic to the cosmos Cosmic waves interact with the human mind in mysterious ways The cosmos relates to humans more like a great Mind than a mindless machine The god like nature of the human mind is evidence we are made imago Dei Even if God is included in a scientific theory it means little unless it can be shown God is a real Being alive present in the world and relevant to our lives
