Mindf*ck Christopher Wylie, 2019-10-08 For the first time the Cambridge Analytica whistleblower tells the inside story of the data mining and psychological manipulation behind the election of Donald Trump and the Brexit referendum connecting Facebook WikiLeaks Russian intelligence and international hackers Mindf*ck demonstrates how digital influence operations when they converged with the nasty business of politics managed to hollow out democracies The Washington Post Mindf*ck goes deep inside Cambridge Analytica's American operations which were driven by Steve Bannon's vision to remake America and fueled by mysterious billionaire Robert Mercer's money as it weaponized and wielded the massive store of data it had harvested on individuals in excess of 87 million to disunite the United States and set Americans against each other Bannon had long sensed that deep within America's soul lurked an explosive tension Cambridge Analytica had the data to prove it and in 2016 Bannon had a presidential campaign to use as his proving ground Christopher Wylie might have seemed an unlikely figure to be at the center of such an operation Canadian and liberal in his politics he was only twenty four when he got a job with a London firm that worked with the U K Ministry of Defense and was charged putatively with helping to build a team of data scientists to create new tools to identify and combat radical extremism online In short order those same military tools were turned to political purposes and Cambridge Analytica was born Wylie's decision to become a whistleblower prompted the largest data crime investigation in history His story is both expos and dire warning about a sudden problem born of very new and powerful capabilities It has not only laid bare the profound vulnerabilities and profound carelessness in the enormous companies that drive the attention economy it has also exposed the profound vulnerabilities of democracy itself What happened in 2016 was just a trial run Ruthless actors are coming for your data and they want to control what you think
